### Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. It has not been designated by the Administrator of the Office of Information and Regulatory Affairs as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

### Environment

We have analyzed this rule under Commandant Instruction M16475.ID, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321-4370f), and have concluded that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2-1, paragraph (32)(e), of the Instruction, from further environmental documentation. Paragraph (32)(e) excludes the promulgation of operating regulations or procedures for drawbridges from the environmental documentation requirements of NEPA.

### 40 CFR Part 9

[FRL-7645-6]

### OMB Approvals Under the Paperwork Reduction Act; Technical Amendment

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** In compliance with the Paperwork Reduction Act (PRA), this technical amendment amends the table that lists the Office of Management and Budget (OMB) control numbers issued under the PRA for Emergency Planning and Notification.

**EFFECTIVE DATE:** This final rule is effective April 12, 2004.

**FOR FURTHER INFORMATION CONTACT:** Sicy Jacob, (202) 564-8019.

**SUPPLEMENTARY INFORMATION:** EPA is amending the table of currently approved information collection request (ICR) control numbers issued by OMB for various regulations. The amendment updates the table to list those information collection requirements promulgated under the Emergency Planning and Notification, which appeared in the **Federal Register** on April 22, 1987 (52 FR 13378). The affected regulations are codified at 40 CFR part 355. The OMB Control Number currently listed for this ICR in 40 CFR part 9 is incorrect (2050-0046). The correct OMB Control Number is 2050-0092. EPA will continue to present OMB control numbers in a consolidated table format to be codified in 40 CFR part 9 of the Agency's regulations, and in each CFR volume containing EPA regulations. The table lists CFR citations with reporting, recordkeeping, or other information collection requirements, and the current OMB control numbers. This listing of the OMB control numbers and their subsequent codification in the CFR satisfies the requirements of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*) and OMB's implementing regulations at 5 CFR part 1320.

This ICR was previously subject to public notice and comment prior to

OMB approval. Due to the technical nature of the table, EPA finds that further notice and comment is unnecessary. As a result, EPA finds that there is "good cause" under section 553(b)(B) of the Administrative Procedure Act, 5 U.S.C. 553(b)(B), to amend this table without prior notice and comment.

### I. Statutory and Executive Order Review

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and is therefore not subject to review by the Office of Management and Budget. In addition, this action does not impose any enforceable duty, contain any unfunded mandate, or impose any significant or unique impact on small governments as described in the Unfunded Mandates Reform Act of 1995 (Public Law 104-4). This rule also does not require prior consultation with State, local, and tribal government officials as specified by Executive Order 13132 (64 FR 43255, August 10, 1999) or Executive Order 13175 (65 FR 67249, November 9, 2000), or involve special consideration of environmental justice related issues as required by Executive Order 12898 (59 FR 7629, February 16, 1994). Because this action is not subject to notice-and-comment requirements under the Administrative Procedure Act or any other statute, it is not subject to the regulatory flexibility provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This rule also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997) because EPA interprets Executive Order 13045 as applying only to those regulatory actions that are based on health or safety risks, such that the analysis required under section 5-501 of the Order has the potential to influence the regulation. This rule is not subject to Executive Order 13045 because it does not establish an environmental standard intended to mitigate health or safety risks.

#### Congressional Review Act

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. Section 808 allows the issuing agency to make a good cause finding that notice and public procedure is impracticable, unnecessary or contrary to the public interest. This determination must be supported by a

brief statement, 5 U.S.C. 808(2). As stated previously, EPA has made such a good cause finding, including the reasons therefor, and established an effective date of April 12, 2004. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

**Approval of Section 112(l) Authority for Hazardous Air Pollutants; Equivalency by Permit Provisions; National Emission Standards for Hazardous Air Pollutants From the Pulp and Paper Industry; State of North Carolina**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Direct final rule.

**SUMMARY:** On August 26, 2003, the EPA published in the **Federal Register** a direct final rule to approve the North Carolina Department of Environment and Natural Resource’s (NC DENR) equivalency by permit program, pursuant to section 112(l) of the Clean Air Act, to implement and enforce State permit terms and conditions that substitute for the National Emission Standards for Hazardous Air Pollutants from the Pulp and Paper Industry and the National Emission Standards for Hazardous Air Pollutants for Chemical Recovery Combustion Sources at Kraft, Soda, Sulfito and Stand-alone Semi-chemical Pulp Mills, for the International Paper Riegelwood mill in Riegelwood, North Carolina. Today’s action is taken to amend the approval of NC DENR’s section 112(l) authority for hazardous air pollutants, equivalency by permit provisions, in order to extend its coverage to include the following four mills: International Paper Roanoke Rapids mill in Roanoke Rapids, North Carolina; Blue Ridge Paper Products in Canton, North Carolina; Weyerhaeuser New Bern facility in New Bern, North Carolina; and the Weyerhaeuser Plymouth facility in Plymouth, North Carolina.

**DATES:** This direct final rule is effective June 11, 2004 without further notice, unless EPA receives adverse comment by May 12, 2004. If adverse comment is received, EPA will publish a timely withdrawal of this direct final rule in the **Federal Register**.
