Authorities

The Marketing Plan for marketing power by SNR after 2004, published in the **Federal Register** (64 FR 34417) on June 25, 1999, including the subsequent Final Resource Pool Allocations, published in the **Federal Register** (65 FR 45976) on July 26, 2000, and all other related notices, were established pursuant to the Department of Energy Organization Act (42 U.S.C. 7101-7352); the Reclamation Act of 1902 (ch. 1093, 32 Stat. 388), as amended and supplemented by subsequent laws, particularly section 9(c) of the Reclamation Project Act of 1939 (43 U.S.C. 485h(c)); and other acts that specifically apply to the projects involved.

Background

The Marketing Plan describes how SNR will market its power resources from the Central Valley Project, Washoe Project, and other sources beginning January 1, 2005, through December 31, 2024. The 2005 Resource Pool was established for new power allocations, and those allocations were made to qualified entities. All existing customers and new allottees have executed a Base Resource Contract with Western.

The Marketing Plan provides for making a Custom Product available to interested customers. A Custom Product is service not provided under the Base Resource Contract that a customer needs to meet its load, including firming or supplemental power, portfolio management, and/or scheduling coordinator services. The Marketing Plan required customers to commit to purchase a Custom Product by December 31, 2002. By notice in the **Federal Register** (67 FR 60654), dated September 26, 2002, the deadline was extended to June 30, 2004, to provide customers with more time to determine their need for a Custom Product in California's changing electric market.

SNR delayed its formal process to establish the rates to become effective January 1, 2005, until it completed the Operational Alternatives Administrative Procedure Act process. Western published a Final Decision on the Post-2004 Operational Alternative in the

Federal Register (69 FR 8191) on February 23, 2004. Western then developed proposed rates consistent with that Final Decision. The Notice of Proposed Rates was published in the **Federal Register** (69 FR 26370) on May 12, 2004. Once established, these rates will apply to the services offered under the Marketing Plan. Therefore, Western is now extending the deadline to execute a Custom Product Contract to August 13, 2004. This extension is expected to provide ample time for customers to review the contracts and the proposed rates for the services offered under those contracts prior to the deadline to execute a contract.

The Base Resource Contract provides, among other things, that the customer make its own transmission arrangements to take delivery of the Base Resource, and must inform Western of such arrangements by July 1, 2004. Because Western is extending the deadline by which a customer must commit to purchase a Custom Product, Western has also decided to extend the notification date following the Transmission Arrangements Section of the Base Resource Contract to August 13, 2004.

Regulatory Procedure Requirements

Regulatory Flexibility Analysis

The Regulatory Flexibility Act of 1980 (5 U.S.C. 601, *et seq.*) requires Federal agencies to perform a regulatory flexibility analysis if a final rule is likely to have a significant economic impact on a substantial number of small entities and there is a legal requirement to issue a general notice of proposed rulemaking. Western has determined that this action does not require a regulatory flexibility analysis since it is a rulemaking of particular applicability involving rates or services applicable to public property.

Environmental Compliance

In compliance with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321, *et seq.*); Council on Environmental Quality Regulations (40 CFR 1500-1508); and DOE NEPA Regulations (10 CFR 1021), Western has determined this action is categorically excluded from preparing an environmental assessment or an environmental impact statement.

Determination Under Executive Order 12866

Western has an exemption from centralized regulatory review under Executive Order 12866; so this notice requires no clearance by the Office of Management and Budget.

Small Business Regulatory Enforcement Fairness Act

Western has determined this rule is exempt from congressional notification requirements under 5 U.S.C. 801 because the action is a rulemaking of particular applicability relating to rates or services and involves matters of procedure.

Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in Unit I.B.1. Once in the system, select "search," then key in the appropriate docket ID number.

II. Contractor Requirements

Under Contract No. 4D-5094-NBSX, the contractor will perform the following: provide software development and related support services to the Office of Pesticide Programs in support of the redevelopment and enhancement of the OPP system known as the OPPIN Query Tool in order to make OPPIN information readily available to the general public, to comply with requirements of section 508 of the Americans with Disabilities Act, and enhance the software based on written specifications provided by the Office of Pesticide Programs.

This contract involves no subcontractors.

The OPP has determined that the contracts described in this document involve work that is being conducted in connection with FIFRA, in that pesticide chemicals will be the subject of certain evaluations to be made under this contract. These evaluations may be used in subsequent regulatory decisions under FIFRA.

Some of this information may be entitled to confidential treatment. The information has been submitted to EPA under sections 3, 4, 6, and 7 of FIFRA and under sections 408 and 409 of FFDCA.

In accordance with the requirements of 40 CFR 2.307(h)(3), the contracts with Systalex Corporation, prohibits use of the information for any purpose not specified in these contracts; prohibits disclosure of the information to a third party without prior written approval from the Agency; and requires that each official and employee of the contractor sign an agreement to protect the information from unauthorized release and to handle it in accordance with the *FIFRA Information Security Manual*. In addition, Systalex Corporation is required to submit for EPA approval a security plan under which any CBI will be secured and protected against unauthorized release or compromise. No information will be provided to Systalex Corporation until the requirements in this document have been fully satisfied. Records of information provided to Systalex Corporation will be maintained by EPA Project Officers for these contracts. All information supplied to Systalex Corporation by EPA for use in connection with these contracts will be returned to EPA when Systalex Corporation has completed its work.
