SUMMARY: The Social Security Administration (SSA) is extending the comment period for the proposed rules regarding the Reinstatement of Entitlement (Expedited Reinstatement) provision in section 112 of the Ticket to Work and Work Incentives Improvement Act of 1999. This provision allows former Social Security disability and Supplemental Security Income (SSI) disability or blindness beneficiaries, whose entitlement or eligibility had been terminated due to their work activity, to have their entitlement or eligibility reinstated in a timely fashion if they become unable to do substantial gainful work due to their medical condition. These rules provide beneficiaries an additional incentive to return to work.

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Notice of regulatory review; Request for comments.

SUMMARY: The National Highway Traffic Safety Administration (NHTSA) seeks comments on the economic impact of its regulations on small entities. As required by Section 610 of the Regulatory Flexibility Act, we are attempting to identify rules that may have a significant economic impact on a substantial number of small entities. We also request comments on ways to make these regulations easier to read and understand. The focus of this notice is rules that specifically relate to passenger cars, multipurpose passenger vehicles, trucks, buses, trailers, incomplete vehicles, motorcycles, and motor vehicle equipment.

DATES: Comments must be received on or before March 5, 2004.

ADDRESSES: You should mention the docket number of this document in your comments and submit your comments in writing to: Docket Management System, U.S. Department of Transportation, Room PL-401, 400 Seventh Street, SW., Washington, DC 20590. FOR FURTHER INFORMATION CONTACT: Nita Kavalauskas, Office of Regulatory Analysis, Office of Planning, Evaluation and Budget, National Highway Traffic Safety Administration, U.S. Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590. Telephone: (202) 366-2584. Facsimile (fax): (202) 366-2559.

SUPPLEMENTARY INFORMATION:**I. Section 610 of the Regulatory Flexibility Act****A. Background and Purpose**

Section 610 of the Regulatory Flexibility Act of 1980 (Pub. L. 96-354), as amended by the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104-121), requires agencies to conduct periodic reviews of final rules that have a significant

economic impact on a substantial number of small business entities. The purpose of the reviews is to determine whether such rules should be continued without change, or should be amended or rescinded, consistent with the objectives of applicable statutes, to minimize any significant economic impact of the rules on a substantial number of such small entities.

B. Review Schedule

The Department of Transportation (DOT) published its Semiannual Regulatory Agenda on November 22, 1999, listing in Appendix D (64 FR 64684) those regulations that each operating administration will review under section 610 during the next 12 months. Appendix D also contains DOT's 10-year review plan for all of its existing regulations.

The National Highway Traffic Safety Administration (NHTSA, "we") has divided its rules into 10 groups by

subject area. Each group will be reviewed once every 10 years, undergoing a two-stage process—an Analysis Year and a Review Year. For purposes of these reviews, a year will coincide with the fall-to-fall publication schedule of the Semiannual Regulatory Agenda. Thus, Year 1 (1998) began in the fall of 1998 and ended in the fall of 1999; Year 2 (1999) began in the fall of 1999 and ended in the fall of 2000; and so on.

During the Analysis Year, we will request public comment on and analyze each of the rules in a given year's group to determine whether any rule has a significant impact on a substantial number of small entities and, thus, requires review in accordance with section 610 of the Regulatory Flexibility Act. In each fall's Regulatory Agenda, we will publish the results of the analyses we completed during the previous year. For rules that have subparts, or other discrete sections of

rules that do have a significant impact on a substantial number of small entities, we will announce that we will be conducting a formal section 610 review during the following 12 months.

The section 610 review will determine whether a specific rule should be revised or revoked to lessen its impact on small entities. We will consider: (1) The continued need for the rule; (2) the nature of complaints or comments received from the public; (3) the complexity of the rule; (4) the extent to which the rule overlaps, duplicates, or conflicts with other federal rules or with state or local government rules; and (5) the length of time since the rule has been evaluated or the degree to which technology, economic conditions, or other factors have changed in the area affected by the rule. At the end of the Review Year, we will publish the results of our review.

The following table shows the 10-year analysis and review schedule:

NHTSA SECTION 610 REVIEW PLAN

Year	Regulations to be reviewed	Analysis year	Review year
1	49 CFR parts 501 through 526 and 571.213	1998	1999
2	49 CFR 571.131, 571.217, 571.220, 571.221, and 571.222	1999	2000
3	49 CFR 571.101 through 571.110 and 571.135	2000	2001
4	49 CFR parts 529 through 579, except part 571	2001	2002
5	49 CFR 571.111 through 571.129 and parts 580 through 590	2002	2003
6	49 CFR 571.201 through 571.212	2003	2004
7	49 CFR 571.214 through 571.219, except 571.217	2004	2005
8	49 CFR parts 591 through 594	2005	2006
9	49 CFR 571.223 through 571.304, part 500 and new parts and subparts under 49 CFR	2006	2007
10	23 CFR parts 1200 and 1300 and new parts and subparts under 23 CFR	2007	2008

C. Regulations Under Analysis

During Year 6 (2003), the Analysis Year, we will conduct a preliminary

assessment of the following sections of 49 CFR part 571:

Section	Title
571.201	Occupant protection in interior impact.
571.202	Head restraints.
571.203	Impact protection for the driver from the steering control system.
571.204	Steering control rearward displacement.
571.205	Glazing materials.
571.206	Door locks and door retention components.
571.207	Seating systems.
571.208	Occupant crash protection.
571.209	Seat belt assemblies.
571.210	Seat belt assembly anchorages.
571.211	[Reserved].
571.212	Windshield mounting.

We are seeking comments on whether any requirements in part 571 have a significant economic impact on a substantial number of small entities. "Small entities" include small businesses, not-for-profit organizations that are independently owned and

operated and are not dominant in their fields, and governmental jurisdictions with populations under 50,000. Business entities are generally defined as small businesses by Standard Industrial Classification (SIC) code, for the purposes of receiving Small

Business Administration (SBA) assistance. Size standards established by SBA in 13 CFR 121.201 are expressed either in number of employees or annual receipts in millions of dollars, unless otherwise specified. The number of employees or annual receipts

indicates the maximum allowed for a concern and its affiliates to be considered small. If your business or organization is a small entity and if any of the requirements in part 571 have a significant economic impact on your business or organization, please submit a comment to explain how and to what degree these rules affect you, the extent of the economic impact on your business or organization, and why you believe the economic impact is significant.

If the agency determines that there is a significant economic impact on a substantial number of small entities, it will ask for comment in a subsequent notice during the Review Year on how these impacts could be reduced without reducing safety.

II. Plain Language

A. Background and Purpose

Executive Order 12866 and the President's memorandum of June 1, 1998, require each agency to write all rules in plain language. Application of the principles of plain language includes consideration of the following questions:

- Have we organized the material to suit the public's needs?
- Are the requirements in the rule clearly stated?
- Does the rule contain technical language or jargon that is not clear?
- Would a different format (grouping and order of sections, use of headings, paragraphing) make the rule easier to understand?
- Would more (but shorter) sections be better?
- Could we improve clarity by adding tables, lists, or diagrams?
- What else could we do to make the rule easier to understand?

If you have any responses to these questions, please include them in your comments on this document.

B. Review Schedule

In conjunction with our section 610 reviews, we will be performing plain language reviews over a ten-year period on a schedule consistent with the section 610 review schedule. We will review part 571 to determine if these regulations can be reorganized and/or rewritten to make them easier to read, understand, and use. We encourage interested persons to submit draft regulatory language that clearly and simply communicates regulatory requirements, and other recommendations, such as for putting information in tables that may make the regulations easier to use.
