Publication of this notice segregates the public land described above from all other forms of appropriation under the public land laws, including the general mining laws, except for leasing and conveyance under the R&PP Act and leasing under the mineral leasing laws for a period of two (2) years from the

date of this publication in the **Federal Register**. The segregative affect will terminate upon issuance of the lease and patent to the City of Bloomfield, or two (2) years from the date of this publication, whichever occurs first. The lease, when issued, will be subject to the following terms:

1. Provisions of the R&PP Act and to all applicable regulations of the Secretary of the Interior.
2. Provisions of the Resource Conservation and Recovery Act of 1976 (RCRA) as amended, 42 U.S.C. 6901–6987 and the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA) as amended, 42 U.S.C. 9601 and all applicable regulations.

The patent, when issued, will be subject to the following terms:

1. Reservation to the United States of a right-of-way for ditches and canals in accordance with 43 U.S.C. 945.
2. Reservation to the United States of all minerals.
3. All valid existing rights, e.g. rights-of-way and leases of record.
4. Provisions that if the patentee or its successor attempts to transfer title to or control over the land to another or the land is devoted to a use other than that for which the land was conveyed, without the consent of the Secretary of the Interior or his delegate, or prohibits or restricts, directly or indirectly, or permits its agents, employees, contractors, or subcontractors, including without limitation, lessees sub-lessees and permittees, to prohibit or restrict, directly or indirectly, the use of any part of the patented lands or any of the facilities whereon by any person because of such person's race, creed, color, or national origin, title shall revert to the United States.

The lands are not needed for Federal purposes. Leasing and later patenting is consistent with current Bureau of Land Management policies and land use planning. The estimated intended time of lease issuance is August 15, 2004, with the patent being issued upon substantial development taking place. The proposal serves the public interest since it would provide a fire station/water loading facility and park facilities.

The mineral interests being offered for conveyance have no known value. Acceptance of the direct sale offer constitutes an application for conveyance of the mineral interests also being offered under the authority of Section 209(b) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1719). In addition to the full purchase price, a nonrefundable fee of \$50 will be required for purchase of the mineral interests to be conveyed simultaneously with the sale of the land.
