

IV. Discussion

After careful review, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange.¹⁰ In particular the Commission finds that the proposed rule to extend a pilot program establishing rules governing the use of the System by floor brokers on the Exchange is consistent with section 6(b)(5) of the Act, which requires that the rules of an exchange be designed to promote just and equitable principles of trade, remove impediments to and perfect the mechanism of a free and open market and a national securities system, and protect investors and the public interest.¹¹

The Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of the publication of notice thereof in the **Federal Register**. The Commission believes that granting accelerated approval to the proposed rule change on a pilot basis will allow the Exchange to have enforceable rules governing use of the Exchange's new System in effect prior to permanent approval of the rules, and will help ensure that members are properly trained and familiar with the rules. In addition, that Commission is granting accelerated approval in order to prevent a lapse in the effectiveness of the Exchange's rules governing operation of the System to ensure continuity of the pilot.

V. Conclusion

It is therefore ordered, pursuant to section 19(b)(2) of the Act,¹² that the proposed rule change (SR-Phlx-2004-46) is approved on an accelerated basis on a pilot basis until March 1, 2005.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹³

Margaret H. McFarland,
Deputy Secretary.
