

person-in-charge of the transfer of fuel receive a letter of instruction, for prevention of pollution.

Need: This collection of information is needed as part of the Coast Guard's pollution prevention compliance program.

Respondents: Owners, operators, masters, and persons-in-charge of vessels.

Frequency: On occasion.

Burden Estimate: The estimated burden is 55,484 hours a year.

4. *Title:* Licensing and Manning Requirements for Officers of Towing Vessels.

OMB Control Number: 1625-0078 [Formerly 2115-0623].

Summary: Licensing and manning requirements ensure that towing vessels operating on the navigable waters of the U.S. are under the control of licensed officers who meet certain qualification and training standards.

Need: Title 46 CFR part 10 prescribe regulations for the licensing of maritime personnel. This information collection is necessary to ensure that a mariner's training information is available to assist in determining his or her overall qualifications to hold certain licenses.

Respondents: Owners and operators towing vessels.

Frequency: On occasion.

Burden Estimates: The estimated burden is 17,159 hours a year.

5. *Title:* Navigation Safety Equipment and Emergency Instructions for Certain Towing Vessels.

OMB Control Number: 1625-0082 [Formerly 2115-0628].

Summary: Navigation safety regulations help assure that the mariner piloting a towing vessel has adequate equipment, charts, maps, and other publications. For inspected towing vessels, a muster list and emergency instructions provide effective plans and references for crew to follow in an emergency situation.

Need: The purpose of the regulations is to improve the safety of towing vessels and the crews that operate them.

Respondents: Owners, operators and masters of vessels.

Frequency: On occasion

Burden Estimates: The estimated burden is 367,701 hours a year.

Dated: April 8 2004.

Nathaniel S. Heiner,

Acting, Assistant Commandant for C4 and Information Technology.

BILLING CODE 4910-15-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-4903-N-29]

Notice of Submission of Proposed Information Collection to OMB; Description of Materials

AGENCY: Office of the Chief Information Officer.

ACTION: Notice.

SUMMARY: The proposed information collection requirement described below has been submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

HUD is requesting renewal of the approval to collect this information. This collection provides information on the materials used and assembly required for new single-family home construction and improvements. HUD/FHA uses this information to estimate the value of the homes and compute the maximum mortgage amount for FHA insurance.

DATES: Comments Due Date: May 13, 2004.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB approval Number (2502-0192) and should be sent to: HUD Desk Officer, Office of Management and Budget, New Executive Office Building, Washington, DC 20503; fax: 202-395-6974.

FOR FURTHER INFORMATION CONTACT:

Wayne Eddins, Reports Management Officer, AYO, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410; e-mail Wayne_Eddins@HUD.gov;

telephone (202) 708-2374. This is not a toll-free number. Copies of available documents submitted to OMB may be obtained from Mr. Eddins.

SUPPLEMENTARY INFORMATION: This notice informs the public that the U.S. Department of Housing and Urban Development (HUD) has submitted to OMB, for emergency processing, a survey instrument to obtain information from faith based and community organizations on their likelihood and success at applying for various funding programs. This Notice is soliciting comments from members of the public and affecting agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) enhance the quality, utility, and clarity of the information to be collected; and (4) minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

This notice also lists the following information:

Title of Proposal: Description of Materials.

OMB Approval Number: 2502-0192.

Form Numbers: HUD-92005.

Description of the Need for the Information and its Proposed Use: This collection provides information on the materials used and assembly required for new single family home construction and improvements. HUD/FHA uses this information to estimate the value of the homes and compute the maximum mortgage amount for FHA insurance.

Respondents: Business or other for-profit.

Frequency of Submission: On occasion.

	Number of respondents	Annual responses	×	Hours per response	=	Burden hours
Reporting burden:	2,500	0.5		2		25,000

Total Estimated Burden Hours:
25,000.

Status: Extension of a currently approved collection.

Authority: Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. 35, as amended.

Dated: April 7, 2004.

Wayne Eddins,

Departmental PRA Compliance Officer, Office of the Chief Information Officer.

BILLING CODE 4210-72-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Endangered and Threatened Wildlife and Plants; 5-Year Review of the Bull Trout

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of review.

