Bureau of Land Management

[UT070–1610–011J]

Notice of Availability for the Draft Resource Management Plan (RMP) and Environmental Impact Statement (EIS) for the Price Field Office Planning Area in Carbon and Emery Counties, UT

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act (NEPA) of 1969, the Federal Land Policy and Management Act of 1976 (FLPMA), and regulatory requirements, a Draft RMP/EIS has been prepared for the Price Field Office planning area and is available for a 90-day public review and comment period. The Draft RMP/EIS may be viewed and downloaded in PDF format at the project Web site at www.pricermp.com. Copies of the Draft RMP/EIS will also be available for distribution and review during the comment period at the BLM Price Field Office, at the address shown below.

DATES: Written comments on the Draft RMP/EIS will be accepted October 14, 2004. Future public meetings and any other public-involvement activities will be announced at least 15 days in advance through public notices, local media news releases, mailings, and the project Web site at: www.pricermp.com. Locations of the public meetings are: Salt Lake City, Price, Green River, and Castle Dale, Utah.

ADDRESSES: Written comments should be sent to: Price Field Office RMP Comments, Attention: Floyd Johnson, Price Field Office, Bureau of Land Management, 125 South 600 West, Price, Utah 84501. Comments may also be made electronically at: www.pricermp.com. Comments, including names and addresses of

respondents, will be available for public review at the BLM Price Field Office, 125 South 600 West, Price, Utah during normal business hours (8 a.m. to 4:30 p.m., except weekends and holidays).

FOR FURTHER INFORMATION CONTACT: For further information and/or to have your name added to the planning project mailing list, visit the Web site shown above. You may also contact Floyd Johnson, Assistant Field Manager, Bureau of Land Management, Price Field Office, 125 South 600 West, Price, Utah 84501, telephone: (435) 636–3600, or e-mail through the Web site: www.pricermp.com.

SUPPLEMENTARY INFORMATION: The planning area includes all of the public land and Federal mineral ownership managed by the Price Field Office in Carbon and Emery Counties, Utah. The planning area encompasses public lands currently managed under the Price River Resource Area Management Framework Plan and the San Rafael RMP. This area includes approximately 2.5 million acres of BLM-administered surface lands and 2.8 million acres of Federal mineral lands under Federal, State, and private surface in the area. The decisions of the Price RMP will only apply to BLM-administered public lands and Federal mineral estate. The Draft RMP/EIS addresses alternatives and provides management guidance, monitoring, and impact analysis of the alternatives. The alternatives present different management balances between the various resources and uses. This planning effort will replace the Price River Resource Area Management Framework Plan (1983, 1989) and the San Rafael RMP (1991). Once approved, the Record of Decision (ROD) for the Price Field Office RMP will supercede all existing management plans for the planning area. In order to receive full consideration, comments should focus on specific management actions being considered and the adequacy of analysis. All submissions from organizations or businesses will be made available for public inspection in their entirety. Individuals may request confidentiality with respect to their name, address, and phone number. If you wish to have your name or street address withheld from public review, or from disclosure under the Freedom of Information Act, the first line of the comment should start with the words “CONFIDENTIALITY REQUESTED” in uppercase letters in order for BLM to comply with your request. Such requests will be honored to the extent allowed by law. Comment contents will not be kept confidential. Responses to the comments will be published as part

of the Final RMP/EIS. The Draft RMP/EIS contains five alternatives (including the No Action Alternative). Major issues considered are: management of recreation, travel planning and route designation, oil and gas resources, rangeland health, special designation areas, wildlife, and air and water quality. The area covered by the Price RMP contains coal resources that have been classified by the Bureau of Land Management to be included within a Known Recoverable Coal Resource Area. The 43 CFR 3420.1–2 provides an opportunity for the public to identify any interest in developing these resources; therefore the Bureau of Land Management is issuing a Call for Coal Information. Industry, State and local governments, or the general public is invited to submit information on lands within the Price Field Office that should be considered for leasing and describe why these lands should be considered. Proprietary data marked as confidential may be submitted in response to this call; however, all such proprietary data should be submitted only to James Kohler, Chief, Branch of Solid Minerals, Utah State Office, Bureau of Land Management, P.O. Box 45155, Salt Lake City, UT 84145–0155. Data marked as confidential shall be treated in accordance with the laws and regulations governing confidentiality of such information.

Gene R. Terland,

Associate State Director.

Notice of Availability for the Tracy To Silver Lake Transmission Line Project Final Environmental Impact Statement and Initiation of a 30-day Public Comment Period, Carson City Field Office, NV

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act (NEPA) and 40 CFR 1500–1508 Council on Environmental Quality Regulations (CEQ), notice is hereby given that the Bureau of Land Management’s (BLM) Carson City Field Office has prepared with the assistance of a third-party consultant, a Final Environmental Impact Statement (FEIS)

for the Proposed Tracy to Silver Lake Power Line Project, and has made the document available for public and agency review and comment. The project, which is proposed by the Sierra Pacific Power Company (SPPC), includes the upgrade and extension of a 120 KV electric transmission line, as well as the construction of two substations, from the existing power plant at Tracy, Nevada to the existing Silver Lake substation near Stead in Washoe County, Nevada. The FEIS also analyzes five alternatives to the proposed action that were developed with the cooperating agencies, SPPC, and the public.

