SUPPLEMENTARY INFORMATION:

Description

The information collection submitted for OMB review contains the following:

1. *Collection of Information:* FERC-519 "Application for Sale, Lease or Disposition, Merger or Consolidation of

Facilities or for Purchase or Acquisitions of Securities."

2. *Sponsor:* Federal Energy Regulatory Commission.

3. *Control No.:* 1902-0082.

The Commission is now requesting that OMB review and approve with a three-year extension of the expiration date, with no changes to the existing collection. The information filed with the Commission is mandatory.

4. *Necessity of the Collection of Information:* Submission of the information is necessary to enable the Commission to carry out its responsibilities in implementing the statutory provisions section 203 of the Federal Power Act (FPA), 16 U.S.C. 824b. Section 203 authorizes the Commission to grant approval of transactions in which a public utility disposes of jurisdictional facilities, merges such facilities with the facilities owned by another person or acquires the securities of another public utility. Under this statute, the Commission must find that the proposed transaction will be consistent with the public interest. Section 318 of the FPA exempts certain persons from the requirements of section 203 that would otherwise concurrently apply under the Public Utility Holding Company Act of 1935.

Under section 203 of the FPA, FERC must review proposed mergers, acquisitions and dispositions of jurisdictional facilities by public utilities, if the value of the facilities exceeds \$50,000, and must approve these transactions if they are consistent with the public interest. Today, one of FERC's overarching goals is to promote competition in wholesale power markets, having determined that effective competition, as opposed to traditional forms of price regulation, can best protect the interests of ratepayers. Market power, however, can be exercised to the detriment of effective competition and customers. Therefore, FERC regulates transmission service, mergers and wholesale rates so as to prevent the exercise of market power in bulk power markets. The Commission implements these filing requirements in

the Code of Federal Regulations (CFR) under 18 CFR part 33.

5. *Respondent Description*: The respondent universe currently comprises 134 companies (on average per year) subject to the Commission's jurisdiction.

6. *Estimated Burden*: 52,930 total hours, 134 respondents (average per year), 1 response per respondent, and 395 hours per response (average).

7. *Estimated Cost Burden to Respondents*: \$6,141,456. (The Commission anticipates over the next three years that it will receive 132 "203 applications for non-merger transactions" at an average of \$37,200 and 2 merger applications not requiring complex analysis at an average of \$615,528 per application.)

Statutory Authority: Section 203 of the Federal Power Act, (18 U.S.C. 824b).

Magalie R. Salas,
Secretary.