SUMMARY: The U.S. Fish and Wildlife Service (Service), announces a 5-year review of the bull trout (*Salvelinus confluentus*) under section 4(c)(2)(A) of the Endangered Species Act of 1973 (Act) (16 U.S.C. 1531 *et seq.*). The purpose of reviews conducted under this section of the Act is to ensure that the classification of species as threatened or endangered on the List of Endangered and Threatened Wildlife and Plants (List) is accurate.

The 5-year review is an assessment of the best scientific and commercial data available at the time of the review. Therefore, we are requesting submission of any new information (best scientific and commercial data) on the bull trout since its original listing as a threatened species conterminously in the lower 48

states in 1999 (64 FR 58932). If the present classification of this species is not consistent with the best scientific and commercial information available, the Service will recommend whether or not a change is warranted in the Federal classification of bull trout. Any change in Federal classification would require a separate final rule-making process.

DATES: Information submitted for our consideration must be received on or before July 1, 2004.

ADDRESSES: Information submitted should be sent to the U.S. Fish and Wildlife Service, Bull Trout Coordinator, Attention: Bull Trout 5-year Review, 911 NE. 11th Avenue, Portland, Oregon, 97232. Information received in response to this notice and review will be available for public inspection by appointment, during normal business hours, at the above address. New information regarding the bull trout may also be sent electronically to R1BullTrout5Y@r1.fws.gov.

FOR FURTHER INFORMATION CONTACT: John Young at the above address, or at 503/231-2767.

SUPPLEMENTARY INFORMATION:

Why Is a 5-Year Review Conducted?

Section 4(c)(2)(A) of the Act requires that we conduct a review of listed species at least once every 5 years. We are then, under section 4(c)(2)(B) and the provisions of subsections (a) and (b), to determine, on the basis of such a review, whether or not any species should be removed from the List (delisted), or reclassified from endangered to threatened, or threatened to endangered. Our regulations at 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing those species currently

under active review. This notice announces our active review of the bull trout.

What Information Is Considered in the Review?

The 5-year review considers all new information available at the time of the review. This review will consider the best scientific and commercial data that has become available since the current listing determination or most recent status review, such as:

A. Species biology including, but not limited to, population trends, distribution, abundance, demographics, and genetics;

B. Habitat conditions including, but not limited to, amount, distribution, and suitability;

C. Conservation measures that have been implemented that benefit the species;

D. Threat status and trends (see five factors under heading "How do we determine whether a species is endangered or threatened?"); and

E. Other new information, data, or corrections including, but not limited to, taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

How Is the Bull Trout Currently Listed?

The List is found in 50 CFR 17.11 (wildlife) and 17.12 (plants). Amendments to the List through final rules are published in the **Federal Register**. The List is also available on our Internet site at <http://endangered.fws.gov/wildlife.html#Species>. In Table 1 below, we provide a summary of the listing information for the bull trout.

TABLE 1.—SUMMARY OF THE LISTING INFORMATION FOR THE BULL TROUT

Common name	Scientific name	Status	Where listed	Final listing rule
bull trout	<i>Salvelinus confluentus</i>	Threatened	U.S.A., conterminous (lower 48 states).	64 FR 58932(01–NOV–99).

Definitions Related to This Notice

The following definitions are provided to assist those persons who contemplate submitting information regarding the species being reviewed:

A. *Species* includes any species or subspecies of fish, wildlife, or plant, and any distinct population segment of any species of vertebrate, which interbreeds when mature.

B. *Endangered* means any species that is in danger of extinction throughout all or a significant portion of its range.

C. *Threatened* means any species that is likely to become an endangered species within the foreseeable future throughout all or a significant portion of its range.

How Do We Determine Whether a Species Is Endangered or Threatened?

Section 4(a)(1) of the Act establishes that we determine whether a species is endangered or threatened based on one or more of the five following factors:

A. The present or threatened destruction, modification, or curtailment of its habitat or range;

B. Overutilization for commercial, recreational, scientific, or educational purposes;

C. Disease or predation;

D. The inadequacy of existing regulatory mechanisms; or

E. Other natural or manmade factors affecting its continued existence.

Section 4(a)(1) of the Act requires that our determination be made on the basis
