Proposed Information Collection Activity; Comment Request

Proposed Projects:

Title: Refugee State-of-Origin Report ORR-11.

OMB No. 0970-0043.

Description: The information collection of ORR-11 (Refugee State-of-Origin Report) is designed to satisfy the statutory requirements of the Immigration and Naturalization Act (the Act). Section 412(a)(3) of the Act requires the Office of Refugee Resettlement (ORR) to compile and maintain data on the secondary migration of refugees in the United States after arrival.

In order to meet this legislative requirement, ORR requires each State to submit an annual count of the number of refugees who were initially resettled in another State. The State does this by counting the number of refugees with

Social Security numbers indicating residence in another State at the time of arrival in the United States. (The first three digits of the Social Security number indicate the State of residence of the applicant.)

Data submitted by the States are compiled and analyzed by an ORR statistician, who then prepares a summary report, which is included in ORR's Annual Report to Congress. The primary use of the data is to quantify and analyze refugee secondary migration among the 50 States. ORR uses these data to adjust its refugee arrival totals in order to calculate the ORR social service allocation.

Respondents: States.

Proposed Projects:

Title: Tribal Temporary Assistance for Needy Families Financial Report, ACF-196TT.

OMB No.: New collection.

Description: Authority to collect and report this information is found in the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA), Pub. L. 104-193.

Tribal entities with approved tribal plans for implementation of the

Temporary Assistance for Needy Families (TANF) program are required by statute to report financial data on a quarterly basis. This form provides specific data regarding Federal expenditures. Failure to collect this data would seriously compromise the Administration for Children and Families' (ACF) ability to monitor expenditures. This information is also used to estimate outlays and may be used to prepare ACF budget submissions to Congress. Financial management of the program would be seriously compromised if the expenditure data were collected on a less than quarterly basis. Federal policy requires the strictest controls on funding requirements, which necessitates quarterly review of documentation in support of Tribal expenditures for reimbursement.

In an effort to obtain comments on the content and use of this form, the form was distributed to ACF's Regional Offices and at various tribal conferences. Comments received were then used to guide us in the development of the product presented with this submittal.

Respondents: Tribal TANF Agencies.

BILLING CODE 4184-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Deviation From Competition to Extend the 5-Year Cooperative Agreement Between the Head Start Bureau and the National Center for Family Literacy

AGENCY: Administration on Children, Youth and Families, ACF, HHS.

ACTION: Notice.

SUMMARY: The five-year Cooperative Agreement between the Head Start Bureau and the National Center for Family Literacy (NCFL) expires September 28, 2004. The Head Start Act contains language requiring the Department of Health and Human Services to make available every year, at least \$3,000,000 to ensure that local Head Start programs receive training and technical assistance to help them provide high quality family literacy services. If the current Cooperative Agreement expires, the Department can not comply with the requirements of the Act. The Head Start Bureau intends to extend the current Cooperative Agreement with the National Center for Family Literacy for a period of one year (September 29, 2004–September 28, 2005), at a funding level of \$3,000,000.

The National Center for Family Literacy has been providing training and technical assistance to Head Start programs for the past five years. They have trained Head Start Family Literacy teams, consisting of administrators, supervisors and front line staff: those who deal with parents and children, and those who are responsible for distribution of resources within the programs. The training focuses on the areas of child development, parent education, helping programs to engage parents in working with their children, and adult education, and conducting them with sufficient intensity and duration to ensure positive outcomes. In addition, NCFL trainers provide on-site technical assistance to help programs implement family literacy services in their specific communities.

The NCFL has already developed training and technical assistance materials and protocols specifically designed to support Head Start programs as they implement family literacy services. Extending this cooperative agreement maintains the provision of training and technical assistance to local programs. Local programs would continue to receive services, and the Head Start Bureau would be assured that the full amount of money identified to provide support for family literacy services for this year would be spent in providing these

services, rather than in developing materials and protocols.
