Subheading 9817.60.00, HTSUS, which implements section 1456(a) of the Act, states:

Any of the following articles not intended for sale or distribution to the public: personal effects of aliens who are participants in, officials of, or accredited members of delegations to, an international athletic event held in the United States, such as the Olympics and Paralympics, the Goodwill Games, the Special Olympics World Games, the World Cup Soccer Games, or any similar international athletic event as the Secretary of the Treasury may determine, and of persons who are immediate family members of or servants to any of the foregoing persons; equipment and materials imported in connection with any such foregoing event by or on behalf of the foregoing persons or the organizing committee of such an event, articles to be used in exhibitions depicting the culture of a country participating in such an event; and, if consistent with the foregoing, such other articles as the Secretary of the Treasury may allow.

Section 1456(b) of the Act, provides that such articles are free of duty, taxes, and fees, but are subject to routine inspections. The authority in section 1456 has been delegated to the Commissioner of Customs and Border Protection. See Homeland Security Act of 2002 (Public Law 107-296), Treasury Department Order No. 100-16, DHS Delegation Number 7010.1.

Title of Proposal: 2005 American Housing Survey—National Sample.

OMB Control Number: 2528–0017.

Description of the need for the information and proposed use: The 2005 American Housing Survey National Sample (AHS–N) provides a periodic measure of the size and composition of the housing inventory in our country. Title 12, United States Code, sections 1701Z–1, 1701Z–2(g), and 1710Z–10a mandates the collection of this information.

The 2005 survey is similar to previous AHS–N Surveys and collects data on subjects such as the amount and types of changes in the inventory, the physical condition of the inventory, the characteristics of the occupants, the persons eligible for the beneficiaries of assisted housing by race and ethnicity, and the number and characteristics of vacancies.

Policy analysts, program managers, budget analysts, and Congressional staff use AHS data to advise executive and legislative branches about housing conditions and the suitability of public policy initiatives. Academic researchers and private organizations also use AHS data in efforts of specific interest and concern to their respective communities. The Department of Housing and Urban Development (HUD) needs the AHS data for two important uses.

1. With the data, policy analysts can monitor the interaction among housing needs, demand and supply, as well as changes in housing conditions and

costs, to aid in the development of housing policies and the design of housing programs appropriate for different target groups, such as first-time home buyers and the elderly.

2. With the data, HUD can evaluate, monitor, and design HUD programs to improve efficiency and effectiveness.
