

the statement to the Contact Person listed on this notice. The statement should include the name, address, telephone number and when applicable, the business or professional affiliation of the interested person.

In the interest of security, NIH has instituted stringent procedures for entrance into the building by non-government employees. Persons without a government I.D. will need to show a photo I.D. and sign-in at the security desk upon entering the building.

Information is also available on the Institute's/Center's home page: <http://www.pubmedcentral.nih.gov/about/nac.html>, where an agenda and any additional information for the meeting will be posted when available.

National Institutes of Health

Enhanced Public Access to National Institutes of Health (NIH) Research Information

ACTION: Notice.

SUMMARY: With this notice, NIH announces and seeks public comments regarding its plans to facilitate enhanced public access to NIH health-related research information. The NIH intends to request that its grantees and supported Principal Investigators provide the NIH with electronic copies of all final version manuscripts upon acceptance for publication if the research was supported in whole or in part by NIH funding. This would include all research grants, cooperative agreements, and contracts, as well as National Research Service Award (NRSA) fellowships. We define final manuscript as the author's version resulting after all modifications due to the peer review process. Submission of the final manuscript will provide NIH-supported investigators with an alternate means by which they will meet and fulfill the requirement of the provision of one copy of each publication in the annual or final progress reports. Submission of the electronic versions of final manuscripts will be monitored as part of the annual grant progress review and close-out process.

The NIH considers final manuscripts to be an important record of the research funded by the Government and will archive these manuscripts and any appropriate supplementary information in PubMed Central (PMC), NIH's digital repository for biomedical research. Six months after an NIH-supported research study's publication or sooner if the publisher agrees the manuscript will be made available freely to the public through PMC. If the publisher requests, the author's final version of the publication will be replaced in the PMC archive by the final publisher's copy with an appropriate link to the publisher's electronic database.

As with NIH's DNA sequence and genetics databases, this digital archive in PMC is expected to be fully searchable to enhance retrieval and can be shared with other international digital repositories to maximize archiving and to provide widespread access to this information. It is anticipated that investigators applying for new and competing renewal support from the NIH will utilize this resource by providing links in their applications to their PubMed archived information. This practice will increase the efficiency of the application and review process.

The NIH trusts that the up-to-six-month delay to public archiving in PMC recommended by the policy will not result in unreasonable or disproportionate charges to grantees. As with all other costs, NIH expects its grantees to be careful stewards of Federal funds and to carefully manage these resources. We will carefully monitor requested budgets and other costing information and would consider options to ensure that grantees' budgets are not unduly affected by this policy.

Background: The NIH is dedicated to improving the health of Americans by conducting and funding biomedical research that will help prevent, detect, treat, and reduce the burdens of disease and disability. In order to achieve these goals, it is essential to ensure that scientific information arising from NIH-funded research is available in a timely fashion to other scientists, health care providers, students, teachers, and the many millions of Americans searching the Web to obtain credible health-related information. The NIH's mission includes a long-standing commitment to share and support public access to the results and accomplishments of the activities that it funds.

Establishing a comprehensive, searchable electronic resource of NIH-funded research results and providing free access to all, is perhaps the most fundamental way to collect and disseminate this information. The NIH

must balance this need with the ability of journals and publishers to preserve their critical role in the peer review, editing, and scientific quality control process. The economic and business implications of any changes to the current paradigm must be considered as the NIH weighs options to ensure public access to the results of studies funded with public support without compromising the quality of the information being provided. The NIH has established and intends to maintain a dialogue with publishers, investigators, and representatives from scientific associations and the public to ensure the success of this initiative.

Request for Comments: The NIH encourages comments concerning its intentions to enhance public access to NIH-funded health-related research information as outlined in this notice. Comments on short-term impacts and suggestions for mitigating these are especially welcome.

Persons, groups, and organizations interested in commenting on NIH's intentions should direct their comments to the following NIH Web site: http://grants.nih.gov/grants/guide/public_access/add.htm. As an alternative, comments may be submitted by e-mail to PublicAccess@nih.gov or sent by mail to the following address: NIH Public Access Comments, National Institutes of Health, Office of Extramural Research, 6705 Rockledge Drive, Room 350, Bethesda, MD 20892-7963.

DATES: Comments must be received on or before November 16, 2004.

Dated: September 14, 2004.

Elias A. Zerhouni,
Director, National Institutes of Health.

Substance Abuse and Mental Health Services Administration

Advisory Committee for Women's Services; Notice of Meeting

Pursuant to Public Law 92-463, notice is hereby given of a meeting of the Substance Abuse and Mental Health Services Administration (SAMHSA) Advisory Committee for Women's Services in September 2004.

The open meeting of the Advisory Committee for Women's Services will include discussion around the activities of the Substance Abuse and Mental Health Services Administration involving Access to Recovery, criminal justice, co-occurring disorders, and an

update on women's issues as they relate to the Administrator's matrix, and current administrative and program developments.

Public attendance and public comments are welcome. Please communicate with the individual listed as contact to make arrangements to comment or to request special accommodations for persons with disabilities.

Substantive program information, a summary of the meeting, and a roster of committee members may be obtained either by accessing the SAMHSA Council Web site, <http://www.samhsa.gov/council/council> or by communicating with the contact whose name and telephone number is listed below. The transcript for the open session will also be available on the SAMHSA Council Web site.

