Key Dates:

Letter of Intent Deadline:

Cycle A: November 22, 2004

Cycle B: February 3, 2005

Application Deadline:

Cycle A: December 22, 2004

Cycle B: April 6, 2005

Letter of Intent (LOI) and Application deadline dates for cycles in FY 2006, 2007, 2008 and 2009 will be published in the **Federal Register** each year.

I. Funding Opportunity Description

Authority:

The Centers for Disease Control and Prevention (CDC) program is authorized under section 317(k) (2) (c) and (d) of the Public Health Service Act, [42 U.S.C. 247b (k) (2) (c) and (d)].

Purpose:

The Centers for Disease Control and Prevention (CDC) announce the pending availability of appropriated fiscal year (FY) 2005 funds for National Center for the Chronic Disease Prevention and Health Promotion Conference Support Program. This program addresses the "Healthy People 2010" focus areas of Arthritis, Osteoporosis, and Chronic Back Conditions, Cancer, Diabetes, Educational and Community-Based Programs, Heart Disease and Stroke, Maternal, Infant and Child Health,

Vision and Newborn Hearing (specifically newborn screening, evaluation and intervention), Oral Health, Physical Activity and Fitness, Respiratory Diseases, Sexually Transmitted Diseases, and Tobacco Use.

HIV Conferences and HIV subject matter are covered under another program and are not permitted under this announcement.

The purpose of conference support funding is to provide partial support for specific non-Federal conferences in the areas of health promotion and disease prevention information and education programs, and applied research.

Applicants can submit applications for conferences that are not a part of series for a one-year project period or an applicant can submit a proposal for a five year project period when a series of annual conferences are proposed by a sponsoring organization. The applicant can submit applications on an annual basis for up to five years for a series of conferences or the applicant can submit one application for five years of proposed activities. A series is proposed as the exact same focus area within the scope of the program announcement conducted more than one time during the project period. An applicant can apply for funding for more than one different conference during the project period. Each application must focus on one topic area.

Conference support by CDC creates the appearance of CDC co-sponsorship, where there will be active participation by CDC in the development and approval of the conference agenda to make sure there are no subjects that would be contradictory to the goals of the Government or be an improper use of funds. CDC funds will be expended only for approved portions of the conference.

The mission of CDC is to promote health and improve the quality of life by preventing and controlling disease, injury, and disability.

This is occurring through the support of conferences and meetings in the areas of public health research, education, prevention research in program and policy development in managed care and also through prevention application. CDC is meeting its overall goal of dissemination and implementation of new cost-effective intervention strategies.

Measurable outcomes of the program will be in alignment with one or more of the following performance goal(s) for the National Center for Chronic Disease Prevention and Promotion: (1) Increase early detection of breast and cervical cancer by building nationwide programs in breast and cervical cancer prevention,
