

Abstract: Runway incursions are a risk to the public traveling in aircraft. Reduction of runway incursions is listed by the DOT Office of the Inspector General as one of the top ten transportation management improvements needed, the National Transportation Safety Board (NTSB) has selected runway safety as one of their "most wanted" transportation safety improvements, and the FAA Administrator has directed that runway safety be one of the FAA's top five safety priorities. FAA has been concentrating on this issue for a decade and progress has been elusive, in part because of a lack of feedback from people working and flying on the runways in the NAS. Feedback from surveys will be used in the prevention of runway collisions and in the reduction of the severity and frequency of runway incursions.

Estimated Annual Burden Hours: An estimated 1,670 hours annually.

ADDRESSES: Send comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503, Attention FAA Desk Officer.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimates of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Issued in Washington, DC, on October 29, 2003.

Judith D. Street,

FAA Information Collection Clearance Officer, APF-100.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Agency Information Collection Agency Under OMB Review

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice

announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for extension of the currently approved collection. The ICR describes the nature of the information collection and the expected burden. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection information was published on July 25, 2003 on page 44137.

DATES: Comments must be submitted on or before December 5, 2003. A comment to OMB is most effective if OMB receives it within 30 days of publication.

FOR FURTHER INFORMATION CONTACT: Judy Street on (202) 267-9895.

SUPPLEMENTARY INFORMATION:

Federal Aviation Administration (FAA)

Title: Safe Disposition of Life Limited Aircraft Parts.

Type of Request: Extension of a currently approved collection.

OMB Control Number: 2120-0665.

Forms(s) N/A.

Affected Public: A total of 8,000 air carriers and manufacturers.

Abstract: This action responds to the Wendall H. Ford Investment and Reform Act for the 21st Century by requiring that all persons who remove any life-limited aircraft part be required to have a method to prevent the installation of that part after it has reached its life limit. This action reduces the risk of life-limited parts being used beyond their life limits. This action also requires that manufacturers of life-limited parts provide marking instructions, when requested.

Estimated Annual Burden Hours: An estimated 104,000 hours annually.

ADDRESSES: Send comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503, Attention FAA Desk Officer.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimates of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Issued in Washington DC, on October 29, 2003.

Federal Aviation Administration

[Docket No. FAA-2003-16227]

Policy and Procedures Concerning the Use of Airport Revenue: Petition of Sarasota-Manatee Airport Authority To Allow Use of Airport Revenue for Direct Subsidy of Air Carrier Operations

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Request for comments.

SUMMARY: This notice requests comments on a petition to amend the current Policy and Procedures Concerning the Use of Airport Revenue ("Revenue Use Policy"). The petitioner Sarasota-Manatee Airport Authority is an airport operator subject to the provisions of the Revenue Use Policy. The petitioner requests that the FAA amend the Revenue Use Policy to permit certain airport operators to use airport revenue for the direct subsidy of commercial air carrier operations under specific and limited circumstances. Currently, the Revenue Use Policy prohibits all airport operators that are the recipient or subject of Federal assistance for airport improvements ("airport sponsors") from using airport revenue to provide direct subsidies to air carriers for the provision of commercial service. However, the petitioner represents that some airport sponsors have been able to provide either financial subsidies or revenue guarantees to secure air carrier service. These airport sponsors have been general-purpose municipalities that can use funds from non-airport sources. On the other hand, those airport sponsors governed by a special-purpose airport authority cannot provide direct subsidies to air carriers, because all of their funds are considered airport revenue subject to the prohibitions in the Revenue Use Policy. The FAA is publishing for comment the petitioner's suggestion to consider limited use of airport revenue for direct subsidy of air carrier operations to be an "operating cost" of the airport under the Revenue Use Policy.

DATES: Comments must be received by January 5, 2003. Comments that are received after that date will be considered only to the extent possible.

ADDRESSES: The proposed policy amendment is available for public review in the Dockets Office, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590-0001. The documents have been filed under FAA Docket Number FAA-2003-16227. The Dockets Office is open between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The Dockets Office is on the plaza level of the Nassif Building at the Department of Transportation at the above address. Also, you, may review public dockets on the Internet at <http://www.dms.dot.gov>. Comments on the proposed policy must be delivered or mailed, in duplicate, to: the Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590-0001. You must identify the docket number "FAA Docket No FAA-2003-16227" at the beginning of your comments. Commenters wishing FAA to acknowledge receipt of their comments must include a preaddressed, stamped postcard on which the following statement is made: "Comments to FAA Docket No. FAA-2003-16227." The postcard will be date stamped and mailed to the commenter. You may also submit comments through the Internet to <http://www.dms.dot.gov>.

