

detaching from the servo trim tab and causing the servo trim tab to flutter on airplanes with a turbine engine installed. The actions specified in this AD are intended to prevent a single failure of the elevator servo

trim tab system, which could cause severe elevator flutter. Such elevator flutter could lead to possible loss of control of the airplane.

What Must I Do To Address This Problem?

(e) To address this problem, you must do the following:

Actions	Compliance	Procedures
(1) Do not operate any airplane that has a turbine engine installed per STC No. SA3777NM and DOES NOT have an elevator servo-tab and redundant control linkage per STC No. SA01059SE.	Within 3 calendar months after April 20, 2004 (the effective date of AD 2004-05-01) or within 250 hours time-in-service (TIS) after April 20, 2004 (the effective date of AD 2004-05-01), whichever occurs first.	Not Applicable.
(2) You may install at the same time a turbine engine per STC No. SA3777NM and a new elevator servo-tab and redundant control linkage per STC No. SA01059SE. Follow American Aeromotives, Inc. DHC-3 Otter Service Letter No. AAI-DHC3-02.01, Revision No. IR, dated April 9, 2002.
(4) Do not install a turbine engine per STC No. SA3777NM, unless you have installed a new elevator servo-tab and redundant control linkage per STC No. SA01059SE.	As of April 20, 2004 (the effective date of AD 2004-05-01).	Not Applicable.

May I Request an Alternative Method of Compliance?

(f) You may request a different method of compliance or a different compliance time for this AD by following the procedures in 14 CFR 39.19. Unless FAA authorizes otherwise, send your request to your principal inspector. The principal inspector may add comments and will send your request to the Manager, Seattle Aircraft Certification Office (ACO), FAA.

NASA Grant and Cooperative Agreement Handbook—Certifications, Disclosures, and Assurances

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Final rule.

SUMMARY: This final rule amends the NASA Grant and Cooperative Agreement Handbook (Handbook) to require that announcements of funding opportunities advise potential applicants for grants and cooperative agreements that they will be required to submit required certifications, disclosures, and assurances with their proposals; and clarify the methods for ensuring compliance with certifications, disclosures, and assurances. This change is made to inform applicants of the requirement to demonstrate compliance prior to proposal preparation instead of prior to award, thereby giving potential applicants advance notice of these requirements.

EFFECTIVE DATE: April 22, 2004.

ADDRESSES: Interested parties may submit comments, identified by RIN number 2700-AC96, via the Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments. Comments may also be submitted to Suzan Moody, NASA, Office of Procurement, Contract Management Division (Code HK), Washington, DC 20546. Comments can also be submitted by e-mail to: Suzan.P.Moody@nasa.gov.

SUPPLEMENTARY INFORMATION:

A. Background

The Handbook currently requires grant officers to ensure that all necessary certifications, disclosures, and assurances regarding debarment and suspension, lobbying, and nondiscrimination have been obtained prior to awarding a grant or cooperative agreement. This policy effectively requires applicants to demonstrate compliance with the required certifications, disclosures, and assurances prior to award but not necessarily prior to proposal submission. This change will require that announcements of funding opportunities advise applicants that they must demonstrate compliance with all required certifications, disclosures, and assurances in their proposal submissions. This change is made to

inform applicants of the requirement to demonstrate compliance prior to proposal preparation instead of prior to award, thereby giving potential applicants advance notice of these requirements. Additionally, the methods for demonstrating compliance with certifications, disclosures, and assurances are clarified. The first method provides for each individual certification, disclosure, and assurance to be signed by the Authorizing Institutional Representative. The second method currently provides that "Signature by the Authorizing Institutional Representative on the proposal Cover Page may confirm that all necessary certifications and assurances are met." This statement is only accurate when the Cover Page includes a notice that lists each certification and assurance, and states that signature by the Authorizing Institutional Representative confirms that these specific certifications and assurances are met. To clarify this requirement, the Handbook will be revised to state: "Signature by the Authorizing Organizational Representative on the proposal Cover Page may confirm that all necessary certifications and assurances are met, provided that the Cover Page includes a notice to that effect." An administrative change is made to change the term "Authorizing Institutional Representative" to "Authorizing Organizational Representative" because the latter term is more commonly used by NASA recipients. Finally, this final rule corrects the list of NASA implementing regulations in paragraph (c) of the Provision at § 1260.32, "Nondiscrimination" by adding "14 CFR 1253".

This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

B. Regulatory Flexibility Act

NASA certifies that this final rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, because the changes do not impose additional requirements. The changes only modify the timing of existing requirements.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because this final rule does not impose any new recordkeeping or information collection requirements, or

collection of information from offerors, contractors, or members of the public that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

Revision of Patent Term Extension and Patent Term Adjustment Provisions

AGENCY: Patent and Trademark Office, Commerce.

ACTION: Final rule.

SUMMARY: The patent term extension provisions of the Uruguay Round Agreements Act (URAA) and the patent term adjustment provisions of the American Inventors Protection Act of 1999 (AIPA) each provide for the possibility of patent term extension or adjustment if the issuance of the patent was delayed due to review by the Board of Patent Appeals and Interferences (BPAI) or by a Federal court and the patent was issued pursuant to or under a decision in the review reversing an adverse determination of patentability.
