Drinking Water Contaminant Candidate List 2; Notice

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: The Safe Drinking Water Act (SDWA), as amended in 1996, requires the Environmental Protection Agency (EPA) to publish a list of contaminants which, at the time of publication, are not subject to any proposed or promulgated national primary drinking water regulations, that are known or anticipated to occur in public water systems, and which may require regulations under SDWA (section 1412(b)(1)). SDWA, as amended, specifies that EPA must publish the first list of drinking water contaminants no later than 18 months after the date of enactment, *i.e.*, by February 1998 (henceforth referred to as the 1998 Contaminant Candidate List or the 1998 CCL), and every five years thereafter. Today's notice announces EPA's preliminary decision to carry over the remaining 51 contaminants on the 1998 CCL as the draft CCL 2, provides information on EPA's efforts to expand and strengthen the underlying CCL listing process to be used for future CCL listings, and requests comment on CCL-related activities to improve the drinking water contaminant listing process. Today's draft CCL includes 42 chemicals or chemical groups and nine microbiological contaminants. The