Committee Name: Substance Abuse and Mental Health Services Administration Advisory Committee for Women's Services.

Meeting Date and Time: Open—Monday, September 27, 2004; 9 a.m.–5 p.m. Open—Tuesday, September 28, 2004; 9 a.m.–1:30 p.m.

Place: Doubletree Hotel, 1750 Rockville Pike, Rockville, Maryland 20852, telephone (301) 468-1100.

Contact: Carol D. Watkins, Executive Secretary, 1 Choke Cherry Road, Room 8-1002, Gaithersburg, Maryland 20857, telephone: (240) 276-2254; Fax (240) 276-2252, e-mail: carol.watkin2@samhsa.hhs.gov.

Dated: September 13, 2004.

Toian Vaughn,

Committee Management Officer, Substance Abuse and Mental Health Services Administration.

BILLING CODE 4162-20-P

DEPARTMENT OF HOMELAND SECURITY

Science and Technology Directorate; Notice of Availability of the Draft Environmental Impact Statement for the National Biodefense Analysis and Countermeasures Center Facility at Fort Detrick, Frederick, MD

AGENCY: Science and Technology Directorate, DHS.

ACTION: Notice of availability.

SUMMARY: In keeping with the purposes of the National Environmental Policy Act (NEPA), the Department of Homeland Security (DHS), has prepared, in cooperation with the U.S. Army, Fort Detrick, a Draft Environmental Impact Statement (DEIS) for the proposed National Biodefense Analysis and Countermeasures Center (NBACC) Facility for DHS, at Fort

Detrick in Frederick, Maryland. The DEIS evaluated the potential environmental impacts associated with the construction and operation of the proposed NBACC Facility.

DATES: DHS and the U.S. Army Garrison of Fort Detrick will hold a joint public hearing to receive comments on the DEIS on Tuesday, October 5, 2004, 7 p.m. to 9 p.m.

ADDRESSES: The meeting will be held at the Governor Thomas Johnson Middle School, 1799 Schifferstadt Boulevard, Frederick, Maryland, 21701.

Comments on the DEIS must be received no later than Monday, November 1, 2004. Additional information on how to submit comments is included in the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT:

Kevin Anderson, 301-846-2156.

SUPPLEMENTARY INFORMATION: The proposed action is construction and operation of the NBACC Facility with laboratory and office space that will enable DHS to safely conduct research to meet program requirements for biological threat characterization and bioforensic programs.:

- The National Bioforensics Analysis Center (NBFAC), designated in Presidential Directive *Biodefense for the 21st Century*, to be the lead Federal agency for conducting Biodefense analysis of evidence from a bio-crime or terrorist attack to attain a "biological fingerprint" to determine where the agent came from and the perpetration of the attack and

- The Biological Threat Characterization Center (BTCC), for conducting research to better understand current and future biological threats. The mission of the BTCC is to fill scientific knowledge gaps for high-consequence biological threat agents.

Significant issues analyzed in the DEIS included safety of laboratory operations; public health and safety; handling, collection, treatment, and disposal of research wastes; and analysis of other risks, as well as concerns for pollution prevention and impacts of the proposed action on air quality, biological resources, cultural resources, water resources, land use, and socioeconomic resources. Several alternatives were considered, including the No Action Alternative under which the new facility will not be built. The Notice of Intent for preparation of the DEIS was published in the **Federal Register** (69 FR 31830-31831, June 7, 2004).

Public Participation: To obtain copies of the DEIS or submit comments, please contact Kevin Anderson, Department of

Homeland Security, 7435 New Technology Way, Suite A, Frederick, Maryland, 21703, by telephone 301-846-2156, fax 301-682-3662, or e-mail kevin.anderson@dhs.gov. Comments, including names and addresses of respondents, will be available for public review during regular business hours at the above location. All submissions from organizations or businesses and from individuals identifying themselves as representatives or officials of organizations or businesses will be made available for public inspection in their entirety.

Maureen I. McCarthy,

Director, Office of Research and Development, Science and Technology Directorate.

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

[USCG-2004-19107]

National Boating Safety Advisory Council

AGENCY: Coast Guard, DHS.

ACTION: Notice of meetings.

SUMMARY: The National Boating Safety Advisory Council (NBSAC) and its subcommittees on boats and associated equipment, aftermarket marine equipment, and prevention through people will meet to discuss various issues relating to recreational boating safety. All meetings will be open to the public.

DATES: NBSAC will meet on Saturday, October 9, 2004, from 1 p.m. to 5 p.m., on Monday, October 11, 2004, from 1:30 p.m. to 4:30 p.m., and on Tuesday, October 12, 2004, from 8:30 a.m. to 12 noon. The Prevention Through People Subcommittee will meet on Sunday, October 10, 2004, from 8:30 a.m. to 12 noon. The Boats and Associated Equipment Subcommittee will meet on Sunday, October 10, 2004, from 1:30 p.m. to 5 p.m. The Aftermarket Marine Equipment Subcommittee will meet on Monday, October 11, 2004, from 8:30 a.m. to 12 noon. These meetings may close early if all business is finished. On Sunday, October 10, a Subcommittee meeting may start earlier if the preceding Subcommittee meeting has closed early. Written material and requests to make oral presentations should reach the Coast Guard on or before Tuesday, September 22, 2004. Requests to have a copy of your material distributed to each member of the
