

direct sales. ASC provided selling functions such as customer negotiation, warehousing, sorting, repacking, and freight delivery, while Liepajas Metalurgs only negotiated with customers and arranged delivery of the product. Therefore, we have preliminarily determined that sales through ASC are at a more advanced level of trade than Liepajas Metalurgs' direct sales in the home market.

Liepajas Metalurgs has reported one customer category in the U.S. market: traders. In comparing EP sales to the direct sales in the home market, we found that the selling functions performed by Liepajas Metalurgs were very similar in the U.S. and Latvian markets. For U.S. sales, Liepajas Metalurgs conducts negotiations with the traders and arranges delivery to the port. Therefore, we concluded that the EP and home market direct sales were made at the same level of trade. Since Liepajas Metalurgs' direct home market and U.S. sales are at the same level of trade, and ASC's home market sales are at a more advanced level of trade and a pattern of consistent price differences exists, we have preliminarily determined that a level of trade adjustment is warranted when we based NV on sales made through ASC. We have calculated a level of trade adjustment based on the difference in price between the two levels of trade in the home market for U.S. sales that match to sales made through ASC.

Currency Conversion

We made currency conversions into U.S. dollars in accordance with section 773A of the Act, based on exchange rates in effect on the date of the U.S. sale, as certified by the Federal Reserve Bank.

Preliminary Results of Review

As a result of this review, we preliminarily determine that the following weighted-average margin exists for the period September 1, 2002, through August 31, 2003:

Producer	Weighted-average margin (percentage)
Joint Stock Company Liepajas Metalurgs.	4.61

The Department will disclose calculations performed in accordance with 19 CFR 351.224(b). An interested party may request a hearing within 30 days of publication of these preliminary results. See 19 CFR 351.310(c). Any hearing, if requested, will be held 44 days after the date of publication, or the first working day thereafter. Interested

parties may submit case briefs and/or written comments no later than 30 days after the date of publication of these preliminary results. Rebuttal briefs and rebuttals to written comments, limited to issues raised in such briefs or comments, may be filed no later than 37 days after the date of publication. Parties who submit arguments are requested to submit with the argument (1) a statement of the issue, (2) a brief summary of the argument, and (3) a table of authorities. Further, the parties submitting written comments should provide the Department with an additional copy of the public version of any such comments on diskette. The Department will issue the final results of this administrative review, which will include the results of its analysis of issues raised in any such comments, within 120 days of publication of these preliminary results.

Assessment

Upon completion of this administrative review, pursuant to 19 CFR 351.212(b), the Department will calculate an assessment rate on all appropriate entries. We will calculate importer-specific duty assessment rates on the basis of the ratio of the total amount of antidumping duties calculated for the examined sales to the total entered value of the examined sales for that importer. Since the delivery terms for all of Liepajas Metalurgs' U.S. sales were FOB Latvian seaport, we will calculate entered value using the gross unit price reported in the U.S. sales database. Where the assessment rate is above *de minimis*, we will instruct CBP to assess duties on all entries of subject merchandise by that importer.

Cash Deposit Requirements

The following deposit rates will be effective upon publication of the final results of this administrative review for all shipments of rebar from Latvia entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by section 751(a)(1) of the Act: (1) The cash deposit rate listed above for Liepajas Metalurgs will be the rate established in the final results of this review, except if a rate is less than 0.5 percent, and therefore *de minimis*, the cash deposit will be zero; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the less-than-fair-value (LTFV) investigation, but the manufacturer is, the cash deposit rate

will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in this or any previous review conducted by the Department, the cash deposit rate will be 17.21 percent, the "All Others" rate established in the LTFV investigation. These cash deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entities during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This determination is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: June 2, 2004.

James J. Jochum,

Assistant Secretary for Import Administration.

Type of Request: Reinstatement, with change, of a previously approved collection for which approval has expired.

Burden: 12,505 hours annually.

Number of Respondents: 46,900 responses per year. The USPTO estimates that of this total, 4,400 notices of opposition, 1,100 electronic notices

of opposition, 21,000 extensions of time to file an opposition, 9,000 electronic requests for extension of time to file an opposition, 1,520 petitions to cancel, 380 electronic petitions to cancel, 5,000 electronic papers in inter partes cases, 2,400 notices of appeal, 600 electronic notices of appeal, and 1,500 electronic miscellaneous ex parte papers will be submitted per year.

Avg. Hours Per Response: The USPTO estimates that it will take the public an average of 10 to 45 minutes to gather the information, prepare the notices of opposition, the extension of time to file an opposition, the petitions to cancel, the notices of appeal, and the additional papers needed in inter partes and ex partes cases, and submit them to the TTAB. The USPTO estimates that it takes 10 minutes to complete the extension of time to file an opposition and 10 minutes to complete the form for submission of additional papers needed for inter partes and ex parte cases, 15 minutes to complete a notice of appeal, and 45 minutes to complete the notice of opposition and the petition to cancel. Sections 14 and 20 of the Trademark Act, 15 U.S.C. 1064 and 1070, allow individuals and entities to file a petition to cancel the registration

of a mark or a notice of appeal. The USPTO administers the Trademark Act according to 37 CFR part 2. These actions are governed by the Trademark Trial and Appeal Board (TTAB), an administrative tribunal empowered to determine the right to register and subsequently determine the validity of a trademark. If a mark is successfully opposed or canceled, registration will not take place. There are no paper forms associated with this collection; however, there are forms available to submit this information electronically through the Electronic System for Trademark Trials and Appeals (ESTTA).

Affected Public: Individuals or households, businesses or other for-profits, not-for-profit institutions, farms, the Federal Government, and State, local or tribal governments.
