**SUPPLEMENTARY INFORMATION:****I. Introduction**

The U.S. Nuclear Regulatory Commission (NRC) is considering the issuance of a license amendment to OSI Pharmaceuticals, Inc. for Materials License No. 37-30433-01, to authorize release of its facility in Horsham, Pennsylvania for unrestricted use and has prepared an Environmental Assessment (EA) in support of this action in accordance with the requirements of 10 CFR part 51. Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate.

**II. EA Summary**

The purpose of the proposed action is to allow for the release of the licensee's Horsham, Pennsylvania facility for unrestricted use. OSI Pharmaceuticals, Inc. was authorized by NRC from March 9, 1998, to use radioactive materials for research and development purposes at the site. On July 10, 2003, OSI Pharmaceuticals, Inc. requested that NRC release the facility for unrestricted use. OSI Pharmaceuticals, Inc. has conducted surveys of the facility and determined that the facility meets the license termination criteria in subpart E of 10 CFR part 20.

**III. Finding of No Significant Impact**

The NRC staff has evaluated OSI Pharmaceuticals, Inc.'s request and the results of the surveys and has concluded that the completed action complies with the criteria in subpart E of 10 CFR part 20. The staff has prepared the EA (summarized above) in support of the proposed license amendment to terminate the license and release the facility for unrestricted use. The staff has found that the environmental impacts from the proposed action are bounded by the impacts evaluated by the "Generic Environmental Impact Statement in Support of Rulemaking on Radiological Criteria for License Termination of NRC-Licensed Facilities" (NUREG-1496). On the basis of the EA, the NRC has concluded that the environmental impacts from the proposed action are expected to be insignificant and has determined not to prepare an environmental impact statement for the proposed action.

**IV. Further Information**

The EA and the documents related to this proposed action, including the application for the license amendment and supporting documentation, are available for inspection at NRC's Public Electronic Reading Room at <http://www.nrc.gov/reading-rm.html> (ADAMS Accession Nos. ML031970551, ML032340661 and ML040150859). These documents are also available for inspection and copying for a fee at the Region I Office, 475 Allendale Road, King of Prussia, Pennsylvania, 19406. Persons who do not have access to ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209 or (301) 415-4737, or by e-mail to [exu@nrc.gov](mailto:exu@nrc.gov).

**SUPPLEMENTARY INFORMATION:****I. Introduction**

The U.S. Nuclear Regulatory Commission (NRC) is prepared to issue Material License No. 70-7003 to United States Enrichment Corporation Inc. (USEC) (the applicant), to authorize possession and use of source and special nuclear material at the American Centrifuge Lead Cascade Facility (Lead

Cascade) in Piketon, Ohio. NRC has prepared an Environmental Assessment (EA) in support of these actions in accordance with the requirements of 10 CFR part 51. Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate. The license will be issued following the publication of this notice.

**II. EA Summary**

The purpose of the proposed action is to authorize possession and use of source and special nuclear material at the applicant's Lead Cascade facility in Piketon, Ohio. The Lead Cascade facility would have up to 240 operable centrifuges for testing in order to provide reliability information on the machines and auxiliary systems for a commercial uranium enrichment facility. The Lead Cascade facility would recycle tails and product with no product withdrawals except for sampling. The applicant proposes to install the Lead Cascade facility in leased portions of the existing Department of Energy (DOE) Gas Centrifuge Enrichment Plant (GCEP) located at the Portsmouth Gaseous Diffusion Plant site in Piketon, Ohio. In the mid-1980's, DOE had produced enriched uranium using hundreds of centrifuges in its GCEP facility.

On February 12, 2003, USEC Inc. requested that NRC approve the proposed application. USEC Inc.'s request for the proposed action was previously noticed in the **Federal Register** on April 9, 2003 (68 FR 17414), along with a notice of an opportunity to request a hearing. No requests for a hearing were submitted to the NRC.

The NRC has prepared an EA in support of the proposed license application. The NRC concludes that the proposed action complies with the applicable parts of title 10, Code of Federal Regulations (10 CFR) for adequate protection of the public health and safety, and protection of the environment. For example, NRC staff finds that public exposure to radiation from the proposed action will be less than 0.0001% of the limits in 10 CFR part 20. On the basis of the assessment, the NRC staff concludes that environmental impacts associated with the proposed action would not be significant and do not warrant the preparation of an Environmental Impact Statement (EIS). Accordingly, it has been determined that a Finding of No Significant Impact is appropriate.

**III. Finding of No Significant Impact**

On the basis of the EA, NRC has concluded that there are no significant environmental impacts from the

proposed action and has determined not to prepare an EIS for the proposed action.

#### IV. Further Information

The EA and the documents related to this proposed action, including the application for the license amendment and supporting documentation, are available for inspection at NRC's Public Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html> (ADAMS Accession No. ML040210751). These documents may also be examined, and/or copied for a fee, at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, MD 20852.

## OFFICE OF PERSONNEL MANAGEMENT

### Submission for OMB Review; Comment Request for Reclearance of a Revised Information Collection: SF 3104, SF 3104A and SF 3104B

**AGENCY:** Office of Personnel Management.

**ACTION:** Notice.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995 (Public Law 104-13, May 22, 1995), this notice announces that the Office of Personnel Management (OPM) has submitted to the Office of Management and Budget (OMB) a request for reclearance of a revised information collection. SF 3104, Application for Death Benefits/Federal Employees Retirement System (FERS), is used by persons applying for death benefits which may be payable under FERS because of the death of an employee, former employee, or retiree who was covered by FERS at the time of his/her death or separation from Federal Service. SF 3104A, Survivor Supplement (FERS) (attached to the SF 3104) requests information from the survivor which is used by OPM to determine entitlement to a survivor annuity supplement (supplementary annuity). SF 3104B, Documentation and Elections in Support of Application for Death Benefits when Deceased was an Employee at the Time of Death, is used by applicants for death benefits under FERS if the deceased was a Federal employee at the time of death.

It is estimated that approximately 7,481 SF 3104s will be processed annually. This form requires approximately 60 minutes to complete. An annual burden of 7,481 hours is estimated. Approximately 3,366 SF 3104Bs are expected to be processed annually. It is estimated that the form requires approximately 60 minutes to complete. An annual burden of 3,366 hours is estimated. The total annual burden is 10,847.

For copies of this proposal, contact Mary Beth Smith-Toomey on (202) 606-8358, FAX (202) 418-3251 or via E-mail to [mbtoomey@opm.gov](mailto:mbtoomey@opm.gov). Please include a mailing address with your request.

**DATES:** Comments on this proposal should be received on or before February 26, 2004.

**ADDRESSES:** Send or deliver comments to—

Ronald W. Melton, Chief, Operations Support Group, Center for Retirement and Insurance Services, U.S. Office of Personnel Management, 1900 E Street,
