Licensing Jurisdiction for QRS11 Micromachined Angular Rate Sensors

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Final rule.

SUMMARY: This final rule amends the Export Administration Regulations (EAR) to transfer, coincident with the State Department's written commodity jurisdiction determination of February 9, 2004, licensing jurisdiction for QRS11-00100-100/101 Micromachined Angular Rate Sensors from the Department of State to the Department of Commerce when those sensors are integrated into an instrument system

(CSIS) of the type described in ECCN 7A994 or aircraft of the type described in ECCN 9A991 that incorporates a CSIS that has such a sensor integrated, or are exported solely for integration into such a system. This rule also excludes systems or aircraft integrating QRS11-00100-100/101 sensors from eligibility for the *de minimis* provisions of the EAR, and excludes the sensors from license exception eligibility.

DATES: This rule is effective: February 9, 2004.

FOR FURTHER INFORMATION CONTACT: Gene Christiansen, Office of Strategic Trade, Bureau of Industry and Security, U.S. Department of Commerce at (202) 482-2984.

SUPPLEMENTARY INFORMATION:

Background

On January 7, 2004, the Department of State published a rule amending the International Traffic in Arms Regulations (ITAR) to remove from United States Munitions List (USML) jurisdiction certain quartz rate sensors when the sensors are integrated into and included as an integral part of a commercial standby instrument system for use on civil aircraft or exported solely for integration into such commercial standby instrument systems. The State Department will review on a case-by-case basis requests to determine whether a sensor is eligible for removal from the USML under the ITAR regulatory change, and must provide a written determination of commodity jurisdiction in order for the removal to take effect (69 FR 873).

As of February 9, 2004, the State Department has determined that QRS11-00100-100/101 Micromachined Angular Rate Sensors integrated into and included as an integral part of a Commercial Standby Instrument System (CSIS) of the type described in the Export Administration Regulations (EAR) under ECCN 7A994 or an aircraft of the type described in ECCN 9A991 that incorporates a CSIS that has such a sensor integrated, or exported solely for integration into such a system are subject to the licensing jurisdiction of the Department of Commerce. In all other cases, the QRS-11 Micromachined Angular Rate Sensors, including the QRS11-00100-100/101 sensors, are subject to the licensing jurisdiction of the Department of State, Directorate of Defense Trade Controls.

When exported solely for integration into a foreign-made CSIS, the QRS11-00100-100/101 is subject to Regional Stability controls under RS Column 1 in Part 738 of the EAR, requiring a license for export to all destinations except

Canada. A CSIS integrating the sensor or an aircraft incorporating such a CSIS are subject to Anti-Terrorism controls under AT Column 1. No license exceptions are available for the QRS11-00100-100/101 sensor or the CSIS integrating the sensor. License Exception AVS is available only for certain aircraft on temporary sojourn, specifically those eligible under § 740.15(a) of the EAR.

There is no *de minimis* level for foreign-made CSISs that contain QRS11-00100-100/101 Micromachined Angular Rate Sensors, or for foreign-made aircraft that incorporate CSISs that have QRS11-00100-100/101s integrated (see § 734.4(a) of the EAR). Both the instruments and the aircraft remain subject to the EAR regardless of their percentage, by value, of U.S. content.

This final rule involves no new curtailment of exports, because any transfer or removal of items from the licensing jurisdiction of the Department of State to the licensing jurisdiction of the Department of Commerce maintains a continuity of controls. Therefore, the provisions regarding the impact of new controls do not apply and contract sanctity also does not apply to this imposition of controls (50 app. U.S.C. Sec. 2405(p)).

Any violation of the International Traffic in Arms Regulations, including any violation of the terms and conditions of any Department of State issued export license, prior to the transfer of jurisdiction pursuant to this final rule, shall constitute a violation of the Arms Export Control Act. Items already exported under State jurisdiction, including pursuant to USML licenses, will remain subject to State jurisdiction until such time as the exporter requests and Commerce issues authorization to replace the State license. Upon notification by Commerce of such authorization, State will revoke any previously issued licenses. Such items exported under the ITAR, including pursuant to USML licenses, but made subject to the EAR by this rule and written determination of the Department of State may, thereafter, be integrated into CSISs or aircraft that incorporate CSISs that have such sensors integrated, or reexported in accordance with the provisions of this rule. Actions pending at the Department of State on February 9, 2004, including pending license applications, must be refiled with the Department of Commerce. In addition, items exported or reexported without a USML license prior to a change in jurisdiction in accordance with this rule must be disclosed to the Department of State pursuant to 22 CFR 127.12 prior to requesting Commerce authorization.

Consistent with the provisions of section 6 of the Export Administration Act, a foreign policy report was submitted to Congress on February 3, 2004, notifying the Congress of the change in licensing jurisdiction reflected in this rule.

