

at conferences, published in the proceedings of conferences, or in journals. Improved NSF surveys will help policy makers in decisions on research and development funding,

graduate education, scientific and technical workforce, regulations, and reporting guidelines, as well as contributing to reduced survey costs.

*Burden on the Public.* NSF estimates that a total reporting and recordkeeping burden of 11,200 hours will result from pretesting to improve its surveys. The calculation is:

TABLE 1.—ANTICIPATED SURVEYS TO UNDERTAKE IMPROVEMENT PROJECTS, ALONG WITH THE NUMBER OF RESPONDENTS AND BURDEN HOURS PER SURVEY

Survey name	Number of respondents <sup>1</sup>	Hours
Graduate Student Survey .....	<sup>2</sup> 15,500	31,500
Sestat Surveys .....	5,000	5,000
New Postdoc Survey .....	800	1,000
New and Redesigned R&D Surveys:		
Academic R&D .....	600	600
Government R&D .....	50	50
Nonprofit R&D .....	200	100
Industry R&D .....	500	1,000
Survey of Scientific & Engineering Facilities .....	300	150
Instrumentation .....	150	300
Public Understanding of S&E Surveys .....	200	50
Scientific Publications .....	120	250
Additional surveys not specified .....	400	1,200
<b>Total .....</b>	<b>23,820</b>	<b>41,200</b>
Graduate Student Survey .....	500	1,500
Sestat Surveys .....	5,000	5,000
New Postdoc Survey .....	800	1,000

**NUCLEAR REGULATORY COMMISSION**

**[Docket Nos. 50-245, 50-336, and 50-423]**

**Dominion Nuclear Connecticut, Inc., Millstone Power Station, Unit Nos. 1, 2, and 3; Notice of Consideration of Approval of Application Regarding Proposed Corporate Restructuring and Opportunity for a Hearing**

The U.S. Nuclear Regulatory Commission (the Commission or NRC) is considering the issuance of an order under 10 CFR 50.80 approving the indirect transfer of Facility Operating Licenses Nos. DPR-21, DPR-65, and

NPF-49 for the Millstone Power Station, Unit Nos. 1, 2, and 3 (Millstone), respectively, to the extent held by Dominion Nuclear Connecticut, Inc. (DNC). DNC is a wholly-owned, indirect subsidiary of Dominion Resources, Inc. (DRI), the ultimate parent of DNC. The proposed changes would result from a corporate realignment involving several steps, including: the elimination of certain intermediate subsidiaries of DRI that are parents of DNC; the merger of certain intermediate subsidiaries of DRI, affecting the chain of ownership of DNC; and the insertion of a new direct parent for DNC in the corporate structure.

According to an application for approval filed by DNC dated October 8, 2003, the proposed corporate restructuring would involve an internal realignment and consolidation of energy marketing functions within the Dominion companies. The changes would not result in any direct transfer of the facility licenses for the Millstone units which are and would remain held by DNC and, in the case of Millstone Unit No. 3, certain unaffiliated co-owners. Following the proposed restructuring, DNC would continue to operate and (in conjunction with the unaffiliated owners of Millstone Unit No. 3) own the Millstone units. No physical changes to the Millstone units or operational changes are being proposed in the application.

Pursuant to 10 CFR 50.80, no license, or any right thereunder, shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission shall give its consent in writing. The Commission will approve an application for the indirect transfer of a license, if the Commission determines that the underlying transaction that will effectuate the indirect transfer will not affect the qualifications of the holder of the license, and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission pursuant thereto.

The filing of requests for hearing and petitions for leave to intervene, and written comments with regard to the license transfer application, are discussed below.

By December 2, 2003, any person whose interest may be affected by the Commission's action on the application may request a hearing and, if not the applicant, may petition for leave to intervene in a hearing proceeding on the Commission's action. Requests for a hearing and petitions for leave to intervene should be filed in accordance with the Commission's rules of practice

set forth in Subpart M, "Public Notification, Availability of Documents and Records, Hearing Requests and Procedures for Hearings on License Transfer Applications," of 10 CFR part 2. In particular, such requests and petitions must comply with the requirements set forth in 10 CFR 2.1306, and should address the considerations contained in 10 CFR 2.1308(a). Untimely requests and petitions may be denied, as provided in 10 CFR 2.1308(b), unless good cause for failure to file on time is established. In addition, an untimely request or petition should address the factors that the Commission will also consider, in reviewing untimely requests or petitions, set forth in 10 CFR 2.1308(b)(1)-(2).

Requests for a hearing and petitions for leave to intervene should be served upon Lillian M. Cuoco, Senior Counsel, Dominion Resources Services, Inc., Rope Ferry Road, Waterford, CT 06385 (telephone: 860-444-5316; fax: 860-444-4278; e-mail:

*lillian\_cuoco@dom.com*; the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001 (e-mail address for filings regarding license transfer cases only: *ogclt@nrc.gov*; and the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, in accordance with 10 CFR 2.1313.

The Commission will issue a notice or order granting or denying a hearing request or intervention petition, designating the issues for any hearing that will be held and designating the Presiding Officer. A notice granting a hearing will be published in the **Federal Register** and served on the parties to the hearing.

As an alternative to requests for hearing and petitions to intervene, by December 12, 2003, persons may submit written comments regarding the license transfer application, as provided for in 10 CFR 2.1305. The Commission will consider and, if appropriate, respond to these comments, but such comments will not otherwise constitute part of the decisional record. Comments should be submitted to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, and should cite the publication date and page number of this **Federal Register** notice.

For further details with respect to this action, see the application dated October 8, 2003, available for public inspection at the Commission's Public Document Room (PDR), located at One White Flint North, Public File Area O1

F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management System's (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, 301-415-4737 or by e-mail to *pdr@nrc.gov*.

Dated at Rockville, Maryland this 5th day of November, 2003.

For The Nuclear Regulatory Commission.

**Richard B. Ennis,**

*Senior Project Manager, Section 2, Project Directorate I, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.*

## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-498 and 50-499]

### STP Nuclear Operating Company, et al.; Notice of Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (Commission) has issued Amendment No. 157 to Facility Operating License (FOL) No. NPF-76 and Amendment No. 145 to FOL No. NPF-80 for the South Texas Project, Units 1 and 2, respectively, issued to STP Nuclear Operating Company, *et al.* (the licensee). South Texas Project, Units 1 and 2 is located in Matagorda County, Texas. The amendments consist of changes to the FOLs and Appendix C to the FOLs. The amendments delete antitrust conditions contained in the FOLs, and Appendix C, for South Texas Project, Units 1 and 2. The amendments are effective as of the date of issuance.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Notice of Consideration of Issuance of Amendment to Facility Operating License and Opportunity for a Hearing in connection with this action was published in the **Federal Register** on October 1, 2002 (67 FR 61685) and
