

Respondents/Affected Entities: The affected entities are the 56 printing facilities which are participating in the PrintSTEP pilot in New Hampshire and St. Louis, Missouri, as well as the 2 State agencies implementing the pilots.

Estimated Number of Respondents: 58.

Frequency of Response: One-time response at the end of the pilot (including response to telephone survey and submission of written information).

Estimated Total Annual Hour Burden: 143 hours.

Estimated Total Annual Cost: \$5,000, includes \$0 annual capital/startup and SO&M costs.

Changes in the Estimates: There is a decrease of 1,857 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. Originally, the evaluation approach was going to include the use of a control group of printers. It was determined that this approach was not feasible. The decrease in hours is the result of not using a control group, as well as knowing the final number of printers who will be subject to the evaluation.
