Silicon Graphics, Inc., Worldwide Manufacturing Organization Including Leased Workers of Kelly Services Chippewa Falls, WI; Notice of Affirmative Determination Regarding Application for Reconsideration

By letter of July 22, 2003, a petitioner requested administrative reconsideration of the Department of Labor's Notice of Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance, applicable to workers of the subject firm. The Department's determination notice was signed on June 17, 2003. The notice was published in the **Federal Register** on July 3, 2003 (68 FR 39976).

The Department reviewed the request for reconsideration and has determined that the petitioner has provided additional information. Therefore, the Department will conduct further investigation to determine if the workers meet the eligibility requirements of the Trade Act of 1974.

Conclusion

After careful review of the application, I conclude that the claim is of sufficient weight to justify reconsideration of the Department of Labor's prior decision. The application is, therefore, granted.

Signed at Washington, DC this 3rd day of November, 2003.

Southeastern Adhesives Company, Lenoir, NC; Notice of Revised Determination on Reopening

On November 10, 2003, the Department, on its own motion, reopened its investigation for the former workers of the subject firm.

The initial investigation was initiated on September 12, 2003, and resulted in a negative determination issued on October 21, 2003. The investigation findings showed that workers of the subject firm did not supply at least 20 percent of production or sales to a firm that employed a group of workers who received a certification of eligibility to apply for trade adjustment assistance (TAA). Consequently, workers of Southeastern Adhesives Company, Lenoir, North Carolina, could not be certified as a secondarily affected worker group. The denial notice was published in the **Federal Register** on November 6, 2003 (68 FR 62832).

The Department has obtained new information showing that the subject firm supplied adhesives to a furniture manufacturer whose workers were certified eligible to apply for TAA and the loss of business contributed importantly to worker separations at the Lenoir, North Carolina plant.

Conclusion

After careful consideration of the facts obtained on reopening, I determine that workers of Southeastern Adhesives Company, Lenoir, North Carolina, qualify as adversely affected secondary workers under Section 222 of the Trade Act of 1974, as amended.

In accordance with the provisions of the Act, I make the following revised determination:

All workers of Southeastern Adhesives Company, Lenoir, North Carolina, who became totally or partially separated from employment on or after September 2, 2002, through two years from the date of certification, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed in Washington, DC this 17th day of November 2003.

Certifying Officer, Division of Trade Adjustment Assistance.

SUPPLEMENTARY INFORMATION:

I. Background

The Wagner-Peyser Act, as amended, provides that the Office of National Programs shall assist the State public employment services throughout the country in promoting uniformity in its administrative and statistical procedures, furnishing and publishing information as to opportunities for employment and other information of value in the operation of its system, and maintaining a system for clearing labor between the States.

Pursuant to the Wagner-Peyser Act, the U.S. Department of Labor has established regulations at 20 CFR 653.500 covering the processing of agricultural intrastate and interstate job orders. Section 563.501 provides that the wage offered by employers must not be less than the prevailing wage or the applicable Federal or State minimum wage; whichever is higher. Also, the regulations for the temporary employment of alien agricultural and logging workers in the United States, 20 CFR part 655, subparts B and C, for the H-2A program, under the Immigration Reform and Control Act of 1986, requires farmers and other agricultural employers to pay workers the adverse effect wage rate, the prevailing wage rate, or the legal Federal or State minimum wage rate; whichever is highest.

The prevailing wage rate is used to implement these regulations covering intrastate and interstate recruitment of farmworkers. The vehicle for establishing the prevailing wage rate is Form ETA-232, The Domestic Agricultural In-Season Wage Report, and Form ETA-232-A, Wage Survey Interview Record. The ETA-232 Report contains the prevailing wage finding based on survey data collected from employers and reported by the States on Form ETA-232-A.

II. Desired Focus of Comments

Currently, the Employment and Training Administration is soliciting

comments concerning the proposed request to extend the expiration date of the collection request to:

*Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

*Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

*Enhance the quality, utility, and clarity of the information to be collected; and

*Minimize the burden of the collection of information on those who are required to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed above in the addressee section of this notice.

III. Current Actions

Activity covered by regulations at 20 CFR 653.500 and 20 CFR part 655, subparts B and C, particularly the H-2A program, continues to expand, further increasing the need for accurate and timely wage information on which to base prevailing agricultural wage determinations. There is no similar wage information which is available or can be used for these determinations which apply to a specific crop of livestock activity, in a specific agricultural wage reporting area for a specific period of time during the peak harvest season.
