SUPPLEMENTARY INFORMATION:

Title: 30 CFR Part 208—Sale of Federal Royalty Oil; Royalty-in-Kind (RIK) Program (Form MMS-4070, Application for the Purchase of Royalty Oil).

OMB Control Number: 1010-0042.

Bureau Form Number: Form MMS-4070.

Abstract: The Department of the Interior (DOI) is responsible for matters relevant to mineral resource development on Federal and Indian lands and the Outer Continental Shelf (OCS). The Secretary of the Interior (Secretary) under The Mineral Leasing Act (30 U.S.C. 1923) and The Outer Continental Shelf Lands Act (43 U.S.C. 1353) is responsible for managing the production of minerals from Federal and Indian lands and the OCS, collecting royalties from lessees who produce minerals, and distributing the funds collected in accordance with applicable laws. MMS performs the royalty management functions for the Secretary.

"Royalty oil" is crude oil produced from leased Federal lands, both onshore and offshore, in instances in which the Government exercises the option to accept a lessee's royalty payment in oil rather than in money. Title to the oil is transferred to the Government and then sold to an eligible refiner. When the Secretary determines that small refiners do not have access to adequate supplies of oil, the Secretary may dispose of any oil taken as royalty by conducting a sale of such oil, or by allocating it to eligible refiners.

When the Secretary decides to offer royalty oil taken in kind for sale to eligible refiners, MMS will publish a "Notice of Availability of Royalty Oil" (also known as "Invitation for Offer") in the **Federal Register**, or other printed media, or on the MMS web site, when appropriate. The Notice includes administrative details concerning the application, allocation, and the contract award process for royalty oil. Refiners interested in purchasing oil will submit the Form MMS-4070 in accordance with instructions issued by MMS for completion of the form. MMS uses the

information collected on the Form MMS-4070 to determine if the applicant meets eligibility requirements to contract to purchase royalty oil. Information collected also provides a basis for the allocation of available royalty oil among qualified refiners. Responses to this information collection are necessary for refiners to participate in royalty oil sales.

We are also revising this ICR to include reporting requirements contained in 30 CFR Part 208 that were inadvertently overlooked when the final rule was published. See the chart below for these requirements and associated burden hours. These reporting requirements are rare and unusual circumstances where the standard procedures set out in the rule are not appropriate.

MMS is requesting OMB's approval to continue to collect this information. Not collecting this information would limit the Secretary's ability to discharge his/her duties and may also result in loss of royalty payments. Proprietary information submitted is protected, and there are no questions of a sensitive nature included in this information collection.

We have also changed the title of this ICR from "Application of the Purchase of Royalty Oil" to "30 CFR Part 208—Sale of Federal Royalty Oil; Royalty-in-Kind (RIK) Program (Form MMS-4070, Application for the Purchase of Royalty Oil)" to clarify the regulatory language we are covering under 30 CFR Part 208.