DATES: The formal comment period for the FEIS will commence on July 16, 2004, and will end on August 16, 2004. Comments on issues and concerns should be received on or before the end of the comment period at the address listed below.

ADDRESSES: Written comments should be sent to BLM Carson City Field Office, Attn: Terri Knutson, 5665 Morgan Mill Road, Carson City, NV 89701; Fax (775) 885-6147; or e-mail address tracysilverlake_eis@blm.gov. A limited number of copies of the FEIS may be obtained at the above BLM Field Office in Carson City, NV. The FEIS also is available electronically via the Carson City Field Office Home Page at: www.nv.blm.gov/carson. Comments, including names and street addresses of respondents, will be available for public review at the above address during regular business hours (7:30 a.m.–5 p.m.), Monday through Friday, except holidays, and may be published as part of the EIS.

Individual respondents may request confidentiality. If you wish to withhold your name or street address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your written comment. However, anonymous comments will not be considered. Such requests will be honored to the extent allowed by law. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

FOR FURTHER INFORMATION CONTACT: For additional information, write to the above address or call Terri Knutson (BLM Environmental Planner) at (775) 885-6156.

SUPPLEMENTARY INFORMATION: The FEIS analyzes the environmental impacts associated with the construction,

operation, and maintenance of the proposed 120 kV power line and two substations. The FEIS analyzes the proposed power line route and five alternative routes, as well as, an alternative site for each of the two proposed substations. Issues analyzed were brought forth through the public scoping process, cooperating agency coordination, and input from BLM's resource specialists. The proposed power line crosses several jurisdictions with permitting responsibilities, therefore, the following agencies or entities are active participants in the EIS process as formal cooperating agencies: Reno-Sparks Indian Colony; Washoe County; City of Reno; City of Sparks; Airport Authority of Washoe County; and Truckee Meadows Regional Planning Agency. A copy of the FEIS has been sent to all individuals, agencies, and groups who have expressed an interest in the project, or as mandated by regulation or policy.

Public participation has occurred throughout the EIS process. A Notice of Intent to Prepare an EIS was published in the **Federal Register** on June 25, 2002 and the 30-day public comment period was initiated. A BLM public, open house was held in Reno on July 17, 2002 and six additional presentations were made to local agencies, homeowner associations, and the Reno-Sparks Indian Colony Tribal Council.

The Draft EIS was filed with the Environmental Protection Agency and a Notice of Availability of the document, announcement of public presentations, and initiation of a 60-day comment period was published in the **Federal Register** on October 10, 2003 (Pages 58668–58669). Two BLM public, open houses were held in Reno and sixteen additional presentations were conducted for local governments, planning commissions, citizen advisory boards, homeowner associations, and the Reno-Sparks Indian Colony Tribal Council. Certain adaptations or revisions were made to the FEIS in response to comments received on the Draft EIS. The comments and BLM responses to those comments are included in the FEIS.

To assist the BLM in identifying and considering issues and concerns on the proposed action and alternatives, comments on the FEIS should be as specific as possible. Comments should also refer to specific pages or chapters in the document. After the 30-day comment period ends, all comments will be analyzed and considered by the BLM in preparing the Record of Decision.

Dated: June 10, 2004.

Elayn Briggs,

Assistant Manager, Carson City Field Office.

Notice of Availability of the Rogue National Wild and Scenic River: Hellgate Recreation Area Management Plan and Record of Decision

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: Notice is hereby given that the Bureau of Land Management (BLM), Medford District Office, Grants Pass Resource Area has prepared and approved the Rogue National Wild and Scenic River: Hellgate Recreation Area Management Plan and Record of Decision (RAMP/ROD) for the 27-mile stretch of the recreation section of the Rogue National Wild and Scenic River located in southern Josephine County, Oregon. The Rogue River was one of eight rivers identified as part of the National Wild and Scenic Rivers System when the Wild and Scenic Rivers Act was passed in 1968. The Wild and Scenic Rivers Act of 1968 established the wild and scenic rivers system (Pub. L. 90–542 and 99–590). The Wild and Scenic Rivers Act (WSRA) established a method for providing federal protection for certain remaining free-flowing rivers and preserving them and their immediate environments.

The Proposed Action (Alternative E), as analyzed in the FEIS, with minor decision changes resulting from public comments, are selected as the Record of Decision (ROD). It responds to issues raised during scoping and to public comments. It is a composite of various elements of the five alternatives (A to E) considered and analyzed in the Final EIS. The RAMP does the following: (1) Provides protection and enhancement of the outstandingly remarkable values while concurrently attaining the widest range of neutral and beneficial uses of the environment without degradation, (2) maintains an environment that supports diverse recreational opportunities, (3) integrates resource protection with an appropriate range of visitor uses, (4) contributes economically to the local communities, and (5) provides multi-resource standards and direction found in other legislation, policies, or management
