

be problematic because of the low toxicity and the high degree of digestibility of the protein. In addition, the protein is not likely to be present in drinking water because the protein is deployed in minute quantities within the plant, and studies demonstrate that Cry1F (synpro) protein is rapidly degraded in soil. In summary, the potential for significant aggregate exposure to Cry1F (synpro) protein is highly unlikely.

E. Cumulative Exposure

Common modes of toxicity are not relevant to consideration of the cumulative exposure to *Bacillus thuringiensis* Cry1F (synpro) insect control protein. The product has demonstrated low mammalian toxicity and *Bacillus thuringiensis* insecticidal crystal proteins are known to bind to specific receptors in the insect gut, such that biological effects do not appear to be cumulative with any other known compounds.

F. Safety Determination

1. *U.S. population.* The deployment of the product in minute quantities within the plant, the very low toxicity of the product, the lack of allergenic potential, and the high degree of digestibility of the protein, are all factors in support of Mycogen's assertion that no significant risk is posed by exposure of the U.S. population to *Bacillus thuringiensis* subspecies *aizawai* Cry1F (synpro) insect control protein.

2. *Infants and children.* Non-dietary exposure to infants and children is not anticipated, due to the proposed use pattern of the product. Due to the very low toxicity of the product, the lack of allergenic potential, and the high degree of digestibility of the protein, dietary exposure is anticipated to be at very low levels and is not anticipated to pose any harm to infants and children.

G. Effects on the Immune and Endocrine Systems

Given the rapid digestibility of Cry1F (synpro) insecticidal crystal protein, no chronic effects are expected. Cry1F (synpro) insecticidal crystal protein, or metabolites of the insecticidal crystal protein are not known to, or are expected to have any effect on the immune or endocrine systems. Proteins in general are not carcinogenic, therefore, no carcinogenic risk is associated with the Cry1F (synpro) protein.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7800-1]

Notice of Tentative Approval and Solicitation of Request for a Public Hearing for Public Water System Supervision Program Revision for the State of West Virginia

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of tentative approval and solicitation of requests for a public hearing.

SUMMARY: Notice is hereby given in accordance with the provision of section 1413 of the Safe Drinking Water Act as amended, and the National Primary Drinking Water Regulations Implementation that the State of West Virginia is revising its approved Public Water System Supervision Program. West Virginia has adopted the Long Term 1 Enhanced Surface Water Treatment Rule to improve control of microbial pathogens in drinking water, including specifically the protozoan *Cryptosporidium*.

EPA has determined that these revisions are no less stringent than the corresponding Federal regulations. Therefore, EPA has decided to tentatively approve these program revisions. All interested parties are invited to submit written comments on this determination and may request a public hearing.

DATES: Comments or a request for a public hearing must be submitted by September 10, 2004. This determination shall become effective on September 10, 2004 if no timely and appropriate request for a hearing is received and the Regional Administrator does not elect on his own to hold a hearing, and if no comments are received which cause EPA to modify its tentative approval.

ADDRESSES: Comments or a request for a public hearing must be submitted to the U.S. Environmental Protection Agency Region III, 1650 Arch Street, Philadelphia, PA 19103-2029. Comments may also be submitted electronically to gambatese.jason@epa.gov. All documents relating to this determination are available for inspection between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, at the following offices:

- Drinking Water Branch, Water Protection Division, U.S. Environmental Protection Agency Region III, 1650 Arch Street, Philadelphia, PA 19103-2029.
- West Virginia Department of Health and Human Resources, Environmental

Engineering Division, 815 Quarrier Street, Suite 418, Charleston, WV 25301.

FOR FURTHER INFORMATION CONTACT:

Jason Gambatese, Drinking Water Branch at the Philadelphia address given above; telephone (215) 814-5759 or fax (215) 814-2318.

SUPPLEMENTARY INFORMATION: All interested parties are invited to submit written comments on this determination and may request a public hearing. All comments will be considered, and, if necessary, EPA will issue a response. Frivolous or insubstantial requests for a hearing may be denied by the Regional Administrator. However, if a substantial request for a public hearing is made by September 10, 2004, a public hearing will be held. A request for public hearing shall include the following: (1) the name, address, and telephone number of the individual, organization, or other entity requesting a hearing; (2) a brief statement of the requesting person's interest in the Regional Administrator's determination and of information that the requesting person intends to submit at such a hearing; and (3) the signature of the individual making the request; or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

Dated: August 3, 2004.

Donald S. Welsh,

Regional Administrator, Region III.

FEDERAL MARITIME COMMISSION
[Docket No. 04–08]

Qin’s, Incorporated v. Superior Link International, Inc.; Notice of Filing of Complaint and Assignment

Notice is given that a complaint has been filed by Qin’s, Incorporated (“Complainant”) against Superior Link International, Inc. (“Respondent”). Complainant contends that Respondent has unreasonably refused to deal or negotiate the proper release of Complainant’s two containers in violation of section 10(b)(10)¹ of the Shipping Act of 1984, 46 U.S.C. app. section 1709(b)(10). As a direct result of these allegations, Complainant claims that it has suffered substantial economic damages and injury valued at \$23,626.40. Complainant seeks an order directing Respondent to pay reparations, court costs, attorneys fees, and any further relief as the Commission may determine to be warranted.

This proceeding has been assigned to the Office of Administrative Law Judges. A hearing in this matter, if any is held, shall commence within the time limitations prescribed in 46 CFR 502.61, and only after consideration has been given by the parties and the presiding officer to the use of alternative forms of

dispute resolution. The hearing shall include oral testimony and cross-examination in the discretion of the presiding officer only upon showing that there are genuine issues of material fact that cannot be resolved on the basis of sworn statements, affidavits, depositions, or other documents or that the nature of the matter in issue is such that an oral hearing and cross-examination are necessary for the development of an adequate record. Pursuant to the further terms of 46 CFR 502.61, the initial decision of the presiding officer in this proceeding shall be issued by August 4, 2005 and a final decision of the Commission shall be issued by December 2, 2005.

Bryant L. VanBrakle,
Secretary.
