#### SUPPLEMENTARY INFORMATION:

##### I. Background

The Job Corps program authorized by the Workforce Investment Act (WIA) of 1998, is designed to serve low-income young women and men, 16 through 24, who are in need of additional vocational, educational and social skills training, and other support services in order to gain meaningful employment, return to school, or enter the Armed Forces. Job Corps is operated by the Department of Labor through a nationwide network of 118 Job Corps centers. The program is primarily a residential program operating 24 hours per day, seven days per week, with non-resident enrollees limited by legislation to 20 percent of national enrollment. These centers presently accommodate more than 40,000 students.

The form ETA 678 is the only source of information about a student's training and subsequent placement in a job, further education, or military service. It is used to evaluate overall program effectiveness. The purpose of Job Corps is to train young people for the job market; the data collected on this automated form provides information as set forth in 20 CFR, subpart A, section 670.100.

##### II. Desired Focus of Comments

Currently, the Office of Job Corps is soliciting comments concerning the proposed extension of form ETA 678 Job

Corps Placement and Assistant Record to:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed above in the **ADDRESSES** section of this notice.

## **LIBRARY OF CONGRESS**

### **Copyright Office**

[Docket No. 2004-1 CARP DTRA4]

### **Digital Performance Right in Sound Recordings and Ephemeral Recordings**

**ACTION:** Initiation of voluntary negotiation period.

**SUMMARY:** The Copyright Office is announcing the initiation of a voluntary negotiation period for determining reasonable rates and terms for two compulsory licenses which, in one case, provides for a public performance of a sound recording by a new subscription service, and in the second instance, allows for the making of an ephemeral phonorecord of a sound recording in furtherance of making the permitted public performance. **FOR FURTHER INFORMATION CONTACT:** David O. Carson, General Counsel, or Tanya M. Sandros, Senior Attorney, Telephone: (202) 707-8380. Telefax: (202) 252-3423.

**SUPPLEMENTARY INFORMATION:** On January 6, 2004, the Office announced the voluntary negotiation period for adjusting rates and terms for the statutory licenses which provide for the public performance of a sound recording by means of a digital audio transmission, 17 U.S.C. 114, and the making of related ephemeral recordings, 17 U.S.C. 112(e), for the two-year license period beginning January 1, 2005. See 69 FR 689 (January 6, 2004). That notice specifically noted that the negotiations were for establishing rates and terms applicable to eligible nonsubscription transmissions and the related ephemeral recordings. However, the notice should also have stated that the negotiation process and any subsequent proceedings before a copyright arbitration royalty panel are to include the rates and terms applicable to a new subscription service for the same time period.

For purposes of the section 114 and the section 112 licenses, an "eligible nonsubscription transmission" and a "new subscription service" are defined in the following way. An "eligible nonsubscription transmission" is a noninteractive, digital audio transmission which, as the name implies, does not require a subscription for receiving the transmission. The transmission must also be made as part of a service that provides audio programming consisting in whole or in part of performances of sound recordings the purpose of which is to provide audio or entertainment programming, but not to sell, advertise, or promote particular goods or services. A "new subscription service," on the other hand, is a service that performs sound recordings by means of noninteractive subscription digital audio transmissions. A "new subscription service" is not to be confused with the three preexisting subscription services, Music Choice, DMX Music, Inc., and Muzak, L.P., or the two preexisting satellite digital audio radio services, XM Satellite Radio, Inc. and Sirius Satellite Radio, Inc. See 17 U.S.C. 114(j)(6) and (8). Rates and terms applicable to these particular services for use of the section 112 and section 114 licenses are adjusted every five years under a different standard. See 17 U.S.C. 114(f)(1) and 68 FR 39873 (July 3, 2003).

Because the procedures and standards for setting the statutory rates and terms applicable to eligible nonsubscription transmissions are the same as the standards for transmissions made by new subscription services, rates and terms for the public performance of a sound recording and the making of the

necessary ephemeral phonorecords for both transmission categories will be considered together in a single proceeding, just as they were during the initial rate setting proceeding. See 68 FR 27596 (May 20, 2003). Consequently, the rate setting process initiated with the publication of the January 6 notice shall consider both eligible nonsubscription transmissions and transmissions made by new subscription services.

Dated: January 28, 2004.
