

proposed AD. We also estimate that it would take about 2 work hours per engine to perform the proposed inspection at a hot section inspection interval, and 30 work hours per engine to replace impellers found with a groove or a step in the rear face at shop visit. The average labor rate is \$65 per work hour. Required parts would cost about \$55,427 per engine. Based on these figures, we estimate that for impellers inspected at hot section inspections, the total labor cost of the proposed AD to U.S. operators is \$96,200. On the basis of 100 percent replacement, the total labor cost of the proposed AD to U.S. operators is estimated to be \$1,443,000 and the parts replacement cost is estimated to be \$41,015,980 for a total replacement cost of \$42,555,180.

Regulatory Findings

We have determined that this proposed AD would not have federalism implications under Executive Order 13132. This proposed AD would not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that the proposed regulation:

1. Is not a "significant regulatory action" under Executive Order 12866;
2. Is not a "significant rule" under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and
3. Would not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

We prepared a summary of the costs to comply with this proposal and placed it in the AD Docket. You may get a copy of this summary by sending a request to us at the address listed under

Finally, the proposed rule contains miscellaneous technical amendments and corrections needed to bring the DOSAR in line with recent changes in the Federal Acquisition Regulation.

DATES: Public comments must be received by January 12, 2004.

ADDRESSES: Comments may be sent to: Gladys Gines, Procurement Analyst, Department of State, Office of the Procurement Executive, 2201 C Street NW., Suite 603, State Annex Number 6, Washington, DC 20522-0602; e-mail address: ginesgg@state.gov. SUPPLEMENTARY INFORMATION:

Background

As indicated in the Summary, the proposed rule makes numerous changes in a variety of areas. The more substantive changes are:

- Revision to 601.603-70 to delete several acquisition offices that have been eliminated.

- Addition of information in 604.502 regarding the posting of domestic solicitations on the Statebuy Interactive Platform (SIP). The SIP is Internet-based.

- Extension of the waiver in 605.202-70 to March 12, 2004, as approved by the agency head. Numerous administrative changes are made to Part 605 and other parts of the DOSAR to change the references to the Commerce Business Daily (CBD) to the Governmentwide Point of Entry (GPE), in accordance with Federal Acquisition Circular (FAC) 97-26.

- Addition of 609.404-70 to require that contracting officers, in addition to checking the Excluded Parties List, also check the list of entities on the Department of Treasury's Office of Foreign Asset Control List.

- Removal of the class deviation in 609.405 regarding checking the Excluded Parties List (EPL). The class deviation waived the requirement for overseas contracting activities to check the EPL, as well as waived the requirement for domestic contracting activities for actions under the simplified acquisition threshold. This deviation was put in place when the EPL was available only in hard copy, and receipt by both domestic and overseas contracting activities was inconsistent. Now that the EPL is available on the Internet, the class deviation is no longer required.

- Addition of a new Subpart 611.6. This reflects the Department's authority to use the Defense Priorities Allocation System (DPAS) for acquisitions related to the Department's Embassy Security Protection Program, as authorized by the Department of Commerce.

- Addition of a new Part 612 to delegate to the Head of the Contracting Activity the approval of requests for waiver to tailor a commercial item clause or provision that is inconsistent with customary commercial practices.

- Addition to 613.303-5 to allow for the placement of individual orders against blanket purchase agreements for commercial items that exceed the simplified acquisition threshold.

- Addition of Bureau Executive Directors to 617.504-70(a) as signatories of Economy Act Interagency Acquisition Agreements.

- Addition of HUBZone small, veteran-owned small, and service-disabled veteran-owned small businesses to the list of small business concerns in Part 619.

- Addition of 619.202-70 to outline the Department's Mentor-Protégé
