Title: NSPS for Standards of Performance for Storage Vessels for Petroleum Liquids for Which Construction, Reconstruction or Modification Commenced after June 11, 1973, and Prior to May 19, 1978 (40 CFR Part 60, Subpart K).

Abstract: The New Source Performance Standards (NSPS) for the regulations published at 40 CFR part 60, subpart K were proposed on June 11, 1973, and promulgated on March 8, 1974. These regulations apply to facilities in 40 CFR part 60, subpart K that store petroleum liquids in: storage vessels with petroleum liquids which have a storage capacity greater than 151,416 liters (40,000 gallons), and for which construction commenced after June 11, 1973, and prior to May 19, 1978; storage vessels greater than 151,416 liters (40,000 gallons) but not exceeding 246,052 liters (65,000 gallons), and where construction or modification commenced after March 8, 1974, and prior to May 19, 1978; storage vessels that have a capacity greater than 246,052 liters (65,000 gallons), and where construction or modification commenced after June 11, 1973, and prior to May 19, 1978. Affected facilities report only if a storage vessel is no longer subject to 40 CFR part 60, subpart K and will now be subject to the current storage vessel standard, 40 CFR part 60, subpart Kb. The subpart K standards also require the owner/operator to document (recordkeeping) the activities of the storage period, the maximum true vapor pressure, and the type of petroleum liquid stored. This information is recorded only when a petroleum liquid is changed in the

storage vessel. Facilities that are not subject to the Standards of Performance for Storage Vessels for Petroleum Liquids, 40 CFR part 60, subpart K, are storage vessels of petroleum or condensate stored, processed, and/or treated at a drilling and production facility prior to custody transfer.

Responses to this information collection are deemed to be mandatory, per section 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined not to be private. However, any information submitted to the Agency for which a claim of confidentiality is made will be safeguarded according to the Agency policies set forth in title 40, chapter 1, part 2, subpart B—Confidentiality of Business Information (see 40 CFR part 2; 41 FR 36902, September 1, 1976; amended by 43 FR 40000, September 8, 1978; 43 FR 42251, September 20, 1978; 44 FR 17674, March 23, 1979).

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 3 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of facilities that store petroleum liquids for which construction, reconstruction or modification commenced after June 11, 1973, and prior to May 19, 1978.

Estimated Number of Respondents: 220.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 669 hours.

Estimated Total Annual Cost: \$43,000, includes \$0 annualized capital/startup costs, \$0 annual O&M costs, and \$43,000 labor costs.

Changes in the Estimates: There is a decrease of 9 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease in burden from the most recently approved ICR is due to an adjustment. Calculation errors from the previous ICR in reference to the number of respondents were corrected in this ICR.

Dated: December 2, 2003.

Doreen Sterling,

Acting Director, Collection Strategies Division.

FEDERAL COMMUNICATIONS COMMISSION

[DA 03-3533]

Request for Durational Billing

AGENCY: Federal Communications Commission.

ACTION: Notice; withdrawal of petition for reconsideration.

SUMMARY: This document provides notice of the proposed withdrawal of a April 21, 1999, petition for reconsideration of the Commission's determination that the cost of imposing technology on payphone service providers in order to implement six second billing increments was prohibitive. The company which filed the reconsideration petition, PocketScience, Inc., was dissolved by its parent company more than two years ago. Thus, there is no existing entity to sponsor the reconsideration petition.

DATES: This petition will be dismissed without prejudice effective January 12, 2004, unless the Wireline Competition Bureau receives an opposition to the withdrawal prior to that date.

ADDRESSES: Oppositions to the withdrawal notice should be mailed to the Commission's Secretary through the Commission's contractor, Natek, Inc., at 236 Massachusetts Avenue, NE., Suite 110, Washington, DC 20002.

FOR FURTHER INFORMATION CONTACT: Jon Stover, Wireline Competition Bureau, Pricing Policy Division, (202) 418-0390.

SUPPLEMENTARY INFORMATION: On January 28, 1999, the Commission determined in the *Third Report and Order, And Order on Reconsideration of the Second Report and Order*, 64 FR 13701 (March 22, 1999) that duration-based billing methodology would result in added expense, delay, and confusion. On April 21, 1999, PocketScience, Inc.

filed a petition for reconsideration of this portion of the Third Report and Order. Subsequently, petitioner, PocketScience, Inc. was acquired by PocketMail Inc. in May, 2001. On October 21, 2003, PocketMail, Inc. stated in an e-mail to FCC staff that it had formally dissolved PocketScience Inc. and that it no longer had any interest in pursuing the April 21, 1999, petition. Accordingly, unless there is opposition to the proposed withdrawal, PocketScience's April 21, 1999, petition will be dismissed without prejudice. 47 CFR 1.748. Therefore, this proceeding will be terminated effective January 12, 2004, unless the Wireline Competition Bureau receives an opposition to the withdrawal before that date.

Filings can be sent by hand or messenger delivery, by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail (although we continue to experience delays in receiving U.S. Postal Service mail). The Commission's contractor, Natek, Inc., will receive hand-delivered or messenger-delivered paper filings for the Commission's Secretary at 236 Massachusetts Avenue, NE., Suite 110, Washington, DC 20002.
