

## 1. Accreditation Panel

The panel will develop an audit protocol for reviewing compliance with the NAPPO laboratory accreditation standard (RSPM No. 9). They will then use this protocol to audit the programs in the three NAPPO countries starting with the United States. They will review and update the current NAPPO laboratory accreditation standard (RSPM No. 9).

## 2. Biological Control Panel

This panel will finalize the NAPPO standard on biological control containment facilities.

## 3. Biotechnology Panel

This panel will continue to develop a NAPPO standard for the review of products of biotechnology that focuses on the assessment of the potential to present a plant pest risk. The final module, importation for uses other than propagation, will be developed.

## 4. Citrus Panel

The panel will revise the NAPPO standard "Guidelines for the Importation of Citrus Propagative Material into a NAPPO Member Country" (RSPM No. 16) to include additional pests.

## 5. Fruit Panel

The panel will finalize the amendments to the plum pox virus standard (RSPM No. 18), and will prepare a new standard entitled "Guidelines for the International Movement of Pome and Stone Fruit Trees into a NAPPO Member Country."

## 6. Grapevine Panel

The panel will provide direction and support to the Technical Advisory Group to include insects and nematodes in the NAPPO standard for grapevines (RSPM No. 15).

## 7. Potato Panel

The panel will develop an appendix to RSPM No. 3 on nematode identification and update appendix 5 based on the latest molecular information for PVYn.

## 8. Propagative Material Panel

The panel will review and revise the "Concept Paper on Propagative Material" and begin the development of a NAPPO standard on the importation of plants for planting into NAPPO member countries.

## 9. Standards Panel

The panel will continue to provide updates on standards for the NAPPO newsletter, coordinate the review of

new and amended NAPPO standards and ensure that comments received during the country consultation phase are incorporated as appropriate, organize conference calls and prepare NAPPO discussion documents for possible use at the IPPC, and promote implementation of recently adopted standards.

The PPQ Deputy Administrator, as the official U.S. delegate to NAPPO, intends to participate in the adoption of these regional plant health standards, including the work described above, once they are completed and ready for such consideration.

The information in this notice includes all the information available to us on NAPPO standards currently under development or consideration. For updates on meeting times and for information on the working panels that may become available following publication of this notice, check the NAPPO Web site on the Internet at <http://www.nappo.org> or contact Mr. Nancy Klag (see **FOR FURTHER INFORMATION CONTACT** above). Information on official U.S. participation in NAPPO activities, including U.S. positions on standards being considered, may also be obtained from Mr. Klag.

Those wishing to provide comments on any of the topics being addressed by any of the NAPPO panels may do so at any time by responding to this notice (see **ADDRESSES** above) or by transmitting comments through Mr. Klag.

Done in Washington, DC, this 13th day of August 2004.

**Kevin Shea,**

*Acting Administrator, Animal and Plant Health Inspection Service.*

**DEPARTMENT OF AGRICULTURE****Forest Service****Information Collection; Request for Comment; Assessing and Extending the Utility of *The Natural Inquirer***

**AGENCY:** Forest Service, USDA.

**ACTION:** Notice.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, the Forest Service is seeking comments from all interested individuals and organizations on the new information collection entitled, "Assessing and Extending the Utility of *The Natural Inquirer*."

**DATES:** Comments must be received in writing on or before October 18, 2004, to be assured of consideration. Comments received after that date will be considered to the extent practicable.

**ADDRESSES:** Comments concerning this notice should be addressed to Dr. Barbara McDonald, Resource Valuation and Use Research, Forestry Sciences Laboratory, Forest Service, USDA, 320 Green Street, Athens, GA 30602-2044.

Comments also may be submitted via facsimile to (706) 559-4245 or by e-mail to [bmcDonald@fs.fed.us](mailto:bmcDonald@fs.fed.us).

The public may inspect comments received at Forestry Sciences Laboratory, Forest Service, USDA, 320 Green Street, Athens, Georgia, during normal business hours. Visitors are encouraged to call ahead to (706) 559-4224 to facilitate entry to the building.

**FOR FURTHER INFORMATION CONTACT:** Dr. Barbara McDonald, Resource Valuation and Use Research, at (706) 559-4224.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Relay Service (FRS) at 1-800-877-8339 twenty-four hours a day, every day of the year, including holidays.

**SUPPLEMENTARY INFORMATION:**

*Title:* Assessing and Extending the Utility of *The Natural Inquirer*.

*OMB Number:* 0596-New.

*Expiration Date of Approval:* N/A.

*Type of Request:* New.

*Abstract:* The Office of Management and Budget (OMB) created guidelines for information quality in accordance with Section 515 of Public Law 106-554. That section is known as the Data Quality Act. OMB published guidelines that require all federal government agencies to create their own agency-specific guidelines to ensure compliance with the Data Quality Act. Hence, the United States Department of Agriculture (USDA) created detailed guidelines for the quality of information disseminated by its agencies and offices. As an agency of the USDA, the Forest Service is subject to these guidelines.

