**SUPPLEMENTARY INFORMATION:**

*Title:* 7 CFR 1902-A, Supervised Bank Accounts.

*OMB Number:* 0575-0158.

*Expiration Date of Approval:* January 31, 2005.

*Type of Request:* Extension of a Currently Approved Information Collection.

*Abstract:* The Agencies extend financial assistance to applicants that do not qualify for loans under commercial rates and terms.

The Agencies use SBAs as a temporary mechanism to (1) ensure correct disbursement and expenditure of all funds designated for a project; (2) help a borrower properly manage its financial affairs; and (3) ensure that the Government's security is protected adequately from fraud, waste, and abuse.

SBAs are mandatory for Multi-Family Housing (MFH) reserve accounts. The MFH funds must be kept in the SBA for the full term of a loan. Any funds withdrawn for disbursement for an authorized purpose require a countersignature from an Agency official.

This regulation prescribes the policies and responsibilities for the use of SBAs. In carrying out their mission as a supervised credit Agency, this regulation authorizes the use of supervised accounts for the disbursement of funds. The use may be necessitated to disburse Government funds consistent with the various stages of any development (construction) work actually achieved. On limited occasions, a supervised account is used to provide temporary credit counseling and oversight of those being assisted who demonstrate an inability to handle their financial affairs responsibly. Another use is for depositing multi-housing reserve account funds in a manner requiring Agency co-signature for withdrawals. Multi-housing reserve account funds are held in a sinking fund for the future capital improvement needs for apartment projects. Supervised accounts are established to ensure Government security is adequately protected against fraud, waste, and abuse.

The legislative authority for requiring the use of supervised accounts is contained in section 339 of the Consolidated Farm and Rural Development Act (CON ACT), as amended (7 U.S.C. 1989), and section 510 of the Housing Act of 1949, as amended (42 U.S.C. 1480). These provisions authorize the Secretary of Agriculture to make such rules and regulations as deemed necessary to carry out the responsibilities and duties the Government is charged with administering.

#### Initiation of Antidumping Duty Investigations: Chlorinated Isocyanurates From the People's Republic of China and Spain

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Initiation of antidumping duty investigation.

**DATES:** *Effective Date:* June 10, 2004.

## Initiation of Investigations

### The Petitions

On May 14, 2004, the Department of Commerce (the Department) received petitions on imports of chlorinated isocyanurates (chlorinated isos) from the People's Republic of China (PRC), and Spain, filed in proper form by Clearon Corporation and Occidental Chemical Corporation (referred to hereafter as "the petitioners"). On May 19, May 20, May 25, and May 26, 2004 the Department requested additional information and clarification of certain areas of the petitions. The petitioners filed supplements to the petitions on May 24, 2004, and May 28, 2004. On June 2, 2004, Arch Chemicals, Inc., a U.S. importer of chlorinated isos from the PRC and Spain, submitted a letter challenging the assertion made by the petitioners that they represent more than 50 percent of the domestic production of chlorinated isos. The petitioners rebutted this challenge to their industry support on June 3, 2004.

In accordance with section 732(b)(i) of the Tariff Act of 1930, as amended (the Act), the petitioners allege that imports of chlorinated isos from the PRC and Spain are being, or are likely to be, sold in the United States at less than fair value within the meaning of section 731 of the Act and that such imports are materially injuring and threaten to injure an industry in the United States.

The Department finds that the petitioners filed these petitions on behalf of the domestic industry because they are interested parties as defined in section 771(9)(c) of the Act and the petitioners have demonstrated sufficient industry support with respect to the antidumping investigations that the petitioners are requesting the Department to initiate.

### Period of Investigations

The period of investigation (POI) for the PRC is October 1, 2003, through March 31, 2004. The POI for Spain is April 1, 2003, through March 31, 2004.

### Scope of Investigations

The products covered by these investigations are chlorinated isos. Chlorinated isos are derivatives of cyanuric acid, described as chlorinated s-triazine triones. There are three primary chemical compositions of chlorinated isos: (1) Trichloroisocyanuric acid ( $\text{Cl}_3(\text{NCO})_3$ ), (2) sodium dichloroisocyanurate (dihydrate) ( $\text{NaCl}_2(\text{NCO})_3 \cdot 2\text{H}_2\text{O}$ ), and (3) sodium dichloroisocyanurate (anhydrous) ( $\text{NaCl}_2(\text{NCO})_3$ ). Chlorinated isos are available in powder, granular,
