

SCANA and PSNC now seek authorization for PSNC to pay dividends out of capital or unearned surplus before taking into consideration any impairment of goodwill recognized as a result of the merger between the companies ("Merger"),¹ in addition to previous authorizations in prior financing orders ("Prior Orders"),² which permitted PSNC to pay dividends out of additional paid-in-capital to the amount of its aggregate retained earnings immediately prior to the Merger and out of earnings before the amortization of goodwill.

On February 9, 2000, in the Merger Order, the Commission authorized SCANA to acquire PSNC. SCANA registered as a holding company under the Act on February 11, 2000. SCANA now owns directly three public-utility companies, PSNC, SCE&G (which generates, transmits, distributes and sells electricity and purchases and sells natural gas in South Carolina) and GENCO (which owns and operates a 580 MW generating facility in Goose Creek, South Carolina and sells all of the power generated by the facility to SCE&G).

In the Prior Orders,³ the Commission authorized SCANA, the three utility subsidiaries and the nonutility subsidiaries to engage, subject to certain limitations, in certain financing and related activities. Authorization for these financing related activities under the Prior Orders expired February 11, 2003.⁴ PSNC's authorization, however, to pay dividends out of capital or unearned surplus was not subject to this expiration date.

PSNC was authorized to pay dividends out of the additional paid-in-capital account up to the amount of its aggregate retained earnings immediately prior to the Merger and out of earnings before the amortization of the goodwill arising from the Merger.⁵ The authorization was granted to take into consideration (1) the application of the purchase method of accounting to the Merger that caused PSNC's retained earnings, from before the Merger, to be

recharacterized as additional paid-in-capital and (2) the substantial level of goodwill resulting from the Merger, which was to be "pushed-down" to PSNC and reflected as additional paid-in-capital after the Merger (effectively leaving PSNC with no retained earnings, the traditional source of dividend payments, but a balance sheet showing a significant equity level).

In connection with the Merger, SCANA obtained Commission approval for PSNC to pay dividends (1) out of the additional paid-in-capital account up to the amount of its aggregate retained earnings immediately prior to the Merger and (2) out of earnings before the amortization of the goodwill arising from the Merger.⁶

In 2001, after the Merger in 2000, Statement of Financial Accounting Standard ("SFAS") 142 (Goodwill and Other Intangible Assets) was issued. SFAS 142 eliminated the previously permitted amortization of goodwill and provides for, at least, an annual assessment to determine whether goodwill amounts are impaired. If the annual analysis determines that goodwill (or other intangibles) is impaired, the company must take an impairment charge in that year. SCANA did such an analysis and, as of January 1, 2002, PSNC was required to take an impairment charge of \$230 million against the value of its goodwill. For the years 2000 and 2001, PSNC amortized goodwill, as previously authorized.

Applicants now request that PSNC be authorized to pay dividends out of earnings before any deductions resulting from any impairment of either goodwill recognized as a result of the Merger. SCANA asserts that, based on anticipated earnings and dividend levels, as well as its estimated debt, PSNC will not have common equity below 30% over the next several years. Moreover, SCANA states that, through control of debt and dividend levels, PSNC's common equity can be maintained at a 30% level, at least (even if PSNC were to incur additional goodwill impairment charges). In no case will dividends be paid if the equity of PSNC, as a percentage of total capital, is below 30% on a consolidated basis.