The USDA guidelines state that the USDA "will strive to ensure and maximize the quality, objectivity, utility, and integrity of the information that its agencies and offices disseminate to the public." Specifically, the utility standard provides that agencies and offices should assess the usefulness of information disseminated to its intended users as well as the public.

Forest Service Research and Development (R&D) annually publishes a science journal for middle and high school students called *The Natural Inquirer*. *The Natural Inquirer* makes Forest Service research accessible and

interesting to middle and high school students. The distribution for the newest *Natural Inquirer*, which includes both national and international destinations, will be over 500,000. Formal, non-formal, and informal educators, as well as the general public, receive this journal through the Forest Service Conservation Education network, federal and state partners, and through *The Natural Inquirer* Web site. *The Natural Inquirer* provides a new benchmark for the utility of Forest Service research, as it extends the utility of the research to an educational resource meant to increase scientific literacy in middle and high school students.

Current evaluation of *The Natural Inquirer* by its users is not systematic or scientifically valid and provides only anecdotal information about the utility of the Forest Service research being presented. The Forest Service, therefore, needs a systematic and scientifically valid way of assessing the usefulness of the journal in accordance with USDA guidelines for implementing the Data Quality Act. Further, such systematic assessment should be the basis for extending the utility of information dissemination via *The Natural Inquirer*.

Five hundred respondents will be selected using a random sample based on addresses of individuals who have ordered *The Natural Inquirer* publication within the United States. They will be asked to respond to questions in the following categories: (1) The utility of *The Natural Inquirer* journal; (2) the utility of *The Natural Inquirer* Web site; (3) suggestions for improvement of *The Natural Inquirer*; and (4) selected demographic information regarding teaching experience.

The majority of information will be collected using the Dillman method through a mail survey instrument. Some personal interviews with a small sample of educators, and classroom observations will also be employed to assess how *The Natural Inquirer* is used in the classroom. A graduate student at the University of Georgia will collect the information. The graduate student will contact potential respondents via a postcard, then with the survey, follow-up postcards as necessary, and follow-up with a thank you note. A Forest Service social scientist will supervise the data collection.

A graduate student from the University of Georgia and a Forest Service social scientist will analyze and evaluate the collected information. The information collected will be used to increase accountability of Forest Service information outreach and to extend the

utility of *The Natural Inquirer* publication and Web site for educators and students.

The Forest Service has invested heavily in producing timely, relevant, and credible forest science across a wide range of natural resource disciplines. This information should be readily accessible to the general public, including non-traditional audiences such as students. *The Natural Inquirer* extends the utility of Forest Service research by making it accessible to a middle school audience. This information collection will enable the Forest Service to extend the utility of *The Natural Inquirer*, increase accountability regarding federal information outreach, and provide the most useful information possible to the public by gathering feedback on how to improve the journal for the use of its intended audience.

*Estimate of Annual Burden:* 20 minutes.

*Type of Respondents:* Individuals in the United States who have ordered *The Natural Inquirer*.

*Estimated Annual Number of Respondents:* 400.

*Estimated Annual Number of Responses per Respondent:* 1.

*Estimated Total Annual Burden on Respondents:* 133.33 hours.

Comment is invited on: (1) Whether this collection of information is necessary for the stated purposes and the proper performance of the functions of the agency, including whether the information will have practical or scientific utility; (2) the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission request for Office of Management and Budget approval.

Dated: August 13, 2004.

**Bov B. Eav,**  
Associate Deputy Chief for Research & Development.

#### California Coast Provincial Advisory Committee

**AGENCY:** Forest Service, USDA.

**ACTION:** Notice of meeting.

**SUMMARY:** The California Coast Provincial Advisory Committee (PAC) will meet on September 15 and 16, 2004, in Ukiah, California. The purpose of the meeting is to conduct annual implementation monitoring of two projects completed in previous years, relating to standards and guidelines in the Northwest Forest Plan (NWFP).

**DATES:** The meeting will be held from 8 a.m. to 5 p.m., September 15 and 16, 2004.

**ADDRESSES:** The meeting will be held in the field both days, beginning at the Bureau of Land Management Office Conference Room, 2550 North State St., Ukiah, CA.

**FOR FURTHER INFORMATION CONTACT:** Phebe Brown, Committee Coordinator, USDA, Mendocino National Forest, 825 N. Humboldt Avenue, Willows, CA 95988, (530) 934-1137; e-mail [pybrown@fs.fed.us](mailto:pybrown@fs.fed.us).

**SUPPLEMENTARY INFORMATION:** The two projects to be monitored are: (1) County Line hazardous fuel removal, Bureau of Land Management project; and (2) Elk Mountain fuelbreak, Upper Lake Ranger District of the Mendocino National Forest. The meeting is open to the public.

Dated: August 13, 2004.

**James D. Fenwood,**  
Designated Federal Official.
