Title: Availability of INTELSAT Space Segment Capacity to Users and Providers Seeking to Access INTELSAT Directly.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 10.

Estimated Time Per Response: 2 hours.

Frequency of Response: One time filing requirement.

Total Annual Burden: 20 hours.

Annual Cost Burden: \$3,000.

Needs and Uses: The Commission is seeking extension (no change) to this information collection. On 9/19/00, the Commission released a Report and Order in IB Docket No. 00-91, FCC 00-340, pursuant to the recently enacted Open-Market Reorganization for the Betterment of International Telecommunications Act (ORBIT Act). Section 641(b) of the Communications Satellite Act of 1962, as amended by the ORBIT Act, requires the FCC to determine whether "sufficient opportunity" exists for users and service providers to "to access INTELSAT space segment capacity directly from INTELSAT to meet their service and capacity requirements." The Report and Order concluded that users and service providers currently do not have sufficient opportunity for direct access to INTELSAT. The Report and Order also concluded that the FCC should adopt a "commercial solution". This requires the parties—Comsat (which controls the most U.S. accessible capacity) and other direct access users, to attempt to negotiate mutually agreeable arrangements and to file reports with the Commission on or before March 13, 2001 on the progress of their negotiations.

OMB Control No.: 3060-0357.

Title: Section 63.701, Requests for Designation as a Recognized Private Operating Agency (RPOA).

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 10.

Estimated Time Per Response: 3.5 hours.

Frequency of Response: One time filing requirement.

Total Annual Burden: 35 hours.

Annual Cost Burden: \$11,900 (rounded to \$12,000).

Needs and Uses: The Commission requests this information in order to make recommendations to the U.S. Department of State for granting recognized private operating agency (RPOA) status to requesting entities. The Commission does not require entities to request RPOA status. Rather, this is a voluntary application process for use by companies that believe that obtaining RPOA status will be beneficial in persuading foreign governments to allow them to conduct business abroad. RPOA status also permits companies to join the International Telecommunications Union's (ITU's) Telecommunications Sector, which is the standards-setting body of the ITU.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0686.

Title: Streamlining the Internet Section 214 Authorization Process and Tariff Requirements.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 1,650.

Estimated Time Per Response: .50—3,208 hours.

Frequency of Response: On occasion, quarterly and annual reporting requirements, third party disclosure requirement and recordkeeping requirement.

Total Annual Burden: 73,896 hours.

Total Annual Cost: \$12,467,000.

Needs and Uses: On 9/12/00, the Commission adopted an Order on Reconsideration in IB Docket No. 97-142, Rules and Policies on Foreign Participation in the U.S. Telecommunications Market, which addressed petitions seeking reconsideration of the Report and Order in this proceeding in which the Commission modified its rules and policies regarding foreign participation in the U.S. telecommunications market. The Order on Reconsideration, drafted in response to the Telecommunications Act of 1996, mandates the FCC to undertake, in every even-numbered year beginning in 1998, a review of all regulations issued under the Communications Act and to eliminate unnecessary government regulation of the telecommunications industry. The information collections pertaining to Part 63 are necessary largely to determine the qualifications of applicants to provide common carrier international telecommunications service, including applicants that are affiliated with foreign carriers, and to determine whether and under what conditions the authorizations are in the public interest, convenience and necessity. The information collections pertaining to Part 1 of the rules are necessary to determine whether the FCC should grant a license for proposed submarine cables landing in the United States.

OMB Control No.: 3060-0855.

Title: Telecommunications Reporting Worksheet, CC Docket No. 96-45.

Form Nos.: FCC Forms 499, 499-A and 499-Q.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit and not-for-profit institutions.

Number of Respondents: 5,500 respondents; 15,500 responses.

Estimated Time Per Response: 13 hours.

Frequency of Response: On occasion, quarterly, annual and one-time reporting requirements, third party disclosure requirement and recordkeeping requirement.

Total Annual Burden: 201,500 hours.

Total Annual Cost: N/A.

Needs and Uses: This year the Commission modified the way in which it calculates universal service contributions. The Commission will be incorporating changes to the Telecommunications Worksheet, FCC Form 499-A, to reflect the revised methodology and resulting changes in the true-up process. We are anticipating a moderate increase to the total annual burden as a result of revising FCC Form 499-A.

OMB Control No.: 3060-0684.

Title: Amendment to the Commission's Rules Regarding a Plan for Sharing the Costs of Microwave Relocation.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit and not-for-profit institutions.

Number of Respondents: 2,000.

Estimated Time Per Response: .875—40 hours.

Frequency of Response: On occasion, semi-annual and annual reporting requirements, third party disclosure requirement and recordkeeping requirement.

Total Annual Burden: 32,200 hours.

Total Annual Cost: \$862,000.

Needs and Uses: The information collections in this proceeding are necessary to effectuate the relocation of fixed microwave incumbents from the 2 GHz band to clear spectrum for the development of Personal Communications Services (PCS). In addition, the collections are necessary to effectuate the Commission's plan for PCS relocators and subsequent PCS licensees to share the costs of relocating existing 2 GHz microwave facilities, thus providing for a fair and efficient relocation process. The information is used by respondents to negotiate relocation costs and submit relocation information to the clearinghouse; and two clearinghouses to determine the reimbursement obligations owed by later-entrant PCS entities. This information collection makes the following additions to the currently approved collection: (1) Reflects an additional burden of independent third party appraisal of the relocation costs for self-relocating incumbents; and (2) reflects a new estimate of the burden on industry to set up and maintain the clearinghouses.
