Western Area Power Administration

The Central Valley Project, the California-Oregon Transmission Project, and the Pacific Alternating Current Intertie

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of proposed power, transmission, and ancillary services rates.

SUMMARY: The Western Area Power Administration (Western) is proposing new rates for ancillary, Western power, the Central Valley Project (CVP) transmission, the California-Oregon Transmission Project (COTP) transmission, and the Pacific Alternating Current Intertie (PACI) transmission services. PACI transmission is a new service. The current rates for existing services expire December 31, 2004, which coincides with the expiration of the current CVP marketing plan. The CVP 2004 Power Marketing Plan goes into effect January 1, 2005. The proposed rates will apply under the 2004 Power Marketing Plan.

The proposed rates will provide sufficient revenue to pay all annual costs, including interest expense, and repay required investment within the allowable time period. Rate impacts are detailed in a rate brochure available to all interested parties. The proposed new rates are scheduled to go into effect on January 1, 2005, and will remain in effect through September 30, 2009. This **Federal Register** notice initiates the public process to replace the existing approved rates that expire December 31, 2004.

DATES: The consultation and comment period will begin on the date of publication of the **Federal Register** notice and will end August 10, 2004. Western will present a detailed explanation of the proposed rates at a public information forum. The public

information forum date is: May 18, 2004, 1 p.m. PDT, Folsom, CA.

Western will accept oral and written comments at a public comment forum. The public comment forum date is: June 17, 2004, 1 p.m. PDT, Folsom, CA.

Western will post comments received within the consultation and comment period on Western's external Web site at <http://www.wapa.gov/sn/initiatives/post2004/rates/>. Western must receive written comments by the end of the consultation and comment period to ensure consideration in Western's decision process.

The public information and public comment forum location is: Folsom Community Center, 52 Natoma Street, Folsom, CA.

FOR FURTHER INFORMATION CONTACT: Ms. Debbie Dietz, Rates Manager, Sierra Nevada Customer Service Region, Western Area Power Administration, 114 Parkshore Drive, Folsom, CA 95630-4710, telephone (916) 353-4453, e-mail ddietz@wapa.gov.

SUPPLEMENTARY INFORMATION: This **Federal Register** notice initiates the public process to replace the existing rates that expire December 31, 2004. Western will estimate the power revenue requirement for January through September 2005 prior to January 1, 2005. Thereafter, an annual power revenue requirement will be estimated prior to the start of each fiscal year (FY). The power revenue requirement includes operation and maintenance (O&M) expenses, purchased power for project use and first preference customers' loads, interest and other expenses (including any other statutorily required costs or charges), and investment repayment for the CVP and the Washoe Project annual power revenue requirement that remains after project use loads are met. In addition, the annual power revenue requirement includes any charges or credits associated with the creation, termination, or modification to any tariff, contract, or rate schedule

approved or accepted by the Federal Energy Regulatory Commission (Commission) or other regulatory body, and any charges or credits from the Host Control Area (HCA). To the extent possible, these charges or credits applied to Western will be passed through directly to the appropriate customer in the same manner Western is charged or credited. If the Commission or other regulatory body charges or credits, or the HCA charges or credits cannot be passed through to the appropriate customer in the same manner Western is charged or credited, the charges or credits will be passed through as part of the power revenue requirement. Revenues from project use, transmission, ancillary services, and other services are applied to the power revenue requirement, and the remainder is collected from Base Resource and first preference customers.

Under the 2004 Power Marketing Plan, each preference customer (except first preference customers) that has signed a Base Resource contract is a Base Resource customer and is allocated a percentage of the Base Resource. Base Resource is defined in the 2004 Power Marketing Plan as CVP and Washoe Project power output and power purchase contracts extending beyond 2004 determined by Western to be available for marketing, after meeting the requirements of project use and first preference customers, and any adjustments for maintenance, reserves, transformation losses, and certain ancillary services.

The CVP has a unique type of preference customer called a first preference customer. A first preference customer is defined in the 2004 Power Marketing Plan as a preference customer and/or a preference entity (an entity qualified to use, but not using, preference power) within a county of origin (Trinity, Calaveras, and Tuolumne) as specified under the Trinity River Division Act (69 Stat. 719) and the New Melones project provisions of the Flood Control Act of 1962 (76 Stat. 1173, 1191-1192).

Proposed Rate Formula for First Preference Customer Power

To have a consistent billing process for Base Resource and first preference customers, before the start of each FY, a percentage will be developed for each first preference customer based on the following formula:

$$\text{First Preference customer's \%} = \frac{\text{FP Customer load}}{\text{Gen} + \text{Power Purchases} - \text{Project Use}}$$
