

mail address or other contact information in the body of your comment. Also include this contact information on the outside of any disk or CD ROM you submit, and in any cover letter accompanying the disk or CD ROM. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. EPA's policy is that EPA will not edit your comment, and any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

i. *EPA Dockets.* Your use of EPA's electronic public docket to submit comments to EPA electronically is EPA's preferred method for receiving comments. Go directly to EPA Dockets at <http://www.epa.gov/edocket/>, and follow the online instructions for submitting comments. Once in the system, select "search," and then key in docket ID number OPP-2003-0380. The system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment.

ii. *E-mail.* Comments may be sent by e-mail to opp-docket@epa.gov, Attention: Docket ID Number OPP-2003-0380. In contrast to EPA's electronic public docket, EPA's e-mail system is not an "anonymous access" system. If you send an e-mail comment directly to the docket without going through EPA's electronic public docket, EPA's e-mail system automatically captures your e-mail address. E-mail addresses that are automatically captured by EPA's e-mail system are included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket.

iii. *Disk or CD ROM.* You may submit comments on a disk or CD ROM that you mail to the mailing address identified in Unit I.C.2. These electronic submissions will be accepted in WordPerfect or ASCII file format. Avoid the use of special characters and any form of encryption.

2. *By mail.* Send your comments to: Public Information and Records Integrity Branch (PIRIB) (7502C), Office of Pesticide Programs (OPP), Environmental Protection Agency, 1200

Pennsylvania Ave., NW., Washington, DC 20460-0001, Attention: Docket ID Number OPP-2003-0380.

3. *By hand delivery or courier.* Deliver your comments to: Public Information and Records Integrity Branch (PIRIB), Office of Pesticide Programs (OPP), Environmental Protection Agency, Rm. 119, Crystal Mall #2, 1921 Jefferson Davis Hwy., Arlington, VA, Attention: Docket ID Number OPP-2003-0380. Such deliveries are only accepted during the docket's normal hours of operation as identified in Unit I.B.1.

D. How Should I Submit CBI to the Agency?

Do not submit information that you consider to be CBI electronically through EPA's electronic public docket or by e-mail. You may claim information that you submit to EPA as CBI by marking any part or all of that information as CBI (if you submit CBI on disk or CD ROM, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

In addition to one complete version of the comment that includes any information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket and EPA's electronic public docket. If you submit the copy that does not contain CBI on disk or CD ROM, mark the outside of the disk or CD ROM clearly that it does not contain CBI. Information not marked as CBI will be included in the public docket and EPA's electronic public docket without prior notice. If you have any questions about CBI or the procedures for claiming CBI, please consult the person listed under **FOR FURTHER INFORMATION CONTACT.**

E. What Should I Consider as I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Provide specific examples to illustrate your concerns.
6. Offer alternative ways to improve the registration activity.

7. Make sure to submit your comments by the deadline in this notice.

8. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

II. Registration Applications

EPA received applications as follows to register pesticide products containing active ingredients not included in any previously registered products pursuant to the provision of section 3(c)(4) of FIFRA. Notice of receipt of these applications does not imply a decision by the Agency on the applications.

II. What Action is the Agency Taking?

This notice announces receipt by the Agency of applications from registrants to cancel 75 pesticide products registered under section 3 of FIFRA. These registrations are listed in ascending sequence by registration number in Table 1 of this unit.

A. Background Information

Diazinon is an organophosphorous insecticide and is one of the most widely used insecticides in the U.S. It is used for outdoor non-agricultural, as well as agricultural, pest control.

Under a December 5, 2000, memorandum of agreement (MOA), the technical registrants of diazinon agreed to certain provisions regarding outdoor non-agricultural end-use products. All companies holding registrations for diazinon outdoor non-agricultural end-use products submitted letters to the Agency agreeing to the following changes in the conditions of their registrations according to the MOA:

1. Stop manufacturing all diazinon outdoor non-agricultural end-use products no later than June 30, 2003.

2. Stop shipment of all diazinon outdoor non-agricultural end-use products no later than August 31, 2003.

3. Voluntarily cancel all diazinon outdoor non-agricultural end-use product registrations by December 31, 2004.

4. Adhere to certain existing stocks provisions, which are explained in Unit IV.

The Reregistration Eligibility Decision (RED) document summarizes the findings of EPA's reregistration process for individual chemical cases, and reflects the Agency's decision on risk assessment and risk management for uses of the individual pesticides. EPA has issued an Interim Reregistration Eligibility Decision (IRED) document assessing the risks from exposure to diazinon.

B. Requests for Voluntary Cancellation

Under section 6(f)(1)(A) of FIFRA, registrants may request, at any time, that their pesticide registrations be canceled or amended to terminate one or more pesticide uses. Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation. In addition, section 6(f)(1)(C) of FIFRA requires that EPA provide a 180-day comment period on a request for voluntary termination of any minor agricultural use before granting the request, unless: (1) The registrants request a waiver of the comment period, or (2) the Administrator determines that the continued use of the pesticide would pose an unreasonable adverse effect on the environment. EPA will apply a 180-day comment period to this notice.

III. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. After complying with the requirements in 6(f)(1), the Administrator may approve such a request.

IV. Provisions for Disposition of Existing Stocks

The Agency intends to issue a cancellation order following consideration of all comments received during the comment period, unless the comments warrant further review of this request. Any cancellation order issued in response to this request will have an effective date of December 31, 2004.

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation action. As noted above, the companies listed in Table 2 in Unit II., have agreed to stop shipment of all diazinon outdoor non-agricultural end-use products no later than August 31, 2003. In accordance with the MOA, all companies holding

registrations for outdoor non-agricultural end-use diazinon products agreed to the following existing stocks provisions:

1. Sale and distribution of these outdoor non-agricultural end-use products containing diazinon will not be permitted after December 31, 2004. Except for purposes of product recovery pursuant to the 2000 MOA, shipping such stocks for export consistent with the requirements of FIFRA section 17, or proper disposal in accordance with applicable law.

2. Use of existing stocks may continue until stocks are exhausted. Any such use must be in accordance with the label.

II. Background

A. What Action is the Agency Taking?

This Order follows up a June 27, 2003, notice of receipt of written requests by Agrilience, LLC; Dow AgroSciences, LLC; and RiceCo, LLC to voluntarily amend or cancel their product registrations to terminate the use of propanil on small grains (68 FR 38328) (FRL-7310-6). For fenamiphos, this Order follows up a September 27, 2002 (67 FR 61098) (FRL-7274-2), notice of receipt of a request from Bayer CropScience to voluntarily cancel all their registrations for products containing fenamiphos.

As part of these notices, the Agency indicated that it would issue an Order granting the voluntary product and use registration amendments or cancellations unless the Agency received substantive comment within the respective 30-day public comment periods that would merit its further review of these requests. EPA did not receive any comments specific to these cancellations. Accordingly, the Agency hereby issues in this notice a Cancellation Order granting the requested amendments or cancellations for propanil and fenamiphos registrations. Any distribution, sale or use of the products subject to this Cancellation Order is only permitted in accordance with the terms of the existing stocks provisions of this Cancellation Order.
