Numerous plans have already been studied by Contra Costa County and the City of Pleasant Hill. The primary focus of these studies has been to reduce damages from significant flood events. These reductions would minimize the number of homes required to participate in the Federal Emergency Management Agency (FEMA) Flood Insurance Program.

4. *Alternatives.* Potential alternatives to reduce flood damages include: (1) No action; (2) a single flood detention basin at Grayson branch with inlet and outlet control and no channel improvements; (3) multiple flood detention basins at Grayson and Murderer's branch with inlet and outlet control and no channel improvements; (4) multiple flood detention basins at Grayson branch and Murderer's branch except that the flood detention basin at Grayson branch is in a different location that occupies a larger area and no channel improvements; and (4) a smaller flood detention basin with inlet and outlet control with channel improvements.
