DEPARTMENT OF THE INTERIOR

Endangered and Threatened Wildlife and Plants; 90-Day Finding on a Petition To List the Colorado River Cutthroat Trout

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of 90-day petition finding.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce a 90-day finding for a petition to list the Colorado River cutthroat trout (CRCT)

(*Oncorhynchus clarki pleuriticus*) as threatened or endangered under the Endangered Species Act of 1973, as amended. We find the petition and additional information available in our files did not present substantial scientific or commercial information indicating that listing this subspecies may be warranted. We will not be initiating a further status review in response to this petition. We ask the public to submit to us any new information that becomes available concerning the status of or threats to the species. This information will help us monitor and encourage the conservation of this species.

DATES: The finding announced in this document was made on April 8, 2004. You may submit new information concerning this species for our consideration at any time.

ADDRESSES: Information, data, or comments concerning this finding should be submitted to the Assistant Field Supervisor, Ecological Services, U.S. Fish and Wildlife Service, 764 Horizon Drive, Building B, Grand Junction, Colorado 81506, or by e-mail to al_pfister@fws.gov. The petition, finding, supporting data, and comments are available for public inspection, by appointment, during normal business hours, at the above address.

FOR FURTHER INFORMATION CONTACT:

Patty Schrader Gelatt, at the above address, by telephone at 970-243-2778, or by e-mail at patty_schradergelatt@fws.gov.

SUPPLEMENTARY INFORMATION:

Background

Section 4(b)(3)(A) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*) (ESA), requires that within 90 days of receipt of a petition, to the maximum extent practicable, we make a finding on whether a petition to list, delist, or reclassify a species presents substantial scientific or commercial information indicating that the requested action may be warranted. The term "species" includes any subspecies of fish or wildlife or plants, and any distinct population segment of any species of vertebrate fish or wildlife that interbreeds when mature. The finding is based upon all information provided or referenced in the petition and all other information available to us at the time the finding was made. To the maximum extent practicable, this finding is to be made within 90 days of receipt of the petition, and the finding is to be published promptly in the **Federal Register**. If we find substantial information present, we are required to promptly commence a review of the

status of the species (50 CFR 424.14). "Substantial information" is defined in 50 CFR 424.14(b) as "that amount of information that would lead a reasonable person to believe that the measure proposed in the petition may be warranted."

On December 16, 1999, we received a formal petition to list the CRCT as threatened or endangered in its occupied habitat within its known historic range, in accordance with provisions in section 4 of the ESA. The petition was filed by the Center for Biological Diversity, the Biodiversity Legal Foundation, Biodiversity Associates, Ancient Forest Rescue, Southwest Trout, Wild Utah Forest Campaign, Colorado Wild, and Mr. Noah Greenwald.

On January 12, 2000, we notified the petitioners that our Listing Priority Guidance, published in the **Federal Register** (64 FR 57114) on October 22, 1999, designated the processing of new listing petitions as a "Priority 4" activity, a lower priority than emergency listing (Priority 1), processing final decisions on proposed listings (Priority 2), and resolving the status of candidate species (Priority 3). We also informed the petitioners that due to staff and budget limitations, the petition could not be immediately addressed.

On August 8, 2000, we received a notice of intent to sue from the Center for Biological Diversity, Biodiversity Associates, Biodiversity Legal Foundation, Colorado Wild, Wild Utah Forest Campaign, and Mr. Noah Greenwald concerning our failure to produce a 90-day finding on the subject petition in accordance with the provisions of section 4 of the ESA. We responded on August 31, 2000, reiterating that we would not be able to begin an evaluation of the CRCT petition until the work on the higher priority activities was completed. In the spring of 2003, the Service determined appropriate funds were available to address the subject petition.

In addition, the Service received correspondence from Mr. Noah Greenwald on September 20, 2002, providing additional information.

The September 20, 2002, correspondence from the petitioners recognized that some of the information presented in the original petition is outdated due to the passage of time. The petitioners discussed information provided by the states focusing on three specific issues—hybridization, competition, and predation from nonnatives; habitat degradation; and inadequacy of existing regulation. The petitioners again asserted that the range
