

particular, has the make available requirement been effective in making terrorism insurance coverage available and more affordable to the insurance marketplace in general, to large corporate policyholders, and to small business policyholders? (We specifically seek information on terrorism coverage for railroads, trucking and public transit in response to this question.)

1.2 How would the effectiveness of the Program be affected during Program Year 3 (where the federal backstop for terrorism insurance is still maintained under the Act) if the make available requirement is not extended? Would policyholders still be able to obtain terrorism risk insurance (under what terms and conditions) and would the affordability be impacted if the requirement is not extended? Compare your response to the preceding questions to what you believe would be the effectiveness of the Program if the make available requirement is extended into 2005.

1.3 Has Treasury's implementation of the make available requirement contributed to the effectiveness of the Program? In particular, has the make available requirement resulted in businesses being provided with useful information and the enhanced ability to compare prices for terrorism risk insurance across a number of providers? Given the experience with the make available requirement since enactment and policyholders' decisions on whether to purchase coverage provided by the Act, are there other approaches to implementing the make available requirement that are worth considering?

1.4 How would a decision on extending or not extending the make available requirement affect policyholders' understanding of their options regarding the availability of terrorism risk insurance coverage in Program Year 3 (e.g., that the federal backstop for terrorism risk insurance is still in force)? Would one course of action be better understood by policyholders than other options?

II. The Relationship Between the Make Available Requirement and the Likely Capacity of Property and Casualty Insurers To Offer Coverage for Terrorism Risk After Termination of the Program

2.1 What is the relationship between the make available requirement and an insurer's capacity to offer terrorism risk insurance coverage? How has the make available requirement affected or interacted with the available capacity of property and casualty insurers to provide terrorism risk insurance coverage during the course of the

Program to date? Has the make available requirement led to any build-up in capacity?

2.2. How would a Treasury decision to extend or not to extend the make available requirement affect or interact with the capacity of property and casualty insurers (including the availability of reinsurance) in terms of offering terrorism risk insurance coverage in Program Year 3? In addition, would there be any effect on insurers' decision to offer terrorism risk insurance coverage beyond 2005 that could be associated with a decision to extend or not to extend the make available requirement during Program Year 3?

III. Operational Issues

3.1 What would be the regulatory impact at the state level (e.g. on filings with the state regulator of policy forms or exclusions) if the make available requirement were extended through Program Year 3 (2005)? Similarly, what would be the regulatory impact at the state level if the make available requirement were not extended through Program Year 3?

3.2 Are there other operational issues that Treasury should consider as part of determining whether or not to extend the make available requirement through Program Year 3?

Dated: April 28, 2004.

Assistant Secretary for Financial Institutions.
