Training and technical assistance needs will be identified by CBCAP lead agency staff in collaboration with ACYF Central and Regional Office personnel, and coordinated with other ongoing national training and technical assistance efforts. The Children's Bureau is also working closely with its network of Child Welfare National Resource Centers to respond to training and technical assistance needs related to CFSRs, PIPs and other priorities. The NRC for CBCAP is also expected to work closely with these other national efforts. The Resource Center will also be actively involved with identifying other training and technical assistance needs based on their work with the Lead Agencies. Training outcomes should be achieved through a combination of strategies, including on-site training, on and off-site technical assistance, and consultation with all appropriate stakeholder groups.
