

further flight, repair according to a method approved by the Manager, Seattle ACO; or according to data meeting the type certification basis of the airplane approved by a Boeing Company Designated Engineering Representative who has been authorized by the Manager, Seattle ACO, to make such findings. For a repair method to be approved by the Manager, Seattle ACO, as required by this paragraph, the Manager's approval letter must specifically reference this AD.

(f) If no cracking is found during the inspection required by paragraph (d) of this AD, before further flight, increase the diameter of the fastener holes and install new fasteners according to Boeing Service Bulletin 757-54-0035, Revision 2, dated June 13, 2002, excluding Evaluation Form.

(g) Except as identified in Figures 3 and 5 of the Accomplishment Instructions of Boeing Service Bulletin 757-54-0035, Revision 2, dated June 13, 2002, excluding Evaluation Form, the actions must be done using Boeing-supplied tools.

Alternative Methods of Compliance

(h)(1) An AMOC or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Seattle ACO. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Seattle ACO.

(2) AMOCs, approved previously in accordance with AD 99-24-07, amendment 39-11431, are approved as AMOCs with paragraph (a) of this AD.

Note 5: Information concerning the existence of approved AMOCs with this AD, if any, may be obtained from the Seattle ACO.

Special Flight Permit

(i) Special flight permits may be issued in accordance with sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the airplane to a location where the requirements of this AD can be accomplished.

Incorporation by Reference

(j) Unless otherwise specified, the actions shall be done in accordance with Boeing Service Bulletin 757-54-0035, Revision 1, dated April 15, 1999; or Boeing Service Bulletin 757-54-0035, Revision 2, dated June 13, 2002. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Boeing Commercial Airplanes, P.O. Box 3707, Seattle, Washington 98124-2207. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington; or at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, call (202) 741-6030, or go to: http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html.

Effective Date

(k) This amendment becomes effective on July 21, 2004.

Issued in Renton, Washington, on May 25, 2004.

Kalene C. Yanamura,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

14 CFR Part 71

[Docket No. FAA-2004-17496; Airspace Docket No. 04-AAL-04]

Establishment of Class E Airspace; Allakaket, AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Class E airspace at Allakaket, AK to provide adequate controlled airspace to contain aircraft executing two new Standard Instrument Approach Procedures (SIAP) and a new Textual Departure Procedure. This Rule results in new Class E airspace upward from 700 feet (ft.) and 1,200 feet above the surface at Allakaket, AK.

DATES: *Effective Date:* 0901 UTC, September 30, 2004.

FOR FURTHER INFORMATION CONTACT: Jesse Patterson, AAL-538G, Federal Aviation Administration, 222 West 7th Avenue, Box 14, Anchorage, AK 99513-7587; telephone number (907) 271-5898; fax: (907) 271-2850; email: Jesse.ctr.Patterson@faa.gov. Internet address: <http://www.alaska.faa.gov/at>.

SUPPLEMENTARY INFORMATION:

History

On Monday, April 19, 2004, the FAA proposed to revise part 71 of the Federal Aviation Regulations (14 CFR part 71) to create new Class E airspace upward from 700 ft. and 1,200 ft. above the surface at Allakaket, AK (69 FR 20835). The action was proposed in order to add Class E airspace sufficient in size to contain aircraft while executing two new Standard Instrument Approach Procedures and a new Textual Departure Procedure for the Allakaket Airport. The new approaches are Area Navigation-Global Positioning System (RNAV GPS) Runway (RWY) 5, original and (2) RNAV (GPS) Runway 23, original. New Class E controlled airspace extending upward from 700

feet and 1,200 feet above the surface in the Allakaket Airport area is established by this action. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No public comments have been received, thus, the rule is adopted as proposed.

The area will be depicted on aeronautical charts for pilot reference. The coordinates for this airspace docket are based on North American Datum 83. The Class E airspace areas designated as 700/1200 foot transition areas are published in paragraph 6005 of FAA Order 7400.9L, *Airspace Designations and Reporting Points*, dated September 2, 2003, and effective September 16, 2003, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be revoked and revised subsequently in the Order.

The Rule

This revision to 14 CFR part 71 establishes Class E airspace at Allakaket, Alaska. This additional Class E airspace was created to accommodate aircraft executing two new SIAPs and will be depicted on aeronautical charts for pilot reference. The intended effect of this rule is to provide adequate controlled airspace for IFR operations at Allakaket Airport, Allakaket, Alaska.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

■ In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9L, *Airspace Designations and Reporting Points*, dated September 2, 2003, and effective September 16, 2003, is amended as follows:

* * * *

Paragraph 6005 Class E airspace extending upward from 700 feet or more above the surface of the earth.

* * * *

AAL AK E5 Allakaket, AK [New]

Allakaket Airport, AK
(Lat. 66°33'07" N., long. 152°37'20" W.)

That airspace extending upward from 700 feet above the surface within a 7.1-mile radius of the Allakaket Airport and that airspace extending upward from 1,200 feet above the surface within an area bounded by 66°09' N. 153°40' W. to 66°40' N. 153°00'10" W. to 66°09' N. 153°00' W. to point of beginning, excluding the Fairbanks Class E airspace, the Indian Mountain Class E airspace, and that airspace designated for federal airways.

SUPPLEMENTARY INFORMATION:

History

On Monday, April 19, 2004, the FAA proposed to revise part 71 of the Federal Aviation Regulations (14 CFR part 71) to add to the Class E airspace upward from 700 ft. above the surface at Kipnuk, AK (69 FR 20837). The action was proposed in order to add Class E airspace sufficient in size to contain aircraft while executing two new Standard Instrument Approach Procedures at the Kipnuk Airport. The new approaches are (1) Area Navigation-Global Positioning System (RNAV GPS) RWY 33 original and (2) RNAV (GPS) RWY 15, original. Additional Class E controlled airspace extending upward from 700 feet above the surface in the Kipnuk Airport area is established by this action. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No public comments have been received, thus, the rule is adopted as proposed.

The area will be depicted on aeronautical charts for pilot reference. The coordinates for this airspace docket are based on North American Datum 83. The Class E airspace areas designated as 700/1200 foot transition areas are published in paragraph 6005 of FAA Order 7400.9L, *Airspace Designations and Reporting Points*, dated September 2, 2003, and effective September 16, 2003, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This revision to 14 CFR part 71 revises Class E airspace at Kipnuk, Alaska. This additional Class E airspace was created to accommodate aircraft executing new SIAPs and will be depicted on aeronautical charts for pilot reference. The intended effect of this rule is to provide adequate controlled airspace for IFR operations at Kipnuk Airport, Kipnuk, Alaska.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
