BILLING CODE 9110-10-P

DEPARTMENT OF HOMELAND SECURITY

Transportation Security Administration

Reports, Forms, and Record Keeping Requirements: Agency Information Collection Activity Under OMB Review; Transportation Worker Identification Credential (TWIC) Prototype; Transportation Worker Survey; Lead Stakeholder Port Security Interviews

AGENCY: Transportation Security Administration (TSA), DHS.

ACTION: Notice.

SUMMARY: This notice announces that TSA has forwarded the Information Collection Request (ICR) abstracted below to the Office of Management and Budget (OMB) for review and clearance under the Paperwork Reduction Act. The ICR describes the nature of the information collection and its expected burden. TSA published a **Federal Register** notice, with a 60-day comment period soliciting comments, of the following collection of information on April 5, 2004, 69 FR 17704.

DATES: Send your comments by August 26, 2004. A comment to OMB is most effective if OMB receives it within 30 days of publication.

ADDRESSES: Comments may be faxed to the Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: DHS-TSA Desk Officer, at (202) 395-5806.

FOR FURTHER INFORMATION CONTACT: Conrad Huygen, Office of Information Management Programs, TSA Headquarters, TSA-17, 601 South 12th Street, Arlington, VA 22202-4220; telephone (571) 227-1954; facsimile (571) 227-2906.

SUPPLEMENTARY INFORMATION:

Transportation Security Administration (TSA)

Title: Transportation Worker Identification Credential (TWIC) Prototype; Transportation Worker Survey; Lead Stakeholder Port Security Interviews.

Type of Request: New collection.

OMB Control Number: Not yet assigned.

Form(s): Transportation Worker Identification Credential (TWIC) Prototype Enrollment; Transportation Worker Survey.

Affected Public: Transportation Workers; Transportation Facility Security Stakeholders.

Abstract: TSA is in the process of evaluating the TWIC Program concept, which, if approved, will provide for a single, uniform credential nationwide for transportation workers who require access to secure transportation areas. In the Technology Evaluation phase, TSA evaluated five card technologies in various types of physical and logical access transactions. In the Prototype phase, the program intends to evaluate a broad range of business processes as they relate to credentialing, identity, and identity management. Specifically, TSA will evaluate certain technologies and business processes in the Prototype Phase of TSA's pilot project to fully development the program, measure credential performance and effectiveness, collect user feedback, and provide data analysis prior to proceeding to full-scale deployment. TSA will issue credentials to a select group of transportation workers and then administer two instruments to collect data on the effectiveness of the TWIC program as well as the satisfaction of the transportation workers who will be using these credentials.

Number of Respondents: 200,050.

Estimated Annual Burden Hours: 73,633.

Estimated Annual Cost Burden: \$0.

TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Issued in Arlington, Virginia, on July 20, 2004.

Susan T. Tracey,

Chief Administrative Officer.

Title: Transportation Worker Identification Credential (TWIC) National Survey.

Type of Request: New collection.

OMB Control Number: Not yet assigned.

Form(s): TWIC National Survey.

Affected Public: Transportation Site Security Directors or designees.

Abstract: TSA is in the process of evaluating the TWIC Program concept, which, if approved, will provide for a single, uniform credential nationwide for transportation workers who require access to secure transportation areas. In the Technology Evaluation phase, TSA evaluated five card technologies in various types of physical and logical access transactions, and in the Prototype phase, it intends to evaluate a broad

range of business processes as they relate to credentialing, identity, and identity management. The information collected for the TWIC National Survey will be used as a means to develop a predictive model of the current access control technology infrastructure at transportation sites across the nation, should the TWIC be approved for implementation. The information collected in the National Survey pertains to the transportation facility and the numbers and categories of transportation workers at the facility, not to the individuals. This information will be used to help determine implementation approaches for the TWIC Program at transportation facilities and modes across the country that differ by type and size. Participation will be voluntary.

Number of Respondents: 300.

Estimated Annual Burden Hours: 600.

Estimated Annual Cost Burden: \$0.

TSA is soliciting comments to—

BILLING CODE 4910-62-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Endangered and Threatened Wildlife and Plants; 5-Year Review of the Bliss Rapids Snail

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of review.

SUMMARY: The U.S. Fish and Wildlife Service ("we") announces a 5-year review of the Bliss Rapids snail (*Taylorconcha serpenticola*) under section 4(c)(2)(A) of the Endangered Species Act of 1973 (Act) (16 U.S.C. 1531 *et seq.*). The purpose of reviews conducted under this section of the Act is to ensure that the classification of species as threatened or endangered on the List of Endangered and Threatened Wildlife and Plants (List) is accurate.

We are requesting submission of the most current scientific and commercial information available on the Bliss Rapids snail since its original listing as a threatened species in 1992 (57 FR 59244). If the present classification of this species is not consistent with the best scientific and commercial information available at the conclusion of this review, we may propose a change in the listing status of this species. Any change in Federal classification would require a separate rule-making process.

DATES: In order to allow us adequate time to consider your information in this review, we must receive your information no later than September 24, 2004. We also continue to accept information about any listed species at any time.

ADDRESSES: Submit information and questions to the Field Supervisor, Attention Bliss Rapids Snail 5-Year Review, Snake River Fish and Wildlife Office, 1387 S. Vinnell Way, Suite 368, Boise, Idaho 83709. Comments may also be faxed to 208-378-5262, or e-mailed to fw1srboacomment@fws.gov. Please include "Bliss Rapids Snail 5-Year Review Comments" in the title line for faxes and e-mails. Please submit electronic comments in an ASCII file format, and avoid the use of special characters and encryption. Information received in response to this notice and review will be available for public inspection by appointment, during normal business hours, at the above address.

FOR FURTHER INFORMATION CONTACT: Steve Lysne at the above address, by phone at 208/378-5243, or by e-mail at steve_lysne@fws.gov.

SUPPLEMENTARY INFORMATION:

Why is a 5-year Review Conducted?

Section 4(c)(2)(A) of the Act requires that we conduct a review of listed species at least once every 5 years. We are then, under section 4(c)(2)(B) and the provisions of subsections (a) and (b) to determine, on the basis of such review, whether or not any species should be removed from the List (delisted), or reclassified from endangered to threatened, or threatened to endangered. Our regulations at 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing those species currently under active review. This notice announces our active review of the Bliss Rapids snail.

What Information is Considered in the Review?

The 5-year review considers all new information available at the time of the review. This review will consider the best scientific and commercial data that has become available since the current listing determination or most recent status review, such as:

A. Species biology including, but not limited to, population trends, distribution, abundance, demographics, and genetics;

B. Habitat conditions including, but not limited to, amount, distribution, and suitability;

C. Conservation measures that have been implemented that benefit the species;

D. Threat status and trends (*see* five factors under heading "How Do We Determine Whether a Species is Endangered or Threatened?"); and

E. Other new information, data, or corrections including, but not limited to, taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

How is the Bliss Rapids Snail Currently Listed?

The List is found in 50 CFR 17.11 (wildlife) and 17.12 (plants). Amendments to the List through final rules are published in the **Federal Register**. The List is also available on our Internet site at <http://endangered.fws.gov/wildlife.html#Species>. In Table 1 below, we provide a summary of the listing information for the Bliss Rapids snail.

TABLE 1.—SUMMARY OF THE LISTING INFORMATION FOR THE BLISS RAPIDS SNAIL

Common name	Scientific name	Status	Where listed	Final listing rule
