SUPPLEMENTARY INFORMATION:

I. Abstract

The Foreign Trade Zones Application is the vehicle by which individual firms or organizations apply for foreign-trade zone (FTZ) status, for subzone status, for manufacturing authority (including temporary/interim authority), or for expansion of an existing zone. The FTZ Act and Regulations require that an application with a description of the proposed project be made to the FTZ Board (19 U.S.C. 81b and 81f; 15 CFR 400.24-26) before a license can be issued or a zone can be expanded. The Act and Regulations require that applications contain detailed information on facilities, financing, operational plans, proposed manufacturing operations, need, and economic impact. Manufacturing activity in zones, which is primarily conducted in subzones, can involve issues related to domestic industry and trade policy impact. Such applications must include specific information on the Customs-tariff related savings that result from zone procedures and the economic consequences of permitting such savings. The FTZ Board needs complete and accurate information on the proposed operation and its economic effects because the Act and Regulations authorize the Board to restrict or prohibit operations that are detrimental to the public interest.

II. Method of Collection

U.S. firms or organizations submit applications to the Foreign-Trade Zones Board.
