

Dated: February 3, 2003.

Faryar Shirzad,

Assistant Secretary for Import
Administration.

[FR Doc. 03-3088 Filed 2-6-03; 8:45 am]

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

International Trade Administration

National Institutes of Health— Bethesda, MD; Notice of Decision on Application for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 a.m. and 5 p.m. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW., Washington, DC.

Docket Number: 02-048. *Applicant:* National Institutes of Health, Bethesda, MD 20892-0135. *Instrument:* (2) each Multi-Tasking Radiosynthesis Devices with Accessories. *Manufacturer:* Synthia Lab System Sweden AB, Sweden. *Intended Use:* See notice at 67 FR 77749, December 19, 2002.

Comments: None received. Decision: Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States.

Reasons: The foreign instrument provides computer driven, robotically controlled modular reactors for producing more than 15 ¹⁴C-labeled radiopharmaceutical compounds for research in human and primate brain chemistry and radiochemical compound development. The Lawrence Berkeley National Laboratory advised January 27, 2003, that (1) this capability is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

We know of no other instrument or apparatus of equivalent scientific value to the foreign instrument which is being manufactured in the United States.

Gerald A. Zerdy,

Program Manager, Statutory Import Programs
Staff.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

International Trade Administration

Applications for Duty-Free Entry of Scientific Instruments

Pursuant to section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, DC 20230. Applications may be examined between 8:30 a.m. and 5 p.m. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW., Washington, DC.

Docket Number: 02-052. *Applicant:* University of Chicago, 920 East 58th Street, Chicago, IL 60637. *Instrument:* Electron Microscope, Model Tecnai G² F30 S-TWIN. *Manufacturer:* FEI Company, The Netherlands. *Intended Use:* The instrument is intended to be used for research in the following areas:

1. Nanostructured Solids

Projects investigating metal, semiconductor, and biological nanocrystals, focusing both on the characterization of individual nanocrystals as well as on their self-assembly properties.

2. Nanostructured Polymeric Architectures

Projects aimed at elucidating the nanoscale phase separation and pattern formation of block copolymers, including novel conjugated copolymers. Also, the use of those copolymer structures as nano-templates and scaffolds for organic/inorganic composites.

3. Nanoscale Bio-Structures

Projects investigating the structure and formation of bio-fibers and bio-membranes, as well as their potential for novel materials applications.

*Application accepted by
Commissioner of Customs:* December 27, 2002.

Docket Number: 03-001. *Applicant:* University of Missouri-Kansas City, School of Dentistry, 650 E. 25th Street, Kansas City, MO 64108. *Instrument:* (2) Each Scanning Acoustic Microscopes, Models SAM 2000 and WINSAM 100.

Manufacturer: Kramer Scientific Instruments GmbH, Germany. *Intended Use:* The instruments are intended to be used for projects including micro-mechanical measurement at the cellular/tissue level, and interfacial coupling defects in experimental oxirane/polyol composites. *Other studies include:* (1) Determining whether the lack of mechanical strain permits the osteocyte to send signals initiating bone resorption and (2) to study the fracture mechanics of newly synthesized low-shrinking and low-stress producing resin composite restorative materials. Application accepted by Commissioner of Customs: January 3, 2003.

Docket Number: 03-002. *Applicant:* University of Colorado, JILA, 440 UCB, Boulder, CO 80309-0440. *Instrument:* DFB Fiber Laser with Amplifier, Model Y10. *Manufacturer:* Koheras A/S, Denmark. *Intended Use:* The instrument is intended to be used to study the energy level of a single trapped Hg⁺ ion. *Application accepted by Commissioner of Customs:* January 15, 2003.

Gerald A. Zerdy,

Program Manager, Statutory Import Programs
Staff.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 020303D]

Proposed Information Collection; Comment Request; Socioeconomic Monitoring Program for the Florida Keys National Marine Sanctuary

AGENCY: National Oceanic and
Atmospheric Administration (NOAA).

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before April 8, 2003.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW,

Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument and instructions should be directed to Dr. Vernon Leeworthy, 301-713-3000, extension 138, or at Bob.Leeworthy@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The purpose of this information collection is to obtain socioeconomic monitoring information in the Florida Keys National Marine Sanctuary (FKNMS). In 1997, regulations became effective that created a series of "no take zones" in the FKNMS. Monitoring programs are used to test the ecological and socioeconomic impacts of the ≥no take zones. ≥ Three voluntary data collection efforts support the socioeconomic monitoring program.

The first collection involves a set of four panels on commercial fishing operations, where commercial fishermen will be interviewed to assess financial performance and assess the impacts of Sanctuary regulations. Information on catch, effort, revenues, operating and capital costs will be obtained to do financial performance analysis. Information on socioeconomic factors for developing profiles of the commercial fishermen such as age, sex, education level, household income, marital status, number of family members, race/ethnicity, percent of income derived from fishing, percent of income derived from study area, years of experience in fishing will be gathered to compare panels with the general commercial fishing population. The data would be collected annually.

The second collection will monitor recreational for-hire operations through the use of dive logs for estimating use in the ≥no take areas ≥ versus other areas for snorkeling, scuba diving and glass-bottom boat rides. Volunteers will collect the logbooks monthly.

The third collection will survey all users of ≥no take areas. ≥ Respondents will be asked to rate both the importance and satisfaction with various natural resource attributes and characteristics (e.g., water clarity, coral cover, number and diversity of sea life, etc.).

II. Method of Collection

Interviews will generally be used. The users surveys will also include a mailed questionnaire, and dive shops will be requested to maintain records.

III. Data

OMB Number: 0648-0409.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Individuals or households, business or other for-profit organizations.

Estimated Number of Respondents: 788.

Estimated Time Per Response: 3 hours for a commercial fishing panel member; 10 hours for a dive shop; and 20 minutes for a questionnaire or telephone survey of a visitor to or a resident of a Sanctuary Preservation Area or Ecological Reserve.

Estimated Total Annual Burden Hours: 725.

Estimated Total Annual Cost to Public: \$0.

IV. Request for Comments

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: January 31, 2003.

Gwellnar Banks

Management Analyst, Office of the Chief Information Officer.

National Oceanic and Atmospheric Administration

[I.D. 020303E]

Proposed Information Collection; Comment Request; Commercial Harvesters and Recreational Party and Charter Boat Socio-cultural and Economic Data Collection Pilot Study

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and

respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before April 8, 2003.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument and instructions should be directed to Jonathan O'Neil at 978-281-9257, or to Jon.Oneil@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This is a request to extend Paperwork Reduction Act approval for data collection for the Socio-Economic Pilot Study sponsored by the Atlantic Coast Cooperative Statistics Program (ACCSP) and conducted by the National Marine Fisheries Service. Due to a one year delay in initiating the project, data collection efforts must be extended through June 30th, 2004 to allow for completion of the proposed data collection cycle.

This pilot study is designed to develop socio-cultural and economic information systems for commercial and recreational fisheries. Three specific arenas are being addressed during this study. One is to identify and address potential problems with the mechanics of implementing the system. These include all data gathering, entry, and storage activities as well as the ability to link the data to all other ACCSP data. The second is to carry out a field test of the survey instrument across the different cultural and socio-economic contexts in which the data-gathering system must eventually be implemented. Field testing questions and instruments is standard procedure in preparing for any survey research. The third arena is to utilize the collected information for test runs of several standard economic models.

II. Method of Collection

The study is collecting social, cultural, and economic data from commercial and recreational party/charter fishing vessels' owners, captains, and crew via face-to-face interviews.
