### I. Background

[If you choose to comment on issues in this section, please include caption "Background" at the beginning of your comments.]

Under the Medicare program, eligible beneficiaries may receive covered services in a Home Health Agency (HHA) provided certain requirements are met. Sections 1861(o) and 1891 of the Social Security Act (the Act) establish distinct criteria for facilities seeking designation as HHAs. Regulations concerning provider agreements are at 42 CFR part 489 and those pertaining to activities relating to the survey and certification of facilities are at 42 CFR part 488. The regulations at 42 CFR 484 specify the conditions that an HHA must meet to participate in the Medicare program, the scope of covered services, and the conditions for Medicare payment for home health care.

Generally, to enter into an agreement, an HHA must first be certified by a State survey agency as complying with the conditions or requirements set forth in part 484 of our regulations. Then, the HHA is subject to regular surveys by a State survey agency to determine whether it continues to meet these requirements. There is an alternative, however, to surveys by State agencies.

Section 1865(b)(1) of the Act provides that, if a provider entity demonstrates through accreditation by an approved national accreditation organization that all applicable Medicare conditions are met or exceeded, we would "deem" those provider entities as having met the requirements. Accreditation by an accreditation organization is voluntary and is not required for Medicare participation.

If an accreditation organization is recognized by the Secretary as having standards for accreditation that meet or exceed Medicare requirements, any provider entity accredited by the national accrediting body's approved program would be deemed to meet the Medicare conditions. A national accreditation organization applying for approval of deeming authority under part 488, subpart A must provide us with reasonable assurance that the accreditation organization requires the accredited provider entities to meet requirements that are at least as stringent as the Medicare conditions. Our regulations concerning reapproval of accrediting organizations are set forth at § 488.4 and § 488.8(d)(3). The regulations at § 488.8(d)(3) require accreditation organizations to reapply for continued approval of deeming authority every 6 years or sooner, as determined by CMS. CHAP's term of approval as a recognized accreditation program for HHAs expires March 31,

#### II. Approval of Deeming Organizations

[If you choose to comment on this section, please include the caption "Approval of Deeming Organizations" at the beginning of your comments.]

Section 1865(b)(2) of the Act and our regulations at § 488.8(a) require that our findings concerning review and reapproval of a national accrediting organization's requirements consider, among other factors, the reapplying accreditation organization's: Requirements for accreditation; survey procedures; resources for conducting required surveys; capacity to furnish information for use in enforcement activities; monitoring procedures for provider entities found not in compliance with the conditions or requirements; and ability to provide us with the necessary data for validation.

Section 1865(b)(3)(A) of the Act further requires that we publish, within 60 days of receipt of an accreditation organization's complete application, a notice identifying the national accreditation body making the request, describing the nature of the request, and providing at least a 30-day public comment period. We have 210 days from our receipt of a completed application to publish approval or denial of the application.

The purpose of this proposed notice is to inform the public of our consideration of CHAP's request for approval of continued deeming authority for HHAs. This notice also solicits public comment on whether CHAP's requirements meet or exceed the Medicare conditions for participation for HHAs.

# III. Evaluation of Deeming Authority Request

[If you choose to comment on issues in this section, please include the caption "Evaluation of Deeming Authority Request" at the beginning of your comments.

On June 30, 2004, CHAP submitted all the necessary materials to enable us to make a determination concerning its request for reapproval as a deeming organization for HHAs. Under section 1865(b)(2) of the Act and our regulations at § 488.8 (Federal review of accreditation organizations), our review and evaluation of CHAP will be conducted in accordance with, but not necessarily limited to, the following factors:

- The equivalency of CHAP standards for HHAs as compared with our comparable HHA conditions of participation.
- CĤAP's survey process to determine the following:
- + The composition of the survey team, surveyor qualifications, and the ability of the organization to provide continuing surveyor training.
- + The comparability of CHAP processes to that of State agencies, including survey frequency, and the ability to investigate and respond appropriately to complaints against accredited facilities.
- + CHAP's processes and procedures for monitoring providers or suppliers found out of compliance with CHAP program requirements. These monitoring procedures are used only when CHAP identifies noncompliance. If noncompliance is identified through validation reviews, the survey agency monitors corrections as specified at § 488.7(d).
- + CHAP's capacity to report deficiencies to the surveyed facilities and respond to the facility's plan of correction in a timely manner.
- + CHAP capacity to provide us with electronic data in ASCII comparable code, and reports necessary for effective validation and assessment of the organization's survey process.
- + The adequacy of CHAP's staff and other resources, and its financial viability.
- + CHAP's capacity to adequately fund required surveys.

- + CHAP's policies with respect to whether surveys are announced or unannounced.
- + CHAP's agreement to provide us with a copy of the most current accreditation survey together with any other information related to the survey as we may require (including corrective action plans).
