

distribution of crude oil refunds represents a reasonable compromise between costs to the government and potential benefits to the claimants.

Additional limitations will be necessary in the final round of crude oil refunds. All successful claimants have already had extensive opportunities over many years to establish their respective purchase volumes of refined petroleum products, which form the bases for their respective refunds. There will be no further opportunities to revise volumes during the final distribution. Furthermore, the period within which to apply for the final round of refund payments will be strictly limited to 180 days. No extensions of time will be granted, and no late applications will be accepted. No new applications will be accepted—the final crude oil refund payment is available only to successful claimants. After 16 years, it is important to bring this proceeding to a conclusion.

OHA seeks comments on these proposed procedures. Interested parties should send comments to the address shown on the present Notice. After OHA considers the comments received, we will issue a final Notice that will explain how successful claimants can apply for a final crude oil refund payment. The final Notice will be published in the **Federal Register**, and it will be available on the OHA Web site, <http://www.oha.doe.gov/>.

Issued in Washington, DC on November 5, 2003.
