

is an excellent guide in identifying current and potential applicant health needs. Its use results in considerable savings of time, by both center health staff and regional health consultants and staff, and of money, by reducing high medical program costs due to medical separations.

Revisions of the ETA 6-53 have been made to reflect the Workforce Investment Act, and to be more sensitive to applicants with health needs.

Type of Review: Revision.

Agency: Employment and Training Administration.

Title: Job Corps Health Questionnaire, ETA 6-53.

OMB Number: 1205-0033.

Agency Number: ETA 6-53.

Record Keeping: The applicant is not required to retain the records; admission counselors or contractor's main offices are required to retain records of applicants who are enrolled in the program for three years from the date of application.

Affected Public: Individuals or households.

Frequency: The form would be completed on each applicant.

Total Responses: 102,833.

Average Time for Responses: It takes approximately 5 minutes to complete the form. (It may take longer for some applicants.)

Estimated Total Burden Hours: 8,569. [102,833 (number of applications) / 12 (number of applications that can be completed in an hour) = 8,569]

Total Burden Cost: Operating and maintenance services associated with these forms are contracted yearly by the Federal government with outreach and admissions contractors, according to designated recruiting areas. This is one of the many functions the contractors perform for which precise costs cannot be identified. Based on the past experience of recruitment contractors, however, the annual cost for contractor staff and related cost is estimated to be about \$821,399. An additional cost of \$13,238 is added for the applicant's time. Making the total cost \$834,637. For the approximately 70 percent of the Job Corps applicants who have never worked, no value is determined. For the remaining 30 percent of applicants who have been in the work force previously for any length of time, whether full time or less, the current minimum wage of \$5.15 is used to determine the value of the applicant time.

Comments submitted in response to this comment request will be summarized and/or included in the request for Office of Management and Budget approval of the information

collection request: they will also become a matter of public record.

SUPPLEMENTARY INFORMATION:

I. Background

The Job Corps program authorized by the Workforce Investment Act (WIA) of 1998, is designed to serve low-income young women and men, 16 through 24, who are in need of additional vocational, educational and social skills training, and other support services in order to gain meaningful employment, return to school, or enter the Armed Forces. Job Corps is operated by the Department of Labor through a nationwide network of 118 Job Corps centers. The program is primarily a

residential program operating 24 hours per day, seven days per week, with non-resident enrollees limited by legislation to 20 percent of national enrollment. These centers presently accommodate more than 40,000 students. To ensure that the centers are filled with youth who are low-income as well as capable of and committed to doing the work necessary to achieve the benefits of Job Corps, certain eligibility requirements have been established by the legislation.

The purpose of this collection is to gather information from applicants to determine their eligibility for Job Corps. These forms are critical to the screening process. They are the initial forms completed by the Job Corps admissions counselors for each applicant.

Currently, the Office of Job Corps is soliciting comments concerning the proposed extension collection of the Job Corps Enrollee Allotment Determination to:
