

April 17, 2003, CBP reopened the prototype's application period to encourage greater participation in the test program. As a result, commencement of the prototype was delayed until June 18, 2003.

Based on its evaluation of the Paperless Drawback Prototype, CBP has concluded that processing of paperless drawback claims cannot be successfully accomplished under current automated systems. In this regard, it is noted that certain types of drawback claims cannot be processed without the filing of paper documentation (*i.e.*, drawback claims involving NAFTA merchandise, merchandise processing fees, harbor maintenance fees, single entry bonds, *etc.*). Although CBP notified approved participants in writing that drawback claims requiring paper documentation would not be accepted for purposes of the Paperless Drawback Prototype, many such claims were nonetheless submitted to CBP under the auspices of the test program. In these instances, CBP was able to redirect the submissions as paper drawback claims. It is anticipated, however, that an expansion of the Paperless Drawback Prototype would make this problem difficult to contain and would result in unnecessary delays in the processing of drawback claims.

For this reason, CBP is of the view that the Paperless Drawback Prototype should be discontinued. CBP will conclude the Paperless Drawback Prototype effective upon the date of publication of this document in the **Federal Register**.

Dated: June 22, 2004.
