DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

Notice of Adjustment of the Coverage Amount Under the Group Flood Insurance Program, for Policies Issued for Disasters Declared on or Before October 14, 2002

AGENCY: Federal Emergency Management Agency, Emergency Preparedness and Response Directorate, Department of Homeland Security.

ACTION: Notice.

SUMMARY: FEMA gives notice that the coverage amount for Group Flood Insurance Policies issued by the IFG Program for disasters declared on or before October 14, 2002 is increased.

EFFECTIVE DATE: October 1, 2003.

FOR FURTHER INFORMATION CONTACT: Berl Jones, Recovery Division, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-4235.

SUPPLEMENTARY INFORMATION: 44 CFR 61.17 sets the amount of coverage under a Group Flood Insurance Policy (GFIP). Although the current version of § 61.17 sets this amount as equivalent to the maximum grant amount established under section 408 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, (42 U.S.C. 5174,) prior to October 15, 2002, this regulation set the amount of coverage as equivalent to the maximum grant amount under the Individual and Family Grant (IFG) program under section 411 of the Stafford Act (42 U.S.C. 5178,) see 67 FR 61462, Sept. 30, 2002. Section 411 was repealed as of October 15, 2002. Because FEMA's policy is to apply regulations in force on the date of a disaster declaration to all assistance provided during that disaster (which in this case is also the time that the policies were issued), we will set the coverage for GFIP based upon the same criteria used to adjust the maximum IFG grant amount under section 411 for GFIP policies issued for those disasters declared prior to the repeal of section 411. Since section 411 has been repealed this adjustment is made solely for purposes of establishing the GFIP coverage amount for policies issues for

disasters declared on or before October 14, 2002.

The Stafford Act prescribed for the annual adjustment of grants made under Section 411, IFG Program, to reflect changes in the Consumer Price Index for All Urban Consumers published by the Department of Labor. If the IFG program were still in effect, the maximum grant amount for the IFG Program under Section 411 of the Act, would have been increased to \$15,300 for fiscal year 2004. As a result the coverage amount for GFIP is adjusted to \$15,300.

FEMA bases the adjustments on an increase in the Consumer Price Index for All Urban Consumers of 2.2 percent for the 12-month period ended in August 2003. The Bureau of Labor Statistics of the U.S. Department of Labor released the information on September 18, 2003.

Dated: April 27, 2004.

Michael D. Brown,

Under Secretary, Emergency Preparedness and Response, Department of Homeland Security.

SUPPLEMENTARY INFORMATION: The King County DDES, acting under authority of Section 104(g) of the Housing and Community Development Act of 1974 (42 U.S.C. 5304(g)), Section 26 of the United States Housing Act of 1937 (42 U.S.C. 1437x), and HUD's regulations at 24 CFR part 58, in cooperation with other interested agencies, has prepared a Final EIS to analyze potential impacts of redevelopment of the Park Lake Homes public housing community (Greenbridge Redevelopment Project-Proposed Master Plan). The Final EIS is a joint NEPA and Washington SEPA document intended to satisfy requirements of federal and state environmental statutes. HUD has allowed the assumption of its NEPA authority and NEPA lead agency responsibility by King County (DDES) as the Responsible Entity in cooperation with the Recipient, KCHA, as the SEPA lead agency.

Park Lake Homes is KCHA's oldest and largest public housing development. Built in 1942 to serve as temporary housing for World War II defense workers, structures have been renovated several times. The KCHA received a HOPE VI grant award from HUD in November of 2001 to initiate planning for the revitalization of this public housing development.

The Proposed Master Plan includes redevelopment of the existing approximately 94-acre project site located in the White Center area of unincorporated King County, Washington. The proposed redevelopment is consistent with requirements for a mixed-use, mixed-income housing project as described in the HOPE VI grant. The project site currently contains 569 residential units, a Community Center, a maintenance shop, a Head Start School, and a secondary building containing a food bank and administrative offices. The residential units are in primarily single story duplex structures.

The plan is to replace all existing low-income housing either within the site or elsewhere in King County through construction of public housing units on-site and project-based Section 8 vouchers in existing or new housing complexes. Existing residents would be relocated and assisted with benefits according to the provisions of the Uniform Relocation Assistance and Real Property Acquisition Policies Act. Where possible, displaced residents in good standing would be allowed to
