

The HBCU–NRC grantee will be required to report quarterly on their progress in meeting the Required Activities in Section I. Funding Opportunity Description of this NOFA as well as any other activities proposed in the application. At present, performance measures for these required activities have not been established. In “Section D. Evaluation and Data,” applicants must describe their current ability to collect and report data on their progress in meeting the Required Activities and any other proposed activities. Applicants may also propose performance measures to be considered by SAMHSA. The HBCU–NRC steering committee will work to build consensus around a common set of performance measures aligned with the Required Activities and program goals in Section I. Funding Opportunity Description of this NOFA. The grantee will be required to report in narrative format on the broad themes around their progress in their quarterly reports. Once SAMHSA has obtained necessary approval from the Office of Management and Budget (OMB), further data requirements will be mandated based on the consensus from the steering committee. The grantee may choose at any time to begin collecting more specific data related to the agreed upon measures to assist in building local support for continued sustainability for their activities once the period of Federal funding ends. SAMHSA will work with the grantee to assist them in building performance measurement systems that will provide needed local policy information.

Program activities may be used to demonstrate SAMHSA’s contribution to the White House Initiative for Historically Black Colleges and Universities.

Outcome measures expected from the HBCU–NRC:

- Program reports and evaluations that include client satisfaction and performance with relevant Government Performance and Results Act (GRPA) measures.
- Practice changes resulting from participating in the substance abuse and HIV prevention, substance abuse treatment, and mental health wellness tracks at the Dr. Lonnie E. Mitchell Substance Abuse Conference.
- An increase in the number of HBCUs that will make substance abuse and mental health a major part of their student orientations by 25% in year 2 and 50% in year 3 relative to the baseline estimate in year 1 of the project.
- An increase in the number of HBCUs that offer courses,

concentrations, minors and/or majors in the fields of substance abuse and/or addiction and mental health by 15% in year 2 and 30% in year 3 relative to the baseline estimate in year 1 of the project.
