IV. Commission Findings and Order Granting Accelerated Approval

After careful review, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange⁹ and the requirements of Section 6 of the Act.¹⁰ In particular, the Commission finds that the proposal is consistent with section 6(b)(5) of the Act¹¹ in that the rule is

⁹ The Commission has considered the proposal's impact on efficiency, competition and capital formation. 15 U.S.C. 78c(f).

designed to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and to perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. The Commission believes that the Auto Q Order type may facilitate ArcaEx's market makers' compliance with their obligation to enter Q Orders. Further, the Commission notes that the application of the price time priority rules for each reposted Auto Q Order should prevent any unfair advantage for such orders vis-a-vis other order types. The Commission believes that the implementation of the Auto Q Order type may permit increased execution opportunities of Q Orders and promote a more efficient and effective market operation.

The Commission finds good cause for approving Amendment No. 2 prior to the thirtieth day after the date of publication of notice thereof in the **Federal Register**. In determining to grant accelerated approval, the Commission notes that Amendment No. 2 merely codifies a technical aspect of the proposal that was published for public comment.

V. Conclusion

It is therefore ordered, pursuant to section 19(b)(2) of the Act,¹² that the proposed rule change (File No. SR-PCX-2004-22), as amended by Amendment No. 1, be, and it hereby is, approved, and that Amendment No. 2 to the proposed rule change be, and hereby is, approved on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹³

Jill M. Peterson,

Assistant Secretary.
