FEDERAL RESERVE SYSTEM

Change in Bank Control Notices; Acquisition of Shares of Bank or Bank Holding Companies

The notificants listed below have applied under the Change in Bank Control Act (12 U.S.C. 1817(j)) and § 225.41 of the Board's Regulation Y (12 CFR 225.41) to acquire a bank or bank holding company. The factors that are considered in acting on the notices are set forth in paragraph 7 of the Act (12 U.S.C. 1817(j)(7)).

The notices are available for immediate inspection at the Federal Reserve Bank indicated. The notices also will be available for inspection at the office of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank indicated for that notice or to the offices of the Board of Governors. Comments must be received not later than June 23, 2004.

A. Federal Reserve Bank of Minneapolis (Jacqueline G. Nicholas, Community Affairs Officer) 90 Hennepin Avenue, Minneapolis, Minnesota 55480–0291:

1. *Charles Dale Shonkwiler*, Hamilton, Montana; to acquire voting shares of Ravalli County Bankshares, Inc., Hamilton, Montana, and thereby indirectly acquire voting shares of Ravalli County Bank, Hamilton, Montana, and West One Bank, Kalispell, Montana.

Board of Governors of the Federal Reserve System, June 3, 2004.

Robert deV. Frierson,

Deputy Secretary of the Board.

FEDERAL RESERVE SYSTEM

Notice of Proposals To Engage in Permissible Nonbanking Activities or To Acquire Companies That are Engaged in Permissible Nonbanking Activities

The companies listed in this notice have given notice under section 4 of the Bank Holding Company Act (12 U.S.C. 1843) (BHC Act) and Regulation Y (12 CFR Part 225) to engage *de novo*, or to acquire or control voting securities or assets of a company, including the companies listed below, that engages either directly or through a subsidiary or other company, in a nonbanking activity that is listed in § 225.28 of Regulation Y (12 CFR 225.28) or that the Board has determined by Order to be closely related to banking and permissible for bank holding companies. Unless otherwise noted, these activities will be conducted throughout the United States.

Each notice is available for inspection at the Federal Reserve Bank indicated. The notice also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether the proposal complies with the standards of section 4 of the BHC Act. Additional information on all bank holding companies may be obtained from the National Information Center website at www.ffiec.gov/nic/.

Unless otherwise noted, comments regarding the applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than June 23, 2004.

A. Federal Reserve Bank of Atlanta (Sue Costello, Vice President) 1000 Peachtree Street, N.E., Atlanta, Georgia 30303:

1. *The Desjardins Group*, Montreal, Quebec, Canada; Federation de caisses Desjardins du Quebec, Levis, Quebec, Canada; and La Caisse centrale Desjardins du Quebec, Montreal, Quebec, Canada; to engage *de novo* through its subsidiary, not yet named (in organization), in extending credit and servicing loans, pursuant to section 225.28(b)(1) of Regulation Y.

Board of Governors of the Federal Reserve System, June 3, 2004.

Robert deV. Frierson,

Deputy Secretary of the Board.

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404)498–1210.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Send comments to Seleda Perryman, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS–E11, Atlanta, GA 30333 or send an e-mail to omb@cdc.gov. Written comments should be received within 60 days of this notice.

Proposed Project

State-based Evaluation of the Alert Notification Component of CDC's Epidemic Information Exchange (Epi-X) Secure Public Health Communications

Network (OMB No. 0920—0636)—Extension Epidemiology Program Office (EPO), Centers for Disease Control and Prevention (CDC).

Great attention has been focused on improving secure public health communications networks for the dissemination of critical disease outbreak and/or bioterrorism-related events, which may have multi-jurisdictional involvement and cause disease and death within a short time-frame. A central component of the mission of the CDC's Epidemiology Program Office (EPO) is to strengthen the nation's public health infrastructure by coordinating public health surveillance at CDC and providing domestic and international support through scientific communications and terrorism preparedness and emergency response. The Office of Scientific and Health Communication's Epidemic Information Exchange (Epi-X) provides CDC and its state and local partners and collaborators with a secure public

health communications network intended for routine and emergent information exchange in a secure environment.

The purpose of the information gathered during this notification proficiency testing exercise is to evaluate the extent to which new registrants and currently authorized users of the Epidemic Information Exchange (Epi-X) are able to utilize alert notification functionality to minimize or prevent unnecessary injury or disease-related morbidity and mortality through the use of secure communications and rapid notification systems. In this case, notification alerts would be sent to targeted public health professionals through a "barrage" of office cell phone, home telephone, and pager calls to rapidly inform key health authorities from multidisciplinary backgrounds and multiple jurisdictions of evolving and critical public health information, and assist with the decision making process. Presently, the necessity of this

evaluation process is timely because of ongoing terrorism threats and acts perpetrated worldwide.

The survey information will be gathered through an online questionnaire format, and help evaluate user comprehension and facility solely with the targeted notification and rapid alerting functionalities of Epi-X. The questionnaire will consist of both closed- and open-ended items, and will be administered through Zoomerang, an online questionnaire program, or as a last resort, by telephone. Approximately 6,000 Epi-X users from every state of the union will be asked to volunteer input (in a 5–10 question format) about their experiences using the alert notification functionalities of the Epi-X communications system. There will be no cost to respondents, whose participation will be strictly voluntary. The estimated annualized burden is 500 hours.

Respondents	No. of respondents	No. of responses per respondent	Average burden per response (in hrs)	Total burden hours
State Epidemiologists and critical state public health emergency responders ...	2000	1	15/60	500
Total	2000	500

Dated: June 2, 2004.
Alvin Hall,
Director, Management Analysis and Services Office, Centers for Disease Control and Prevention.

Proposed Project

Survey of Public Health Laboratories regarding Volume and Type of STD Laboratory Testing Methods—New—National Center for HIV, STD, and TB Prevention (NCHSTP), Centers for

Disease Control and Prevention (CDC). CDC is requesting OMB approval to survey public health laboratories about the volume of testing and type of laboratory testing methods for sexually transmitted diseases (STD).

In October 2002, CDC published "Screening Tests to Detect Chlamydia trachomatis and Neisseria gonorrhoeae Infections," (MMWR 2002:51, No. RR–15). The purpose of this publication was to provide information for public health laboratories regarding the most effective testing methodologies for *Chlamydia trachomatis* and *Neisseria gonorrhoeae*. Because testing practices could affect the resources available to public health departments for STD screening and surveillance programs, it is critical to monitor the capacity and current practices of public health laboratories to appropriately test for these diseases.

The objectives of this proposed data collection are to: (1) Collect information about the volume of and type of testing for chlamydia and gonorrhea during calendar year 2003; (2) collect information about antimicrobial susceptibility testing for gonorrhea; and (3) collect information about the volume and type of testing for herpes simplex