Although the Export Administration Act expired on August 20, 2001, the President, through Executive Order 13222 of August 17, 2001 (66 FR 44025, 3 CFR, 2001 Comp., p. 783), as extended by the Notice of August 7, 2003 (68 FR 47833, August 11, 2003), has continued the Export Administration Regulations in effect under the International Emergency Economic Powers Act.

Rulemaking Requirements

1. This final rule has been determined to be not significant for purposes of E.O. 12866.

2. Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information, subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid Office of Management and Budget Control Number. This rule involves a collection of information subject to the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*). This collection has been approved by the Office of Management and Budget under control number 0694-0088, "Multi-Purpose Application," which carries a burden hour estimate of 58 minutes for a manual or electronic submission. Send comments regarding these burden estimates or any other aspect of these collections of information, including suggestions for reducing the burden, to OMB Desk Officer, New Executive Office Building, Washington, DC 20503; and to the Office of Administration, Bureau of Industry and Security, Department of Commerce, 14th and Pennsylvania Avenue, NW., Room 6883, Washington, DC 20230.

3. This rule does not contain policies with Federalism implications as that term is defined under E.O. 13132.

4. The provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring prior notice, the opportunity for public comment, and a delay in effective date, are inapplicable because this regulation involves a military and foreign affairs function of the United States (5 U.S.C. 553(a)(1)). Further, no other law requires that prior notice and an opportunity for public comment be given for this final rule. Because prior notice and an opportunity for public comment are not required to be given for this rule under the

Administrative Procedure Act or by any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable. Therefore, this regulation is issued in final form. Although there is no formal comment period, public comments on this regulation are welcome on a continuing basis. Comments should be submitted to Hillary Hess, Office of Exporter Services, Bureau of Export Administration, Department of Commerce, P.O. Box 273, Washington, DC 20044.

§ 734.3 Items subject to the EAR.

(a) * * *

(3) U.S. origin parts, components, materials or other commodities integrated abroad into foreign-made products, U.S. origin software commingled with foreign software, and U.S. origin technology commingled with foreign technology:

(i) In any quantity, as described in section 734.4(a) of this part; or

- (b) Removing and reserving paragraph (b); and
- (c) Revising the introductory text for paragraph (c), to read as follows:

§ 734.4 De minimis U.S. content.

(a) *Items for which there is no de minimis level.* (1) There is no de minimis level for the export from a foreign country of a foreign-made computer exceeding 190,000 MTOPS containing U.S.-origin controlled semiconductors (other than memory circuits) classified under ECCN 3A001 to Computer Tier 3; or exceeding 28,000 MTOPS containing U.S.-origin controlled semiconductors (other than memory circuits) classified under ECCN 3A001 or high speed interconnect devices (ECCN 4A994.j) to Computer Tier 4 countries described in § 742.12 of the EAR.

(2) There is no de minimis level for foreign-made items that incorporate U.S.-origin items controlled for "EI" reasons under ECCN 5A002, 5D002 or 5E002 on the Commerce Control List (Supplement No. 1 to part 774 the EAR). However, exporters may, as part of an encryption review request, ask that software controlled for EI reasons under ECCN 5D002 and eligible for export under the "retail" or "source code" provisions of license exception ENC, and parts and components controlled under ECCN 5A002, be made eligible for de minimis treatment. The review of de minimis eligibility will take U.S. national security interests into account. Other encryption items controlled for NS or AT reasons under ECCNs 5D002, 5A992, 5D992, and 5E992 are not eligible for de minimis treatment, unless exporters have complied with the applicable notification or review requirements described in § 740.13(e), § 742.15(b)(1), and § 742.15(b)(2) of the EAR. Encryption items controlled by ECCN 5A992, 5D992, or 5E992 and described in § 742.15(b)(3) of the EAR are not subject to these notification or review requirements.

(3) There is no de minimis level for foreign-made:

(i) Commercial Standby Instrument Systems (CSIS) of the type described in ECCN 7A994 on the Commerce Control List (Supplement No. 1 to part 774 the EAR) when the CSISs integrate QRS11-00100-100/101 Micromachined Angular Rate Sensors; and

(ii) Aircraft of the type described in ECCN 9A991 when such aircraft incorporate a CSIS integrating a QRS11-00100-100/101 sensor.

Note to paragraph (a)(3): QRS11 Micromachined Angular Rate Sensors are subject to the export licensing jurisdiction of the U.S. Department of State, Directorate of

Defense Trade Controls, except when the QRS11-00100-100/101 version of the sensor is integrated into and included as an integral part of a CSIS of the type described in ECCN 7A994 or aircraft of the type described in ECCN 9A991 that incorporates a CSIS that has such a sensor integrated, or is exported solely for integration into such a system.

(b) [Reserved]

(c) Except as provided in paragraph (a) of this section for certain computers, items controlled for EI reasons, and certain aircraft and instrument systems, the following reexports are not subject to the EAR when made to a terrorist-supporting country listed in Country Group E:1 (see Supplement No. 1 to part 740 of the EAR):