FOR FURTHER INFORMATION CONTACT: David Cushing, Airports Compliance Division, Office of Airport Safety and Standards, AAS-400, Federal Aviation Administration, 800 Independence Ave. SW., Washington, DC 20591, telephone (202) 267-8348.

SUPPLEMENTARY INFORMATION: The Revenue Use Policy (64 FR 7696); February 16, 1999), was adopted pursuant to the Federal Aviation Administration Authorization Act of 1994, and incorporates provisions of the Federal Aviation Administration Reauthorization Act of 1996. The Revenue Use Policy describes the scope of airport revenue that is subject to the Federal requirements on airport revenue use and lists those requirements. The Revenue Use Policy also describes prohibited and permitted uses of airport revenue and outlines the FAA's enforcement policies and procedures.

Governing Statutes and Policy

Title 49 U.S.C. 47107(b)(1) requires that grant agreements for airport development grants include an assurance that "the revenues generated

by a public airport will be expended for the capital or operating costs of—(A) the airport; (B) the local airport system; or (C) other local facilities owned or operated by the airport owner or operator and directly and substantially related to the air transportation of passengers or property." The same requirement is included in 49 U.S.C. 47133, which applies directly to any airport that has received Federal assistance.

Sections V and VI of the Revenue Use Policy, at 64 FR 7718-20, respectively list uses of airport revenue considered to be permitted or prohibited under the above statutes. The list of prohibited uses of airport revenue in section VI B. includes the following:

"12. Direct subsidy of air carrier operations. Direct subsidies are considered to be payments of airport funds to carriers for air service. Prohibited direct subsidies do not include waivers of fees or discounted landing or other fees during a promotional period. Any fee waiver or discount must be offered to all users of the airport, and provided to all users that are willing to provide the same type and level of new services consistent with the promotional offering. Likewise prohibited direct subsidies do not include support for air carrier advertising or marketing of new services to the extent permitted by section V of this Policy Statement."

The petitioner requests that the FAA amend the above policy statement to permit the limited use of airport revenue for direct subsidies to air carriers, as stated below. The FAA invites comment on the petition and the justification for the requested change in the Revenue Use Policy.

Petitioner's Requested Policy Amendment To Allow Use of Airport Revenue for Direct Subsidy of Air Carrier Operations

The petitioner requests an amendment to the Revenue Use Policy that would "permit airports that have less than 0.25 percent of the total U.S. passenger boardings to use airport revenues at their discretion for subsidies to air carriers willing to provide service to those airports." The petitioner suggests that the following conditions apply to an airport's use of the subsidy:

1. The community must have a minimum population of 200,000 residents in the airport's local county(s).
2. Airport revenues considered for use are not subject to the air carrier agreement in place and do not affect the rate-making methodology of the agreement.

3. Subsidy is limited to new service. New service defined as follows:

- Air carrier not presently at the airport.
- City pair presently served by an air carrier at the applicant airport.

4. Subsidy cannot exceed 12 consecutive months to any air carrier.

5. Air carrier receiving the subsidy must be willing to provide the following:

- Daily scheduled service with a minimum seating capacity of 50 seats.
- Must commit to a minimum of twelve consecutive months of service.

6. Air carrier cannot utilize program more than once at the same airport.

Issued in Washington, DC on October 24, 2003.

David L. Bennett,

Director, Airport Safety and Standards.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Intent To Prepare an Environmental Impact Statement and Hold Scoping Meetings for Mammoth Yosemite Airport, Mammoth Lakes, CA

AGENCY: Federal Aviation Administration.

ACTION: Notice to hold one (1) public scoping meeting and one (1) governmental and public agency scoping meeting.

SUMMARY: The Federal Aviation Administration (FAA) is issuing this notice to advise the public that an Environmental Impact Statement (EIS) will be prepared for the proposed expansion of Mammoth Yosemite Airport, Mammoth Lakes, California. To ensure that all significant issues related to the proposed action are identified, one (1) public scoping meeting and one (1) governmental and public agency scoping meeting will be held.

FOR FURTHER INFORMATION CONTACT: Camille Garibaldi, Environmental Protection Specialist, San Francisco Airports District Office, Federal Aviation Administration, Western-Pacific Region, 831 Mitten Road, Room 210, Burlingame, California 94010-1303. Telephone: 650/876-2927. Comments on the scope of the EIS should be submitted to the address above and must be received no later than 5 p.m. Pacific Standard Time, on Monday, December 29, 2003.

SUPPLEMENTARY INFORMATION: The FAA will prepare an EIS for the proposed future expansion of Mammoth Yosemite
