SUPPLEMENTARY INFORMATION:**Background**

On June 3, 2004, NMFS published a proposed policy addressing the role of hatchery produced Pacific salmon and *O. mykiss* in ESA listing determinations (69 FR 31354; "proposed hatchery listing policy"). The proposed hatchery listing policy would supersede NMFS' 1993 Interim Policy on salmonid artificial (hatchery) propagation (58 FR 17573; April 5, 1993), which requires revision following the 2001 U.S. District Court ruling in *Alsea Valley Alliance v. Evans* (161 F. Supp. 2d 1154, D. Ore. 2001; appeal dismissed, 358 F.3d 1181 (9th Cir. 2004); *Alsea* ruling). The *Alsea* ruling held that NMFS had made an improper distinction under the ESA by not listing certain artificially propagated salmon populations determined to be part of the same Evolutionarily Significant Unit (ESU) as listed natural populations. Under the proposed hatchery listing policy: hatchery fish with a level of genetic divergence relative to local natural populations that is no more than would be expected between closely related populations within the ESU would be included as part of the ESU; within-ESU hatchery fish would be considered in determining whether the ESU should be listed under the ESA; and within-ESU hatchery fish would be included in any listing of the ESU. NMFS applied this proposed policy in conducting its comprehensive review of ESA listing status for 26 previously listed ESUs, and one candidate ESU, of West Coast salmon and *O. mykiss*.

With the publication of the proposed hatchery listing policy NMFS announced a 90-day public comment period extending through September 1, 2004. In **Federal Register** notices published on August 31, 2004 (69 FR 53039) and September 9, 2004 (69 FR 54647), NMFS extended the public comment period for the proposed policy through October 20, 2004. Additionally, NMFS announced that it would hold

public hearings at eight locations in the Pacific Northwest and six locations in California to provide additional opportunities and formats to receive public input. To date NMFS has held seven of these public hearings in Oregon, Washington, and Idaho, and all six public hearings in California.

Extension of Public Comment Period

NMFS has received a request from a U.S. congressional representative to extend the public comment period and postpone any remaining public meetings to provide additional opportunity for the public to consider the proposed hatchery listing policy and to provide comment. In this notice NMFS is extending the public comment period through November 12, 2004.

Rescheduling of Public Hearing

In addition to extending the public comment period, NMFS is rescheduling a public hearing in Portland, OR (originally to be held on October 13, 2004) to be held on November 9, 2004 (see **ADDRESSES** for hearing location).

Public Hearing Format

Joint Commerce-Interior ESA implementing regulations state that the Secretary shall promptly hold at least one public hearing if any person requests one within 45 days of publication of a proposed regulation to list a species or to designate critical habitat (see 50 CFR 424.16(c)(3)). In past ESA rule-making, NMFS has conducted traditional public hearings, consisting of recorded oral testimony from interested individuals. This format, although providing an alternative means of public input, is time consuming for the attendees and does not provide opportunities for dialogue and information exchange. In the **Federal Register** notice published on August 31, 2004 (69 FR 53039), NMFS described an alternative "open-house" format aimed at providing all hearing participants with the opportunity to obtain information on and discuss the proposed hatchery listing policy. NMFS has held seven of these "open-house" style public hearings, and believes that the new format improves the ability of the public to engage effectively in the rulemaking process.

Afternoon Practitioners' Session

An afternoon session (1:30 p.m. to 4:30 p.m., November 9, 2004) in Portland (Oregon) will be provided for local practitioners and stakeholders involved with managing the ESA on a regular basis, including: tribal governments; forestry and agricultural interests; home builders and developers;

the sport and commercial fishing community; the environmental community; the business community; utility and special districts; local government elected officials and their staff; other locally based Federal and state agencies; and public interest groups. Attendance at the afternoon sessions in Portland (Oregon) will be on a pre-registration basis. Information on attending the practitioners' afternoon session in Portland is available from NMFS upon request (see **FOR FURTHER INFORMATION CONTACT**, above) as well as on the Internet at <http://www.nwr.noaa.gov/AlseaResponse/20040528/PortlandMeeting.html>.

Evening Open House and Public Testimony

An evening "open house" session, designed for broader public participation, will be conducted in Portland (Oregon) on the same day as the afternoon practitioners' session (November 9, 2004) from 6:30 p.m. to 9:30 p.m. The "open house" format will provide the general public with an opportunity to meet with NMFS staff in small groups on specific topics. This evening meeting will also provide opportunities for the public to make formal recorded comments on the proposal. There is no need to register; just drop in anytime during the course of the evening event.

Special Accommodations

This hearing is physically accessible to people with disabilities. Requests for sign language or other aids should be directed to Garth Griffin (see **ADDRESSES**) 7 days before the meeting date.
