### Submission for OMB Review; Comment Request

**AGENCY:** Department of Education.

**SUMMARY:** The Leader, Regulatory Information Management Group, Office of the Chief Information Officer invites comments on the submission for OMB review as required by the Paperwork Reduction Act of 1995.

**DATES:** Interested persons are invited to submit comments on or before June 2, 2004.

**ADDRESSES:** Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: ED Desk Officer, Department of Education, Office of Management and Budget, 725 17th Street, NW., Room 10235, New Executive Office Building, Washington, DC 20503 or faxed to (202) 395-6974.

**SUPPLEMENTARY INFORMATION:** Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Regulatory Information Management Group, Office of the Chief Information

Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) title; (3) summary of the collection; (4) description of the need for, and proposed use of, the information; (5) respondents and frequency of collection; and (6) reporting and/or recordkeeping burden. OMB invites public comment.

Dated: April 27, 2004.

## Full Text of Announcement

### I. Funding Opportunity Description

*Purpose of Program:* The purpose of this program is to: (1) Improve results for children with disabilities by promoting the development, demonstration, and use of technology; (2) support educational media activities designed to be of educational value to children with disabilities; and (3) provide support for some captioning, video description, and cultural activities.

*Priority:* In accordance with 34 CFR 75.105(b)(2)(iv), this priority is from allowable activities specified in the statute (see sections 661(e)(2) and 687 of the Individuals with Disabilities Education Act (IDEA)).

*Absolute Priority:* For FY 2004 this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

This priority is:

*Technology and Media Services for Individuals With Disabilities—Technology and Standards-Based Reform.*

*Background:* Current Federal and State educational initiatives (including the No Child Left Behind Act of 2001 (NCLB)) apply principles of standards-based reform as a means for improving student achievement. Standards-based reform is premised on a "theory of action" in which standards, assessments, and accountability lead to improved curriculum and clear expectations for students and schools, which in turn lead to professional development and improved teaching, which ultimately lead to higher levels of student learning (Elmore and Rothman, Eds., 1999, available at <http://www.nap.edu/catalog/9609.html>). This theory suggests that, certain areas

should be addressed in order to maximize benefits for students with disabilities. Among these are the following—(1) Assessments must be accessible and valid for the widest possible range of students with disabilities (with valid and reliable alternate assessments available for students with disabilities who cannot participate in general assessments even with accommodations); (2) information on assessment results must be available to all appropriate parties in a timely fashion and must be applicable to instruction as well as to accountability; (3) students should receive coherent standards-based instruction, and progress toward meeting standards must be monitored; (4) principles of universal design should be applied to standards, assessments, curriculum, and instruction; and (5) connections must be maintained between the components of the system, including standards, assessments, reporting, instructional planning, professional development, and instruction. Technology can play a vital role in improving the academic achievement of students with disabilities.

*Priority:* This priority supports research projects to determine how technology can best be used to maximize the benefits of standards-based reform for children with disabilities. Technologies may include, but are not limited to, technology-based assessments, computerized curriculum-based measurement aligned with State academic content standards, technology-based instruction aligned with State content standards, and technology-based systems for managing and analyzing information. The research must address one or more of the areas identified above in order to improve the achievement of students with disabilities as discussed in the Background section of this priority.

Projects must:

(a) Conduct (1) rigorous research on existing products and approaches to determine their effectiveness, feasibility, and sustainability, or (2) research-based development and evaluation of approaches for using technology to maximize the benefits of standards-based reform for students with disabilities.

(b) Conduct the majority of research and development activities in actual school settings.

(c) Apply sound research methods.

(d) Budget for a two-day Project Directors' meeting in Washington, DC during each year of the project.

(e) Budget for one additional trip annually to Washington, DC to attend
